Scenes From The Life Of A Faun:

Scenes from the Life of a Faun Arno Schmidt, 1983 Nobodaddy's Children Arno Schmidt, 2025-01-28 Nobodaddy's Children is a trilogy of novels that traces life in Germany from the Nazi era through the postwar years and into an apocalyptic future. *Scenes from the Life of a Faun* recounts the dreary life of a government worker who escapes the banality of war by researching the exploits of a deserter from the Napoleonic Wars nicknamed The Faun. *Brand's Heath* deals with the chaos of the immediate postwar period as a writer joins a small community of survivors to try to forge a new life and *Dark Mirrors* is set in a future where civilization has been virtually destroyed. *Dark Mirrors* narrator fears he may be the last man on earth until the discovery of another creates new fears. All three novels are characterized by Schmidt's unique combination of sharply observed details, sarcastic asides, and wide erudition. German Writings Before and After 1945: E. Junger, W. Koeppen, I. Keun, A. Lernet-Holenia, G. Von Rez Ernst Jünger, Jürgen Peters, 2002-08-15 This unique collection concentrating on the years 1938-48 includes the following authors and works: Ernst Jünger *From The First Paris Diary* and *The Second Paris Diary*; Irmgard Keun *From After Midnight*; Wolfgang Koeppen *From Death in Rome*; Alexander Lernet-Holenia *From Mars in Aries*; Gregor von Rezzori *L'winger's Room*; Ernst von Salomon *From The Questionnaire*; Arno Schmidt *Scenes from the Life of a Faun*. **Mosaics of the Greek and Roman World** Katherine M. D. Dunbabin, 1999 This book provides a comprehensive account of mosaics in the ancient world from the early pebble mosaics of Greece to the pavements of Christian churches in the East. Separate chapters in Part I cover the principal regions of the Roman Empire in turn in order to bring out the distinctive characteristics of their mosaic workshops. Questions of technique and production, the role of mosaics in architecture, and of their social functions and implications are treated in Part II. The book discusses both well-known works and recent finds and balances consideration of exceptional masterpieces against standard workshop production. Two main lines of approach are followed throughout: first, the role of mosaics as a significant art form which over an unbroken span illuminates the evolution of pictorial style better than any comparable surviving medium; and secondly, their character as works of artisan production closely linked to their architectural context. **Contemporary Literary Criticism** Roger Matuz, 1989-10 Entries include critical commentary, brief biographical information, a portrait when available, a list of principal works, and may also include a further reading section. The Style of Hawthorne's Gaze John Dolis, 2014-07-14 An exploration of Nathaniel Hawthorne's narrative technique and unique vision of the world. *The Style of Hawthorne's Gaze* is an unusual and insightful work that employs a combination of critical strategies drawn from art history, philosophy, psychoanalysis, and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world. Dolis studies Hawthorne's anti-technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting, motion, aspectivity, fragmentation, and imagination as they relate to his descriptive techniques. Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical

development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis shows how the work of Heidegger Merleau Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality
