Arms, Economics and British Strategy G. C. Peden,2007-02-08 This book integrates strategy technology and economics and presents a new way of looking at twentieth century military history and Britain s decline as a great power G C Peden explores how from the Edwardian era to the 1960s warfare was transformed by a series of innovations including dreadnoughts submarines aircraft tanks radar nuclear weapons and guided missiles He shows that the cost of these new weapons tended to rise more quickly than national income and argues that strategy had to be adapted to take account of both the increased potency of new weapons and the economy s diminishing ability to sustain armed forces of a given size Prior to the development of nuclear weapons British strategy was based on an ability to wear down an enemy through blockade attrition in the First World War and strategic bombing in the Second and therefore power rested as much on economic strength as on armaments

The Last Centurion John Ringo, 2008-08-01 Centurions were the guardians of Rome At the height of the Roman Republic there were over five thousand qualified Roman Centurions in the Legions To be a Centurion required that in a mostly illiterate society one be able to read and write clearly to be able to convey and create orders to be capable of not only performing every skill of a Roman soldier but teach every skill of a Roman soldier Becoming a Centurion required intense physical ability courage beyond the norm years of sacrifice and a total devotion to the philosophy which was Rome When Rome fell to barbarian invaders there were less than five hundred qualified Centurions Not because Rome had fewer people but because it had fewer willing to make the sacrifices And the last Centurions left their shields in the heather and took a barbarian bride We are The Last Centurions At the publisher's request this title is sold without DRM Digital Rights Management

Soldier and Society in Roman Egypt Richard Alston, 2002-09-11 The province of Egypt provides unique archaeological and documentary evidence for the study of the Roman army In this fascinating social history Richard

Alston examines the economic cultural social and legal aspects of a military career illuminating the life and role of the individual soldier in the army *Soldier and Society in Roman Egypt* provides a complete reassessment of the impact of the Roman army on local societies and convincingly challenges the orthodox picture The soldiers are seen not as an isolated elite living in fear of the local populations but as relatively well integrated into local communities The unsuspected scale of the army s involvement in these communities offers a new insight into both Roman rule in Egypt and Roman imperialism more generally *Zion's Watch Tower and Herald of Christ's Presence* ,1922 **The Sea and Her Famous Sailors, Etc.**
