scale these movements are challenging the view that justice can only be a domestic relation among fellow citizens As their claims collide with those of nationalists and Westphalian democrats we witness new forms of meta political contestation in which the scale of justice is an object of explicit dispute Under these conditions there is no avoiding an issue that had once seemed to go without saying What is the proper frame for theorizing justice Faced with a plurality of competing scales how do we know which scale of justice is truly just Scales of Justice tackles this issue Interrogating struggles over globalization Nancy Fraser reconstructs the theory of justice for a post Westphalian world Revising her widely discussed theory of redistribution and recognition she introduces representation as a third political dimension of justice which permits us to re conceive scale and scope as questions of justice Seeking to re imagine political space for a globalizing world she revisits the concepts of democracy solidarity and the public sphere the projects of critical theory the World Social Forum and second wave feminism and the thought of Habermas Rawls Foucault and Arendt

Unfreedom for All Thomas J. Donahue-Ochoa,2019-08-19 It is often said that we live under systems of injustice But if so who ought to combat them and why Many in the world s liberal elite hold that only the perpetrators or the victims have such

duties because of their special connections to the injustice Others hold that all of the privileged have them because they have duties to relieve suffering or to redress their complicity in the injustice This book challenges those answers It argues that everyone living under such injustices ought to combat them victim perpetrator and bystander alike Moreover they all have the same reason for doing so such injustices suppress everyone's resistance to their workings But there is a name for such suppression authoritarianism Hence such injustices make everyone unfree because they subject everyone to authoritarian tactics The book thus reinterprets and defends a core doctrine of the global left No one is free while others are oppressed For it shows how oppression subjects everyone including you to arbitrary power The book argues that systematic injustice occurs when one group finds that its political voice is unjustly marginalized its members exploited and subject to systematic violence and that society's dominant norms unjustly favor a privileged group It diagnoses three global injustices of this kind gender race and poverty It then shows how such injustices always suppress everyone's resistance to them making everyone unfree But if so it argues then this shared unfreedom should be the ground on which victims bystanders and perpetrators unite in solidarity against injustice
