affect the positions of power they hold too Incorporating the latest neuroscience the book offers clear lessons for how to successfully manage power For leaders it provides practical advice on how to survive having power avoiding its worst effects For organisations and institutions it is about how to ensure that the people who have power are equipped and supported to thrive with it And for us all as people who choose and follow leaders it is about how we can identify those most at risk of falling to power s dark side Ultimately this book provides a plan for how we can have a healthier relationship with power so that as individuals we can be better leaders and as organisations and societies we can be better led Power Boating ,1910
