Critical Content Analysis of Visual Images in Books for Young People Holly Johnson,Janelle Mathis,Kathy Short,2019-05-31 Extending the discussion of

critical content analysis to the visual realm of picturebooks and graphic novels this book provides a clear research methodology for understanding and analyzing visual imagery Offering strategies for reading illustrations in global and multicultural literature chapter authors explore and bring together critical theory and social semiotics while demonstrating how visual analysis can be used to uncover and analyze power ideologies inequity and resistance in picturebooks and graphic novels This volume covers a diverse range of texts and types of books and offers tools and procedures for interpreting visual images to enhance the understandings of researchers teachers and students as they engage with the visual culture that fills our world These methods are significant not only to becoming a critical reader of literature but to also becoming a critical reader of visual images in everyday life

Making Meaning Marilyn Narey, 2008-11-07 Making Meaning is a synthesis of theory research and practice that explicitly presents art as a meaning making process This book provokes readers to examine their current understandings of language literacy and learning through the lens of the various arts based perspectives offered in this volume provides a starting point for constructing broader multimodal views of what it might mean to make meaning and underscores why understanding arts based learning as a meaning making process is especially critical to early childhood education in the face of narrowly focused test driven curricular reforms Each contributor integrates this theory and research with stories of how passionate teachers teacher educators and pre service teachers along with administrators artists and professionals from a variety of fields have transcended disciplinary boundaries to engage the arts as a meaning making process for young children and for themselves

Origins of Pictures Klaus Sachs-Hombach, Jörg R. J. Schirra, 2014-10-29 Anyone talking about pictures by necessity refers to those using pictures It is therefore essentially the competence of using pictures that has to be considered Such competence is not common among higher developed mammals at least as far as we know today This fact raises the question whether and to what extent that ability has to be conceived as a strictly anthropological one In an interdisciplinary approach the first international conference of the Society for Interdisciplinary Image Science GiB titled Origins of Pictures has taken a closer look at the role of pictures for the conditio humana The primary goal of the conference was to present empirical findings of the origins of picture uses considering in particular research in paleo anthropology archeology cultural anthropology and developmental psychology Furthermore those findings were to be related to philosophical considerations concerning the conditions of the conceptual formation of picture competence

Words about Pictures Perry Nodelman, 1990-08-01 A pioneering study of a unique narrative form Words about Pictures examines the special qualities of picture books books intended to educate or tell stories to young children Drawing from a number of aesthetic and literary sources Perry Nodelman explores the ways in which the interplay of the verbal and visual aspects of picture books conveys more narrative information and stimulation than either medium could achieve alone Moving from baby books alphabet books and word books to such well known children s picture books as Nancy Ekholm Burkert s Snow White and the Seven Dwarfs Gerald McDermott s Arrow to the Sun Maurice Sendak s Where

the Wild Things Are and Chris Van Allsburg's The Garden of Abdul Gasazi Nodelman reveals how picture book narrative is affected by the exclusively visual information of picture book design and illustration as well as by the relationships between pictures and their complementary texts

EMDR and The Art of Psychotherapy With Children Carolyn Settle, Robbie Adler-Tapia, 2008-06-16 This book contains invaluable material for the child therapist with varied theoretical backgrounds to more confidently apply EMDR to children Frances Klaff for Journal of EMDR Practice and Research Volume 3 Number 3 2009 In this book the authors present an overview of how therapists can get started in conceptualizing psychotherapy with Eye Movement Desensitization and Reprocessing EMDR methodology through Adaptive Information Processing AIP theory The focus of the book is to teach therapists to effectively use the entire EMDR protocol with young children The first chapter provides a comprehensive overview of how to get started with EMDR after completing basic training The book continues with chapters that detail the basic skills in using EMDR with children and then transitions to more advanced skills in using EMDR with children with specific diagnosis and presenting issues They follow with a chapter summarizing the published evidence to date supporting the practice of EMDR with children Data is then incorporated into a chapter summarizing their research on EMDR with young children in order to provide evidence of therapists ability to adhere to the EMDR protocol with children and to document their research findings about training therapists to use EMDR with children Finally they conclude the book with goals for the future of EMDR with children while encouraging therapists to consider conducting research in order to compel the practice of EMDR with children into the mainstream of child psychotherapy It is a major task of the book to inspire therapists to begin thinking about conducting research and how important research is to therapists in order to validate and advance the practice of psychotherapy In the end the most significant goal of this book is to provide best practice for children who are in need of expert psychotherapy in order to change the trajectory of their lives The hope is to provide guidance and support to therapists in order to launch them in their practice of EMDR This is the art of treating children with EMDR

Using Illustrations to Preach with Power (Revised Edition) Bryan Chapell, 2001-04-04 If the apostle Paul had not punctuated his words with images of the armor of God or the racecourse would we so easily remember his instruction The march on Washington might have become nothing more than a ragged hike across a majestic mall if Martin Luther King Jr had not led us through a dream and onto a mountaintop Such is the power of illustrations They contain a hidden dynamic of living that captures our attention and furthers our understanding in a way that no other sermonic tool can match Can they be overused and their purpose abused Yes and by many they are But to eliminate them completely would be unwise maintains Bryan Chapell Instead he responds to those concerns by reviewing the theory behind illustrations sharing why they're important and demonstrating how you can use them effectively in your biblical preaching This book clearly affirms that illustrations are integral to powerful preaching not because they entertain but because they expand and deepen applications in the lives of your listeners They infuse your words with life without comprising the message making the

truth of the Word ring clearly in people s hearts long after your sermon is done ART--All Year Long, Grades PK - 2 Sharon Thompson, Vanessa Countryman, 2010-06-11 Develop the artistic ability of students in grades PK 2 using ART All Year Long This 160 page book includes reproducible art projects that teach students about color line shape form texture and space while improving communication higher order thinking and motor skills This book is a perfect addition to weekly lesson plans
