Abstract

Cultural responsiveness is imperative for the success of behavior analysts. As topics within diversity, equity, and inclusion are emphasized within coursework and supervision, there is a growing need for resources. To date, there is limited research on suggested readings within diversity, equity, and inclusion for behavior analysts. We surveyed behavior analysts to construct a list of essential readings within diversity, equity, and inclusion and reported common publications that instructors assigned and students were assigned within behavior analytic coursework.

Keywords Diversity · Equity · Inclusion · Essential readings

In 2019, Zarcone et al. introduced the special issue on diversity and equity in the practice of behavior analysis by saying, “as a field, we have lost sight of the importance and study of the social context in which human behavior occurs” (p. 741). Diversity, equity, and inclusion (DEI) has been identified as a crucial topic that needs to be embedded within training programs (Hilton et al., 2021; Najdowski et al., 2021) and clinical practice (Beaulieu et al., 2019; Fong et al., 2016) for behavior analysts. The Behavior Analyst Certification Board (BACB) has specified that DEI content must be embedded throughout graduate training curricula in addition to a dedicated ongoing continuing education requirement for certified individuals (BACB, *BACB Newsletter*, 2022). In addition, the *Ethics Code for Behavior Analysts* (BACB, 2020) now requires that DEI content be incorporated into the training and supervision of behavior analysts.

As more efforts are made to incorporate DEI and cultural humility within coursework and fieldwork, it is important to assess what behavior analysts consider essential readings within this topic. Completing assigned readings is a

quintessential component of preparing students for behavior analysis. Previous articles (i.e., Frieder et al., 2018; Kazemi et al., 2019; Pastrana et al., 2018; Saville et al., 2002) have outlined essential and frequently assigned readings recommended to help educate undergraduate and graduate students studying behavior analysis. Saville et al. (2002) surveyed members of the editorial board for the *Journal of Applied Behavior Analysis (JABA)* and the *Journal of Experimental Analysis of Behavior (JEAB)* to construct a reading list for graduate students of behavior analysis. Frieder et al. (2018) expanded on the work of Saville et al. by surveying behavior analysts to identify essential readings for undergraduate students studying behavior analysis. Both Pastrana et al. (2018) and Kazemi et al. (2019) reviewed the syllabi for graduate programs to gather frequently assigned readings based on curriculum area (Pastrana et al., 2018) in addition to the experimental analysis of behavior (Kazemi et al., 2019) to assist both instructors and program coordinators. Although it is not feasible to provide exhaustive lists, such publications do provide helpful recommendations for assigned readings in high-priority areas in behavior analysis. Hollins et al. (2023) published recommendations of DEI articles and topics to incorporate into graduate programs; however, it would be prudent to assess current practices and perspectives of behavior analysts and students of behavior analysis. DEI is critical to the development of competent behavior analysts and would benefit from a similar systematic collection of relevant readings that could be recommended. Thus, the purpose of this article was to determine what behavior analysts

A comprehensive overview of important contemporary issues in the field of reading research from the mid 1980s to mid 1990s this well received volume offers readers an examination of literacy through a variety of lenses some permitting microscopic views and others panoramic views A veritable who's who of specialists in the field chapter authors cover current methodology as well as cumulative research based knowledge Because it deals with society and literacy the first section provides the broadest possible view of literacy The second section defines the range of activities culturally determined to be a part of the enterprise known as literacy The third focuses on the processes that individuals engage in when they perform the act of reading The fourth section visits the environment in which the knowledge that comprises literacy is passed on from one generation to the next The last section an epilogue to the whole enterprise of reading research provides apt philosophical reflection *Linking Reading Assessment to Instruction* , **Handbook of Reading Research, Volume III** Michael L. Kamil, Peter B. Mosenthal, P. David Pearson, Rebecca Barr, 2016-11-18

In Volume III as in Volumes I and II the classic topics of reading are included from vocabulary and comprehension to reading instruction in the classroom and in addition each contributor was asked to include a brief history that chronicles the legacies within each of the volume's many topics However on the whole Volume III is not about tradition Rather it explores the verges of reading research between the time Volume II was published in 1991 and the research conducted after this date The editors identified two broad themes as representing the myriad of verges that have emerged since Volumes I and II were published 1 broadening the definition of reading and 2 broadening the reading research program The particulars of these new themes and topics are addressed *"I Hate Reading"* Justin M. Stygles, 2022-09-19

It can take a lifetime to eradicate a reader's shame or it can take one great teacher Shame bound readers want someone to notice them It's true But then what does a teacher do to help students Justin Stygles found fresh answers in Gershen Kaufman's seminal research on shame and applied it to his teaching The results proved to him and now us that building relationships and taking deliberate actions to alleviate shame is crucial With this remarkable book Stygles shows us how to build an interpersonal bridge with students and make vulnerability okay But make no mistake disengaged readers need to feel competent before they fully buy in and so the author packs the book with powerful instructional ideas Learn to Spot all the distress signals including withdrawal perfectionism and compliance Help students see that they are not permanently locked out of a reading life Use assessment instruments to note and celebrate incremental change Plan mini units that develop skills in concert with engagement Design small group

experiences that are free of levels and other shame inducing labels Pump up independent reading with scaffolding and sociability Harness writing about reading to convince students of their uniqueness The shame factor is real It s time we meet it head on with innovation and the best thinking from multiple research fields I Hate Reading is the tool that does just that
