vehicle of intermedial and intercultural transformation The challenging study with its underlying premise of play as a key feature of cultural anthropology and human creativity breaks new ground by placing the play within the play at the centre of a number of intersecting scholarly discourses on areas of topical concern to scholars in the humanities

**Making the Stage** Ann C. Hall, 2020-11-30 MAKING THE STAGE is a collection of essays that examines the role of theatre drama and performance in contemporary culture a culture that is growing increasingly technological and isolated seemingly at odds with the very nature of theatre a collaborative and sometimes very primitive art form Through the course of these essays it is clear that theatre not only survives some of the challenges of the day but even defines discussions particularly political ones which are prohibited by an increasingly manipulated media The essays from a diverse group of theatre scholars examine the mechanics of theatre from space to sound to the use of technology the role of women in creating theatre the relationship between theatre and literary art forms the politics of theatre science and theatre and the role of performance art Through them all it is clear that theatre drama and performance continue to speak in significant ways

*The Proof Stage* Stephen Abbott, 2023-07-11 How playwrights from Alfred Jarry and Samuel Beckett to Tom Stoppard and Simon McBurney brought the power of mathematics to life on the stage The discovery of alternate geometries paradoxes of the infinite incompleteness and chaos theory revealed that despite its reputation for certainty mathematical truth is not immutable perfect or even perfectible Beginning in the last century a handful of adventurous playwrights took inspiration from the fractures of modern mathematics to expand their own artistic boundaries Originating in the early avant-garde mathematics infused theater reached a popular apex in Tom Stoppard's 1993 play Arcadia In The Proof Stage mathematician Stephen Abbott explores this unlikely collaboration of theater and mathematics

He probes the impact of mathematics on such influential writers as Alfred Jarry Samuel Beckett Bertolt Brecht and Stoppard and delves into the life and mathematics of Alan Turing as they are rendered onstage The result is an unexpected story about the mutually illuminating relationship between proofs and plays from Euclid and Euripides to G del and Godot Theater is uniquely poised to discover the soulful human truths embedded in the austere theorems of mathematics but this is a difficult feat It took Stoppard twenty five years of experimenting with the creative possibilities of mathematics before he succeeded in making fractal geometry and chaos theory integral to Arcadia s emotional arc In addition to charting Stoppard s journey Abbott examines the post Arcadia wave of ambitious works by Michael Frayn David Auburn Simon McBurney Snoo Wilson John Mighton and others Collectively these gifted playwrights transform the great philosophical upheavals of mathematics into profound and sometimes poignant revelations about the human journey

Dorney, 2009-09-29 An account of language and drama between 1945 and 2005 synthesizing linguistic and dramatic knowledge in order to illuminate the ways in which anxieties and attitudes toward language manifest themselves in discourses on and around English theatre of the time and how these anxieties and attitudes reflect back through the theatre of this period

*The Routledge Companion to Absurdist Literature* Michael Y. Bennett, 2024-05-29 The Routledge Companion to Absurdist Literature is the first authoritative and definitive edited collection on absurdist literature As a field defining volume the editor and the contributors are world leaders in this ever exciting genre that includes some of the most important and influential writers of the twentieth century including Samuel Beckett Harold Pinter Edward Albee Eugene Ionesco Jean Genet and Albert Camus Ever puzzling and always refusing to be pinned down this book does not attempt to define absurdist literature but attempts to examine its major and minor players As such the field is indirectly defined by examining its constituent writers Not only investigating the so called Theatre of the Absurd this volume wades deeply into absurdist fiction and absurdist poetry expanding much of our previous sense of what constitutes absurdist literature Furthermore long overdue approximately one third of the book is devoted to marginalized writers black Latin x female LGBTQ and non Western voices

*Deathtraps* Marvin Carlson, 1993 Shows the comedy thriller to be a singularly postmodern form This work examines various elements of the thriller openings settings characters plot lines the role of the audience and endings and shows how they work to overturn the conventions of realism in detective drama

**Dismemberment in Drama / Dismemberment of Drama** Lance Norman, 2021-02-03 Dismemberment in Drama Dismemberment of Drama is an essay collection which considers the dramatic possibility contained in the images and narratives of dismemberment frequently recurring on the western stage The Classical Tragedies of Sophocles and Euripides the Romanticism of Kleist the surrealism of Artaud and the contemporary drama of Suzan Lori Parks and Marina Carr are just some of the fractured and fragmented bodies analyzed in this collection Both individually and in concert the contributors ask what a dismembered body means Such an inquiry allows them to confront dismemberment as a theoretical category

which understands such twentieth century innovations as the Theatre of Cruelty the Epic Theatre the Open Theater and documentary theatre as part of a long dramatic tradition Dismemberment in drama examines the tenuous bond between representation and the object being represented by highlighting the dismemberment of drama as a form that occurs during drama's repeated theorizations of its own enactment There is a conflict between disintegration and unity inherent in mimesis theatrical phenomenology and performance

*Fictional Realities / Real Fictions. Contemporary Theatre in Search of a New Mimetic Paradigm* Mateusz Borowski, Malgorzata Sugiera, 2009-03-26 The collection of essays *Fictional Realities Real Fictions Contemporary Theatre in Search of a New Mimetic Paradigm* tackles the problem of fictionality and reality in contemporary theatre practice and playwriting It approaches this hotly debated issue in a larger context of the theories of theatrical and dramatic mimesis The volume provides an answer to the most recent developments in performative arts such as the widespread use of new media technologies the popularity of site specific productions and the flourishing of various post dramatic forms of expression The phenomena scrutinized in this collection call into question the basic dichotomy between the fictional and the real on which the theory and practice of the Western theatre has been based right from its inception However due to their extremely heterogeneous character they pose a considerable problem for researchers and teachers who still do not find a widely applicable methodology for the analysis of contemporary performances and texts for the theatre *Fictional Realities Real Fictions* sets the discussion of the onset of new mimetic paradigm in three interrelated contexts the new perceptual patterns forged by contemporary theatre the use of media on stage and the strategies of today's political theatre The case studies presented here in spite of their thematic diversity are subordinated to a single theoretical framework Thus they turn out extremely useful both for the scholars investigating the problems of contemporary theatre and students of theatre and drama *Fictional Realities Real Fictions* offers them a rigid methodological scaffolding supported by a number of illustrative examples from a variety of cultural context and theatre traditions which gives them an opportunity to extrapolate from the main argument of the volume to their own research
