Scale Model Warships The Modellers World Series:

Japanese Heavy Cruisers Steve Backer, 2011-04-30 The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject class highlighting differences between sister ships and changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the ships and provides hints on modifying and improving the basic kit This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites rnrnThis volume is devoted to the largest cruisers in the Imperial Japanese Navy Built in defiance of treaty restrictions they were the fastest and most powerful heavy cruisers of their day and were heavily engaged in every campaign from Pearl Harbor to the end of the Pacific War

British Naval Weapons of World War Two Norman Friedman, 2020-07-30 John Lambert was a renowned naval draughtsman whose plans were highly valued for their accuracy and detail by modelmakers and enthusiasts By the time of his death in 2016 he had produced over 850 sheets of drawings many of which have never been published These have now been acquired by Seaforth and this is the third of a planned series of albums on selected themes reproducing complete sheets at a large page size with an expert commentary and captioning The initial volumes concentrate on British naval weaponry used in the Second World War thus completing the project John Lambert was working on when he died His interest was always focused on smaller warships and his weapons drawings tend to be of open mountings the kind that present a real challenge to modelmakers rather than enclosed turret guns but he also produced drawings of torpedo tubes underwater weapons fire control directors and even some specific armament related deck fittings Following the earlier volumes on destroyer and escort armament this one covers the multitude of weapons carried by Coastal Forces many of which were improvised ad hoc or obsolescent but eventually leading to powerful purpose designed weaponry An appendix covers the main deck guns carried by British submarines of this era The drawings are backed by introductory essays by Norman Friedman an acknowledged authority on naval ordnance while a selection of photographs adds to the value of the book as visual reference Over time the series will be expanded to make this unique technical archive available in published form a move certain to be welcomed by warship modellers enthusiasts and the many fans of John Lambert s work

Sixty Years of Airfix Models Jeremy Brook, 2015-06-30 The best known and most important manufacturer of plastic model kits in the UK Airfix has been at the forefront of the industry since 1955 when the first Airfix aircraft kit appeared in UK branches of Woolworth s The kits were made to a constant scale and covered a wide variety of subjects from aircraft to birds and from tanks to dinosaurs In 1981 the famous London based company closed down and only the kits survived intact For the next twenty five years Airfix was run by Palitoy and later Humbrol but suffered from

a lack of investment In 2006 Hornby Hobbies Ltd the train and Scalextric manufacturer bought the ailing company and transformed it Money and resources were ploughed into the range and today Airfix releases around twenty new kits per year designed to an incredibly high standard The old kits of the 1950s and 1960s are gradually being replaced by new state of the art tooling all bearing that most prestigious name Airfix Published to coincide with the sixtieth anniversary of the first Airfix aircraft kit Sixty Years of Airfix Models tells the full story year by year of the company and its products Illustrated throughout with colour photographs of kits box art and completed models

The Seaforth Bibliography Eugene Rasor,2009-04-17

Ship Models from Kits David Griffith,2011-02-28 In the past thirty years the world of model kits has undergone a veritable revolution New techniques in injection moulding have improved the scale accuracy and surface detail of the humble plastic kit while many specialist companies now produce top quality resin models vastly broadening the range of subjects on the market However the really radical change has been the advent of photo etched brass fret which allows the finest detail to be reproduced to scale In ship modelling this has resulted in a new form of the hobby mid way between traditional build from the box simplicity and the time consuming demands of fabricating everything from scratch These new materials have prompted innovative techniques which are comprehensively demonstrated in this new manual Designed for those wishing to achieve the best results from their ship kits in the 1 700 to 1 350 range of scales it uses step by step photographs to take the reader through the building of two models one in plastic and one in resin from basic construction fittings and detailing to painting finishing and display Written by a highly experienced award winning ship modeller the book is a showcase for the contemporary approach to the hobby

British Naval Weapons of World War Two, Volume I Norman Friedman,2019-01-30

For anyone wishing to super detail any British destroyer of this era this book looks to be a real must have Nautical Research Guild s Model Ship World John Lambert was a renowned naval draftsman whose plans were highly valued for their accuracy and detail by modelmakers and enthusiasts By the time of his death in 2016 he d produced over 850 sheets of drawings many

of which have never been published until now Lambert's interest was always focused on smaller warships and his weapons drawings tend to be of open mountings the kind that present a real challenge to modelmakers rather than enclosed turret guns but he also produced drawings of torpedo tubes underwater weapons fire control directors and even some specific armament related deck fittings This first volume in a series covers all such weapons carried by British destroyers of this era with additional appendices devoted to earlier guns still in service and destroyer caliber weapons only mounted in larger ships The drawings are backed by introductory essays by Norman Friedman an acknowledged authority on naval ordnance while a selection of photographs add to the value of the book as visual reference
