The Resurrection of Jesus in the Gospel of Peter Jeremiah J. Johnston, 2016-01-28 All four canonical gospels identify the resurrection of Jesus yet none detail the exact moment of its happening The absence of this narrative detail was hotly contested in the second century when critics derided a resurrection account without credible witness Thus the discovery of the Akhmim fragment at the end of the 19th century which purports to provide exactly that detail is a huge and surprisingly under utilised addition to Biblical scholarship of the Apocryphal gospels Johnston examines both the impact of this discovery on the scholarship at the time and argues for the dating of the fragment to the second century AD He identifies shared characteristics with other documents from this period including a rise in anti semitic feeling and developments in concepts of the afterlife and makes a claim for this fragment being the text that aided the development of these movements The Second Century was the key time in which the non canonical Biblical texts were established It was also the era in which theologies which would become orthodox in the third century were penned and defined The significance then of dating the Akhmim fragment to the second century AD is huge This work will be of great use to scholars of Second Temple Judaism and those with an interest in the creation of the ideas that surround scholarship of the Bible

Patterns of Deification in the Acts of the Apostles Daniel B. Glover, 2022-10-11 Five times throughout the course of Luke's narrative in Acts an individual character is identified as a god Rarely have scholars read these deification scenes within their narrative and historical settings with sufficient care With regard to the narrative setting scholars working on the deification scenes tend to take one or another as normative and read the remaining acclamations in light of a particular interpretation of that one pericope However such reading strategies run aground when they arrive at the final acclamation 28 1 10 which breaks the exegetical bow of the interpretive ship In this study Daniel B Glover evaluates the deification scenes in the Book of Acts by locating them within the broader ancient Mediterranean context of deification He offers a fresh reading of Acts that situates each of the five scenes within a distinct literary pattern recognizable to its earliest readers

Lefteratou,2017-12-04 This book is about the bold beautiful and faithful heroines of the Greek novels and their mythical models such as Iphigenia Phaedra Penelope and Helen The novels manipulate readerly expectations through a complex web of mythical variants and constantly negotiate their adventure and erotic plot with that of traditional myths becoming thus part of the imperial mythical revision to which they add the prospect of a happy ending **Anniversary Bibliography of the Center for Contemporary German Literature** Hannelore Spence,1994 **Fiction as History** Glen Warren

Resurrection and Doubt in the Gospel of Mark* Austin Busch,2022-08-05 Risen Indeed Resurrection and Doubt in the Gospel of Mark traces the literary dynamics and explores the theological dimensions of the Gospel of Mark s thematization of skepticism regarding resurrection In every place where it seems to depict resurrection Jesus s and others Mark evades the issue of whether resurrection actually occurs Austin Busch argues that despite Mark s abbreviated and ambiguous conclusion this gospel does not downplay resurrection but rather foregrounds it imagining Jesus s death and restoration to life as a divine plot to overcome Satan through cunning deception Risen Indeed constitutes a careful literary reading of Mark s Gospel as well as an assessment of Mark s impact on the traditions of Christian literature and theology that emerged in its wake **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library,1988 *Literarisches aus erster Hand* Max Von Der Grün,Hartmut Steinecke,1994 *Recognition and the Resurrection Appearances of Luke 24* Alexander Phillip

Thompson, 2023-01-30 How are the resurrection appearances of Luke's Gospel shaped to offer a climax to the narrative? How does this narrative conclusion compare to the wider ancient literary milieu? Recognition and the Resurrection Appearances of Luke 24 proposes that the ancient literary technique of recognition offers a compelling lens through which to understand the climatic role of the resurrection appearances of Jesus as depicted in Luke 24. After presenting the development of recognition in ancient Jewish and Greco-Roman literature, Thompson demonstrates how Luke 24 deploys the recognition tradition to shape the form and function of the resurrection appearances. The ancient recognition tradition not only casts light on various literary and theological features of the chapter but also shapes the way the appearances function in the wider narrative. By utilizing recognition, Luke 24 generates cognitive, affective, commissive, and hermeneutical functions for the characters internal to the narrative and for the audience. The result is a compelling climax to Luke's Gospel that resonates with Luke's wider literary and theological themes. This work offers a compelling analysis of the Luke's Gospel in the ancient literary context in light of the ancient technique of recognition that will appeal to those interested in narrative approaches to the New Testament or the interpretation of the New Testament in the wider literary milieu.

Roman Imperial Identities in the Early Christian Era Judith Perkins, 2008-08-22 Through the close study of texts, Roman Imperial Identities in the Early Christian Era examines the overlapping emphases and themes of two cosmopolitan and multiethnic cultural identities emerging in the early centuries CE: a trans-empire alliance of the Elite and the Christians. Exploring the cultural representations of these social identities, Judith Perkins shows that they converge around an array of shared themes: violence, the body, prisons, courts, and time. Locating Christian representations within their historical context and in dialogue with other contemporary representations, it asks why do Christian representations share certain emphases? To what do they respond, and to whom might they appeal? For example, does the increasing Christian emphasis on a fully material human resurrection in the early centuries respond to the evolution of a harsher and more status-based judicial system? Judith Perkins argues that Christians were so successful in suppressing their social identity as inhabitants of the Roman Empire that historical documents and testimony have been sequestered as Christian rather than recognized as evidence for the social dynamics enacted during the period. Her discussion offers a stimulating survey of interest to students of ancient narrative, cultural studies, and gender.

Die Entstehung der grünen Politik Andreas Pettenkofer, 2014-09-10 Drei-ig Jahre nach ihrer Gründung sind Die Grünen eine etablierte politische Kraft. Diese Situation erscheint uns heute selbstverständlich. Tatsächlich ist sie jedoch das Ergebnis eines ebenso unwahrscheinlichen wie einschneidenden Wandels in der politischen Kultur. Dieser ist maßgeblich auf jene neue linke Bewegung zurückzuführen, die in den 1960er Jahren in Gang kommt und zunächst als Studentenbewegung prominent wird. Andreas Pettenkofer zeigt, wie und warum das grüne Deutungsmuster in den Protestbewegungen der alten Bundesrepublik schrittweise entstand und wie daraus die Gründung einer neuen Partei denkbar und durchführbar wurde. Er führt damit exemplarisch vor, welche Möglichkeiten die Untersuchung sozialer Bewegungen für die
