careful readings in political and social theory he demonstrates that the Anglo American corporation and modern political sovereignty are founded in and bound together through a principle of legally sanctioned immunity from law The problems that corporate led globalization present for governments result not from regulatory failures as much as from corporate immunity that is being exported across the globe For Barkan there is a paradox in that corporations which are legal creations are given such power that they undermine the sovereignty of states He notes that while the relationship between states and corporations may appear adversarial it is in fact a kind of doubling in which state sovereignty and corporate power are both conjoined and in conflict Our refusal to grapple with the peculiar nature of this doubling means that some of our best efforts to control corporations unwittingly reinvest the sovereign powers they oppose
