Readings In Health Science

Milos Jenicek

Readings In Health Science:

Writing, Reading, and Understanding in Modern Health Sciences Milos Jenicek, 2017-07-27 Medical articles are one of the main vehicles of knowledge translation and evidence communication in the health sciences Their correct structure and style alone are no longer enough to convey a clear understanding of the intended message Readers must be able to understand the very essence of the article message That is the purpose of this book *Writing Reading and Understanding in Modern Health Sciences Medical Articles and Other Forms of Communication* will help the authors of medical articles communicate more effectively in today's practice and health research environment It explores the most effective practices for communicating using three main medical literature formats through scientific articles articles where the subject is not based on the practice of the scientific method and business reports Describing how to think beyond the prevailing IMRAD article format this book focuses on the nature content domains of thought and meanings of medical articles The ideas and underlying propositions in this book are complementary to specific requirements appropriate for each type of medical journal After reading this book you will better understand How to write what is considered the most important type of medical article the research based medical article How to write an evidence based argumentative medical article The challenges of clinical case reporting The general framework of medical and research ethics Classification of medical articles and their underlying studies from the causal standpoint Supplying you with the understanding required to write more effective medical articles the book includes details about essay type articles research based articles thesis as introduction sections definitions as part of the material and methods sections modern argumentation and critical thinking underlying results and their discussion and conclusions about them

Building Health Sciences Library Collections Megan Inman, Marlena Rose, 2023-07-03

Selected as a 2025 Doody's Core Title Collection development is a cornerstone of librarianship and with the rapid pace that library materials are produced a thorough knowledge of collection development is more important than ever before However with the myriad of choices available creating a meaningful collection can be a daunting task Building and maintaining a health sciences library collection can be a challenge especially in scenarios where there is no dedicated collection services department or collection development librarian Often in library school curriculum collection development strategies are discussed but specific examples of bibliographic sources may not be covered in detail particularly for health sciences resources Many collection development books often discuss the creation of policies budgeting practices and usability This book is a comprehensive reference guide for those who will be creating and curating their library health sciences collections Moving beyond a traditional list of titles this guide will focus on several formats and areas It features specific bibliographic information for top resources for a variety of subject areas and in a variety of formats This book is designed for all librarians whether new or experienced Each chapter of this title does a deep dive into an area of health sciences library collection building as well as covering how to maintain a current collection This book is designed to provide readers with a resource to

lean on in determining the best bets in providing their users with health sciences resources to support curriculum practice and other user needs Readers who are interested in gleaning techniques for maintaining their health sciences library collection will also benefit from this how to guide as it details the deselection process Every health sciences librarian no matter their experience can benefit from this reference guide

Reading and Understanding Health Research Robert R. Weaver, Qian Jia, 2025-02-26 This concise guide equips readers with the essential skills required to analyze and critically appraise health research evidence an integral element to evidence based practice and professional development The book offers invaluable guidance by demystifying the structure and language of peer reviewed research through different stages of reading inspectional analytical and topical to provide a structured approach to understanding and evaluating research design methods and findings Through analytically reading each section of a research paper readers can develop a critical appreciation of the evidence helping them to identify both the strengths and limitations of any piece of research This critical reading process is a crucial skill fostering the ability to judiciously apply evidence to health practice and encouraging a deep engagement with research to better inform health decisions Ideal reading for students across all health disciplines whether undergraduate or postgraduate it will also be a valuable resource for health professionals seeking to enhance their skills in evidence based practice and continuing professional development Instructors can also access a range of online resources to support classroom use

Writing, Reading, and Understanding in Modern Health Sciences Milos Jenicek, 2014-03-12 Medical articles are one of the main vehicles of knowledge translation and evidence communication in the health sciences Their correct structure and style alone are no longer enough to convey a clear understanding of the intended message Readers must be able to understand the very essence of the article message That is the purpose of this book *Writing Reading and Understanding in Modern Health Sciences Medical Articles and Other Forms of Communication* will help the authors of medical articles communicate more effectively in today's practice and health research environment It explores the most effective practices for communicating using three main medical literature formats through scientific articles articles where the subject is not based on the practice of the scientific method and business reports Describing how to think beyond the prevailing IMRAD article format this book focuses on the nature content domains of thought and meanings of medical articles The ideas and underlying propositions in this book are complementary to specific requirements appropriate for each type of medical journal After reading this book you will better understand How to write what is considered the most important type of medical article the research based medical article How to write an evidence based argumentative medical article The challenges of clinical case reporting The general framework of medical and research ethics Classification of medical articles and their underlying studies from the causal standpoint Supplying you with the understanding required to write more effective medical articles the book includes details about essay type articles research based articles thesis as introduction sections definitions as part of the material and methods sections modern argumentation and critical thinking underlying

results and their discussion and conclusions about them It also examines qualitative research and case study methodologies from other domains A must read for all writers readers and users of medical articles this book supplies the tools you need to write compelling medical reports that can help to improve the practice research and quality of healthcare at all levels

Success in Reading and Writing Jean F. Bernholz, Patricia Horne Sumner, 1992 Educational resource for teachers parents and kids

Managing Health Sciences Libraries in a Time of Change Claire B. Joseph, Priscilla L. Stephenson, 2024-01-26 Selected as a 2025 Doody's Core Title In Managing Health Sciences Libraries in a Time of Change experienced leaders of the medical library community present insights into the current trends and issues faced by health sciences librarians and offer practical guidelines and management skills needed to create a culture of excellence The Medical Library Association points out that Management skills and a leader's abilities affect the culture and performance of coworkers and the effectiveness of an institution The last decades have resulted in a sea change for health sciences library leadership and management In a short period of time medical libraries have transformed from collections of print books and journals to databases of digital resources accessible from any desktop Library services no longer must be provided face to face but the need for virtual library services has grown in complexity and now demands a greater knowledge of technology and informatics Reference service instruction cataloging and collection development all remain as key library tasks but they have been transformed in this digital environment This book explores what it means to be a manager of health sciences libraries today Chapters focus on current trends in health science library leadership managing change staffing issues managing for diversity equity and inclusion mentoring accreditation and evaluation leadership skills and a discussion of the differences between the concepts of leadership and management
