Readings on Crime and Punishment Derek C. Maus, 2000 Briefly traces the life of Dostoyevsky summarizes the plot and characters of Crime and Punishment and offers articles on the novel s critical reception composition and philosophical Readings in Crime and Punishment Michael Tonry, 19?? Altered Reading Jill Robbins, 1999-05-15 How might the ethical philosophy of the renowned French thinker Emmanuel Levinas relate to literature Because his philosophy addresses the very opening of ethical experience it cannot be applied readily as a critical method to literary texts Yet Levinas s work studded as it is with literary sources and quotations demands a literary account With an attitude at once respectful and interrogative closely attentive to Levinas s texts while in dialogue with readings by Derrida Blanchot and Bataille Altered Reading shows how the thread of the literary leads directly to the internal tensions of Levinas s ethical discourse Jill Robbins provides a comprehensive critical account of Levinas s early and mature philosophy as well as later key transitional essays In an invaluable appendix she includes her own translation of an important previously untranslated essay by Bataille on Levinas Altered Reading will interest philosophers literary critics scholars of religion and others drawn to Levinas s work Social History of Crime and Punishment in America: A-De Wilbur R. Siegel, 1996 An anthology of 24 essays on major developments in contemporary criminological theory **SAGE Readings for Social Problems** Benjamin Drury, 2021-02-02 SAGE Readings for Social Problems is a convenient and economical option for instructors who want to introduce students to scholarly literature in their social problems courses It contains 16 short readings on topics covered in typical courses including economic inequality race gender crime substance abuse education health medicine the environment family and the social construction of social problems The articles in this collection were all chosen because they are accessible to undergraduate

Cheliotis, 2016-12-05 The arts spanning the visual design performing media musical and literary genres constitute an alternative lens through which to understand state sanctioned punishment and its place in public consciousness Perhaps this is especially so in the case of imprisonment its nature its functions and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts But the products of this intertwinement have by no means been constant or uniform Indeed just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons so too it may uncover a rich and possibly inspirational archive of resistance to them This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public and the use made of the arts by prisoners and portions of the broader public as tools of resistance to penal states The book also includes a number of chapters that address arts in prisons programmes making distinctive contributions to the literature on their philosophy formation operation effectiveness and research evaluation as well as taking care to explore the politics surrounding and underpinning these multiple themes **Rewards of Reading** Frank Luther Mott, 1926 **Encyclopedia of Violence, Peace, and Conflict**, 2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions

and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world
