Carey, 2009-01-13 This book explores and tests different theories of how governments respond to dissent and how dissidents respond to repression using extensive empirical data and detailed studies on Latin America and Africa **Multigenerational Communication in Organizations** Michael G. Strawser, Stephanie A. Smith, Bridget Rubenking, 2021-05-10 *Multigenerational Communication in Organizations* explores generational differences in the changing workplace from a communication perspective Starting from the reality that a workplace can contain up to five different generations these chapters examine topics like generational perceptions on the job search process organizational culture organizational identification organizational crises the dark side of workplace communication remote working and future challenges Outlines of best practices and suggestions for application are provided based on the most recent data and corresponding literature The authors also develop a data forward understanding of Generation Z in context This book is ideal for both scholars and practitioners in organizational communication and management as well as for workplace managers and supervisors Gaining Influence in Public Relations Bruce K. Berger, Bryan H. Reber, 2006-08-15 *Gaining Influence in Public Relations* explores how professionals can increase their influence in practice to help their organizations achieve success This provocative book explores the largely uncharted territories of power resistance dissent and activism in public relations arguing that practitioners can increase their power and social legitimacy by developing and using a wider range of influence resources strategies and tactics Authors Bruce K Berger and Bryan H Reber talked with hundreds of practitioners analyzed original survey data and examined a detailed case study to develop a theory of power relations Ultimately the book seeks to advance the ethical and effective practice of public relations Intended for scholars and graduate students in public relations it also has much to offer practitioners as well as scholars and students in organizational communication organizational theory human resources and leadership **Communication Research Measures II** Rebecca B. Rubin, Alan M Rubin, Elizabeth E. Graham, Elizabeth M. Perse, David Seibold, 2010-04-26 *Expanding and building on the measures included in the original 1994 volume Communication Research Measures II A Sourcebook* provides new measures in mass interpersonal instructional and group organizational communication areas and highlights work in newer subdisciplines in communication including

intercultural family and health It also includes measures from outside the communication discipline that have been employed in communication research The measures profiled here are the best of the best from the early 1990s through today They are models for future scale development as well as tools for the trade and they constitute the main tools that researchers can use for self administered measurement of people s attitudes conceptions of themselves and perceptions of others The focus is on up to date measures and the most recent scales and indexes used to assess communication variables Providing suggestions for measurement of concepts of interest to researchers inspiring students to consider research directions not considered previously and supplying models for scale developers to follow in terms of the work necessary to produce a valid and reliable measurement instrument in the discipline the authors of this key resource have developed a significant contribution toward improving measurement and providing measures for better science

*Judicial Conflict and Consensus* Sheldon Goldman, Charles M. Lamb, 2014-07-15 These original essays by major scholars of judicial behavior explore the frequency intensity and especially the causes of conflict and consensus among judges on American appellate courts Together these studies provide new insights into judges attitudes and values role perceptions and small group interactions

Croucher, Daniel Cronn-Mills, 2021-09-28 Using an engaging how to approach that draws from scholarship real life and popular culture this textbook now in its third edition offers students practical reasons why they should care about research methods and offers a practical guide to actually conducting research themselves Examining quantitative qualitative and critical research methods this new edition helps undergraduate students better grasp the theoretical and practical uses of method by clearly illustrating practical applications The book features all the main research traditions within communication including online methods and provides level appropriate applications of the methods through theoretical and practical examples and exercises including sample student papers that demonstrate research methods in action This third edition also includes additional chapters on experimental design and methods of performance as well as brand new case studies throughout This textbook is perfect for students and scholars using critical cultural interpretive qualitative quantitative and positivist research methods as well as students of communication studies more generally It also offers dedicated student resources on the Routledge com book page and instructor resources at [https://routledgetextbooks.com/textbooks/instructor\\_downloads](https://routledgetextbooks.com/textbooks/instructor_downloads) These include links videos outlines and activities recommended readings test questions and more

*The Politics of Human Rights* Sabine C. Carey, Mark Gibney, Steven C. Poe, 2010-10-14 Human rights is an important issue in contemporary politics and the last few decades have also seen a remarkable increase in research and teaching on the subject This book introduces students to the study of human rights and aims to build on their interest while simultaneously offering an alternative vision of the subject Many texts focus on the theoretical and legal issues surrounding human rights This book adopts a substantially different approach which uses empirical data derived from research on human rights by

political scientists to illustrate the occurrence of different types of human rights violations across the world. The authors devote attention to rights as well as to responsibilities, neither of which stops at one country's political borders. They also explore how to deal with repression and the aftermath of human rights violations, making students aware of the prospects for and realities of progress. *Argumentative and Aggressive Communication* Andrew S. Rancer, Theodore A.

Avtgis, 2006-03-28 *Argumentative and Aggressive Communication* is an excellent balance between research and application. This fits with the tradition of having high concern for application in the field of communication and leaning on strong research to guide that application. James C. McCroskey, West Virginia University. The thoroughness of coverage that this book devotes to perhaps the most important research area in communication today provides students with amazing insight into conflict, argumentativeness, aggressiveness, and a variety of other concepts and skills central to communication. Joseph A. DeVito, Hunter College of the City University of New York. *Argumentative and Aggressive Communication: Theory, Research, and Application* is the first text to describe the development, history, research, and application efforts on the communication traits of argumentativeness and verbal aggressiveness. Authors Andrew S. Rancer and Theodore A. Avtgis include a collection of nine widely used, reliable, and valid instruments which the reader, the researcher, and the practitioner can use for diagnostic and research purposes. Key Features: Discusses the origin and structure of argumentative and aggressive communication. The book completely describes the development of the argumentativeness and verbal aggressiveness trait constructs. In addition, the measurement of argumentativeness and verbal aggressiveness is treated in the most comprehensive way to date. Explores the function of argumentative and aggressive communication in various contexts. Guidelines are provided on how to approach conflict and disagreement across multiple contexts in a constructive fashion. This text synthesizes the large corpus of research in several areas of communication, including family, organizational, intercultural, instructional, and mediated contexts. Provides conclusions drawn from this literature. Suggestions are given for future research on argumentative and aggressive communication from ten distinguished communication scholars. Intended Audience: Written in a style accessible to undergraduates yet comprehensive and detailed enough for graduate students and researchers, this is an ideal text for courses in Communication and Personality, Communication and Conflict, Interpersonal Communication, Social Psychology, Personality and Psychology, and Aggression. *Scale* Gerald Adler, Timothy Brittain-Catlin, Gordana Fontana-Giusti, 2013-01-11

*Scale* is a word which underlies much of architectural and urban design practice, its history and theory, and its technology. Its connotations have traditionally been linked with the humanities in the sense of relating to human societies and to human form. To build in scale is an aspiration that is usually taken for granted by most of those involved in architectural production, as well as by members of the public, yet in a world where value systems of all kinds are being questioned, the term has come under renewed scrutiny. The older, more particular meanings in the humanities pertaining to classical Western culture are where the sense of scale often resides in cultural production. Scale may be traced back ultimately to the discovery of musical

harmonies and in the arithmetic proportional relationship of the building to its parts One might question the continued relevance of this understanding of scale in the global world of today What in other words is culturally specific about scale And what does scale mean in a world where an intuitive visual understanding is often undermined or superseded by other senses or by hyper reality Structured thematically in three parts this book addresses various issues of scale The book includes an introduction which sets the scene in terms of current architectural discourse and also contains a visual essay in each section It is of interest to undergraduate and postgraduate students academics and practitioners in architecture and architectural theory as well as to students in a range of other disciplines including art history and theory geography anthropology and landscape architecture

*Communication Research Measures III* Elizabeth E. Graham, Joseph P. Mazer, 2019-09-20 Building on the measures included in the original 1994 volume and subsequent 2009 volume *Communication Research Measures III* A Sourcebook extends its coverage of measurement issues and trends across the entire communication discipline Volume III features entirely new content and offers an assessment of new measures in mass interpersonal instructional group organizational family health and intercultural communication and highlights work in emergent subdisciplines in communication including social media and new communication technologies sports communication and public relations The best of the best from 2009 through today the profiled research measures in Volume III serve as models for future scale development and constitute the main tools that researchers can use for self administered measurement of people s attitudes conceptions of themselves and perceptions of others This book is ideal for undergraduate and graduate courses that emphasize quantitative research methods measurement and or survey design across communication studies disciplines
