

Kohlberg's Moral Stages

Level and Age	Stage	What determines right and wrong?
Preconventional Up to the age of 9	Punishment & Obedience	Right and wrong defined by what they get punished for. If you get told off for stealing then obviously stealing is wrong
	Instrumental-Relativist	Similar, but right and wrong is now determined by who we are rewarded for, and by doing what others want. Any concern for others is motivated by selfishness.
Conventional Most adolescents and adults	Interpersonal concordance	Being good is whatever pleases others. The child adopts a conformist attitude to morality. Right and wrong are determined by the majority.
	Law and order	Being good now means doing your duty to society. To this end we obey laws without question and show a respect for authority. Most adults do not progress past this stage.
Postconventional:1 0 to 15% of the over 20s.	Social contract	Right and wrong now determined by personal values, although these can be over-ridden by democratically agreed laws. When laws infringe our own sense of justice we can choose to ignore them.
	Universal ethical principle	We now live in accordance with deeply held moral principles which are seen as more important than the laws of the land.

Moral Error Theory Jonas Olson, 2014-01-23 Jonas Olson presents a critical survey of moral error theory the view that there are no moral facts and so all moral claims are false In Part I History he explores the historical context of the debate and discusses the moral error theories of David Hume and of some more or less influential twentieth century philosophers including Axel Hagerström Bertrand Russell Ludwig Wittgenstein and Richard Robinson He argues that the early cases for moral error theory are suggestive but that they would have been stronger had they included something like J L Mackie's arguments that moral properties and facts are metaphysically queer Part II Critique focuses on these arguments Olson identifies four queerness arguments concerning supervenience knowledge motivation and irreducible normativity and goes on to establish that while the first three are not compelling the fourth has considerable force especially when combined with debunking explanations of why we tend to believe that there are moral properties and facts when in fact there are none One conclusion of Part II is that a plausible error theory takes the form of an error theory about irreducible normativity In Part III Defence Olson considers challenges according to which that kind of error theory has problematic ramifications regarding hypothetical reasons epistemic reasons and deliberation He ends his discussion with a consideration of the implications of moral error theory for ordinary moral thought and talk and for normative theorizing **Realism and Antirealism in Kant's Moral Philosophy** Robinson dos Santos, Elke Elisabeth Schmidt, 2017-12-18 The debate between moral realism and antirealism plays an important role in contemporary metaethics as well as in the interpretation of Kant's moral philosophy This volume aims to clarify whether and in what sense Kant is a moral realist an antirealist or something in between Based on an explication of the key metaethical terms internationally recognized Kant scholars discuss the question of how Kant's moral philosophy should be understood in this regard All camps in the metaethical field have their inhabitants Some contributors read Kant's philosophy in terms of a more or less robust moral realism objectivism or idealism and some of them take it to be a version of constructivism constitutionism or brute antirealism In any case all authors introduce and defend their terminology in a clear manner and argue thoughtfully and refreshingly for their positions With contributions of Stefano Bacin Jochen Bojanowski Christoph Horn Patrick Kain Lara
