Solutions for the Assessment of Bilinguals Virginia C. Mueller Gathercole, 2013-09-27 Solutions for the Assessment of Bilinguals presents innovative solutions for the evaluation of language abilities and proficiency in multilingual speakers and by extension the evaluation of their cognitive and academic abilities This volume brings together researchers working in a variety of bilingual settings to discuss critical matters central to the assessment of bilingual children and adults The studies include typically developing bilingual children bilingual children who may be at risk for language impairments bilingual and multilingual children and adults found in classrooms and second language learners in childhood and adulthood The contributions propose a variety of ways of assessing performance and abilities in the face of the multiple issues that complicate the best interpretation of test performance **Library of Congress Subject Headings** Library of Congress.

Office for Subject Cataloging Policy, 1991 **The Oxford Handbook of Reading** Alexander Pollatsek, Rebecca Treiman, 2015-07-21 Writing is one of humankind's greatest inventions and modern societies could not function if their citizens could not read and write How do skilled readers pick up meaning from markings on a page so quickly and how do children learn to do so The chapters in the Oxford Handbook of Reading synthesize research on these topics from fields ranging from vision science to cognitive psychology and education focusing on how studies using a cognitive approach can shed light on how the reading process works To set the stage the opening chapters present information about writing systems and methods of studying reading including those that examine speeded responses to individual words as well as those that use eye movement technology to determine how sentences and short passages of text are processed The following section discusses the identification of single words by skilled readers as well as insights from studies of adults with reading disabilities due to brain damage Another section considers how skilled readers read a text silently addressing such issues as the role of sound in silent reading and how readers' eyes move through texts Detailed quantitative models of the reading process are proposed throughout The final sections deal with how children learn to read and spell and how they should be taught to do so These chapters review research with learners of different languages and those who speak different dialects of

a language discuss children who develop typically as well as those who exhibit specific disabilities in reading and address questions about how reading should be taught with populations ranging from preschoolers to adolescents and how research findings have influenced education The Oxford Handbook of Reading will benefit researchers and graduate students in the fields of cognitive psychology developmental psychology education and related fields e g speech and language pathology who are interested in reading reading instruction or reading disorders

**Writing Systems, Reading Processes, and Cross-Linguistic Influences** Hye K. Pae, 2018-07-15 This book provides readers with a unique array of scholarly reflections on the writing systems of Chinese Japanese and Korean in relation to reading processes and data driven interpretations of cross language transfer Distinctively broad in scope topics addressed in this volume include word reading with respect to orthographic phonological morphological and semantic processing as well as cross linguistic influences on reading in English as a second language or a foreign language Given that the three focal scripts have unique orthographic features not found in other languages Chinese as logography Japanese with multi scripts and Korean as non Roman alphasyllabary chapters expound script universal and script specific reading processes As a means of scaling up the body of knowledge traditionally focused on Anglocentric reading research the scientific accounts articulated in this volume importantly expand the field s current theoretical frameworks of word processing to theory building with regard to these three languages
