Durrant, 2003-09-16 The cultures of ancient China and ancient Greece have exerted immeasurable influence on later civilizations. The texts and cultural values of classical China spread throughout East Asia and became the foundation of learning in Korea, Japan, and Vietnam. Greek learning and culture receive credit for many of the intellectual paradigms of the West. Probably the one which is most distinctly Western is the tradition of logical proof and the related assumption that as Aristotle put it in *Metaphysics* 980 we all desire to know. In contrast the Chinese tradition as exemplified by Laozi's *Dao de jing* cautions that through our desire to know we may forfeit wisdom, thus engendering a split between knowledge and wisdom. *The Siren and the Sage* is a comparative study of what some of the most influential writers of ancient China and ancient Greece thought it meant to know and whether they distinguished knowledge from wisdom. It surveys selected works of poetry, history, and philosophy from roughly the eighth through the second centuries BCE, focusing on the *Odyssey*, the ancient Chinese Classic of Poetry, Thucydides' *History of the Peloponnesian War*, Sima Qian's *Records of the Historian*, Plato's Symposium, Laozi's *Dao de jing*, and the writings of Zhuangzi. The intention through such juxtaposition is to introduce foundational texts of each tradition, texts which continue to influence most of the world's peoples. It is intriguing to ask what awareness, if any, these distinctive cultures had of each other. A considerable body of scholarship comparing ancient Greece and ancient China now exists. Scholars are presenting evidence that the two cultures may actually have been aware of each other's presence even though that awareness was presumably indirect, perhaps mediated by the nomadic peoples of Central Asia. While not directly contributing evidence, the authors argue that comparing the cultures of Greece and China will continue to be an irresistible and important scholarly debate. The book offers a provocative study which is accessible to students and general readers and at the same time contributes to the debate. *Fusion of Critical Horizons in Chinese and Western Language, Poetics, Aesthetics*. Ming Dong Gu, 2021-07-07 This book begins with a reflection on dichotomies in comparative studies of Chinese and Western literature and aesthetics. Critiquing an oppositional paradigm, Ming Dong Gu argues that despite linguistic and cultural differences, the two traditions share much common ground in critical theory, aesthetic thought, metaphysical conception, and reasoning. Focusing on issues of language, writing, and linguistics, metaphor, metonymy, and poetics, mimesis and representation, and lyricism, expressionism, creativity, and aesthetics, Gu demonstrates that though ways of conception and modes of expression may differ, the two traditions have cultivated similar aesthetic feelings and critical ideas capable of fusing critical and aesthetic horizons. With a two-way dialogue, this book covers a broad spectrum of critical discourses and uncovers fascinating connections among a wide range of thinkers, theorists, scholars, and aestheticians, thereby making a significant contribution to bridging the aesthetic divide and envisioning world theory and global aesthetics. **The Bloomsbury Research Handbook of Chinese Aesthetics and Philosophy of Art**. Marcello Ghilardi, Hans-Georg Moeller, 2021-07-15 For anyone working in aesthetics interested in understanding the richness of the Chinese aesthetic tradition, this handbook is the place to start. Comprised of general introductory overviews, critical

reflections and contextual analysis it covers everything from the origins of aesthetics in China to the role of aesthetics in philosophy today Beginning in early China 1st millennium BCE it traces the Chinese aesthetic tradition exploring the import of the term aesthetics into Chinese thought via Japan around the end of the 19th century It looks back to early practices of art and craftsmanship showing how the history of Chinese thought provides a multitude of artefacts and texts that give rise to a wide range of aesthetic creations and notions Introducing various perspectives on traditional arts in China including painting ceramics calligraphy poetry music and theatre it explores those aesthetic traditions not included in canonic art forms such as martial arts rock gardening and ritual performance Written by Chinese European and American theoreticians and practitioners this authoritative research resource enhances contemporary aesthetics by revealing the possibilities of a Chinese philosophy of art

The Lyrical in Epic Time David Der-wei Wang, 2015-01-20 In this book David Der wei Wang uses the lyrical to rethink the dynamics of Chinese modernity Although the form may seem unusual for representing China s social and political crises in the mid twentieth century Wang contends that national cataclysm and mass movements intensified Chinese lyricism in extraordinary ways Wang calls attention to the form s vigor and variety at an unlikely juncture in Chinese history and the precarious consequences it brought about betrayal self abjuration suicide and silence Despite their divergent backgrounds and commitments the writers artists and intellectuals discussed in this book all took lyricism as a way to explore selfhood in relation to solidarity the role of the artist in history and the potential for poetry to illuminate crisis They experimented with poetry fiction film intellectual treatise political manifesto painting calligraphy and music Western critics Wang shows also used lyricism to critique their perilous epic time He reads Martin Heidegger Theodor Adorno Cleanth Brooks and Paul de Man among others to complete his portrait The Chinese case only further intensifies the permeable nature of lyrical discourse forcing us to reengage with the dominant role of revolution and enlightenment in shaping Chinese and global modernity Wang s remarkable survey reestablishes Chinese lyricism s deep roots in its own native traditions along with Western influences and realizes the relevance of such a lyrical calling of the past century to our time

Liu Zaifu: Selected Critical Essays Zaifu Liu, 2021-06-17 Liu Zaifu is a name that has already been ingrained within contemporary Chinese literary history This landmark volume presents Anglophone readers with Liu's profound reflections on Chinese literature and culture at different times The essays collected here demonstrate Liu's historical experience and trajectory as an exiled Chinese intellectual who persistently safeguards the individuality and the autonomy of literature refusing to succumb to political manipulation Liu's theory of literary subjectivity has opened ways for Chinese writers to thrive and innovate His panoramic view not only unravels the intricate interplay between literature and politics but also firmly regards the transcendental value of literature as a significant ground to subvert revolutionary dogmatism and criticize Chinese modernity Rather than drawing upon the existing paradigm he reinvents his own unique theoretical conceptions in order to exile the borrowed gods
