Scheler's Ethical Personalism Its Logic Development And Promise:

Scheler's Ethical Personalism Peter H. Spader, 2002 **The Matrix of Christian Ethics** Patrick Nullens, Ronald T. Michener, 2013-12-06 Patrick Nullens and Ronald T Michener seek to revitalize Christian ethics through an integrative approach to classical ethics Their matrix of consequential principle virtue and value ethics provides an alternative to postmodern situation ethics and brings the framework of biblical wisdom to bear on contemporary ethical questions

Persons and Values in Pragmatic Phenomenology J. Edward Hackett, 2018-05-15 This book brings together the author's overall research trajectory of the last five years of his life and the questions he has been asking himself What is the person And what are values In answering the latter question Hackett arrived at an answer within the boundaries of Max Scheler the German phenomenologist but consequently started to explore the depths of which Scheler's value ontology was predicated on certain assumptions about the person From these questions Hackett started to draw upon philosophical approaches that thematize experience pragmatism and phenomenology Rooted in the philosophical contributions of Scheler and the American philosopher William James this book guides the reader through a fascinating exploration of these philosophical approaches in relation to the person and values Through thematizing experience this book reveals that the ontology of value for Scheler resides not only in a person's intentionality but also in the being of an act As such this book argues that the deficit of an ontology of value in Scheler rests on interpreting his affective intentionality in much the same way that Heidegger employed phenomenology to discern the ontological care structure of Dasein In other words for Scheler the ontology of value rests on the manner in which values were realized by a person's intentionality Moreover this book goes further to reveal that the intentional act life is the source of participation and can be understood as a process based account of value otherwise known as account participatory realism Importantly within participatory realism Hackett addresses how values have their origin in the process of intentionality since intentionality is generative of meaning As an important contribution to the field of moral metaphysics Hackett's critical reflection on the person and values provides a stimulating insight into some of the key debates surrounding pragmatism and phenomenology that will be of great interest to both experienced scholars and researchers alike *Adoration: The Deconstruction of Christianity II* Jean-Luc Nancy, 2013

Adoration is the second volume of the *Deconstruction of Christianity* following *Dis Enclosure* The first volume attempted to demonstrate why it is necessary to open reason up not to a religious dimension but to one transcending reason as we have been accustomed to understanding it the term adoration attempts to name the gesture of this dis enclosed reason Adoration causes us to receive ignorance as truth not a feigned ignorance perhaps not even a nonknowledge nothing that would attempt to justify the negative again but the simple naked truth that there is nothing in the place of God because there is no place for God The outside of the world opens us in the midst of the world and there is no first or final place Each one of us is at once the first and the last Each one each name And our ignorance is made worse by the fact that we do not know whether

we ought to name this common and singular property of all names We must remain in this suspense hesitating between and stammering in various possible languages ultimately learning to speak anew In this book Jean Luc Nancy goes beyond his earlier historical and philosophical thought and tries to think or at least crack open a little to thinking a stance or bearing that might be suitable to the retreat of God that results from the self deconstruction of Christianity Adoration may be a manner a style of spirit for our time a time when the spiritual seems to have become so absent so dry so adulterated The book is a major contribution to the important strand of attempts to think a post secular situation of religion

Commiserating with Devastated Things Jason M. Wirth, 2015-10-20 Commiserating with Devastated Things seeks to understand the place Milan Kundera calls the universe of the novel Working through Kundera s oeuvre as well as the continental philosophical tradition Wirth argues that Kundera transforms not applies philosophical reflection within literature Reading between Kundera s work and his self avowed tradition from Kafka to Hermann Broch Wirth asks what it might mean to insist that philosophy does not have a monopoly on wisdom that the novel has its own modes of wisdom that challenge philosophy s

The Wedding Feast of the Lamb Emmanuel Falque, 2016-09-01 A philosophical and theological study of the eucharist in the Catholic Church Emmanuel Falque s The Wedding Feast of the Lamb represents a turning point in his thought Here Falque links philosophy and theology in an original fashion that allows us to see the full effect of theology s backlash against philosophy By attending closely to the incarnation and the eucharist Falque develops a new concept of the body and of love By avoiding the common mistake of angelism consciousness without body Falque considers the depths to which our humanity reflects animality or body without consciousness He shows the continued relevance of the question How can this man give us his flesh to eat John 6 52 especially to philosophy We need to question the meaning of this is my body in a way that responds to the needs of our time Vatican II Because of the ways that Hoc est corpus meum has shaped our culture and our modernity this is a problem both for religious belief and for culture Praise for The Wedding Feast of the Lamb Animality embodiedness and eros such for Emmanuel Falque are the grounds for our hope as we kneel before the altar and await the words of consecration in the Eucharist and behold not only what nourishes us here but also an intimacy promised to us hereafter Here as a complement to theologies of the Eucharist is a phenomenology of the sacred liturgy perhaps the most capacious account of our desire for Christ in the Sacrament offered to us by a contemporary Kevin Hart The University of Virginia A generative text for advanced study of worship and a deeper engagement of phenomenological approaches to sacramental theology Homiletic The Journal of the Academy of Homiletics

The Phenomenology of Prayer Bruce Ellis Benson, Norman Wirzba, 2005 This collection of groundbreaking essays considers the many dimensions of prayer and takes up the meaning of prayer from within a uniquely phenomenological point of view

Crossover Queries Edith Wyschogrod, 2006 Drawing together pieces from over twenty years that reflect her penetrating thought Crossover Queries presents for the first time in a single volume the astonishing range of a major philosopher To explore the risks

ambiguities and unstable conceptual situations of contemporary thought it takes modes of negation especially the negation intrinsic to the ethical as its central thread Ranging from twentieth century European philosophy to traditional Jewish thought from analyses of dance music and novels to the question of the name of God from the phenomenology of the body to recent biological research its profoundly learned and humanely engaged discussions remain always mindful that even as philosophy crosses over into new spaces of thought the philosopher remains standing within and responsible a historical legacy one conditioned by the negative

Stealing a Gift Jolita Pons, 2004 This book studies the use of biblical quotations in Kierkegaard's pseudonymous works as well as Kierkegaard's hermeneutical methods in general Kierkegaard's mode of writing in these works indeed the very method of indirect communication consists in a certain appropriation of the Bible Kierkegaard thus becomes God's plagiarist repeating the Bible by reinscribing it into his own texts where it becomes a part of his philosophical discourse and relates to most of his conceptual constructions The Bible might also be called a gift but a gift that does not belong to Kierkegaard one he merely passes along to his reader The invisible omnipresence of God's Word in the pseudonymous works as opposed to the signed ones forces us to revisit the entire distinction between the religious and the aesthetic

Phenomenology Wide Open Dominique Janicaud, 2010-05-10 This book follows up the developments in phenomenology discussed in Phenomenology and the Theological Turn The French Debate attempting to establish what potentialities in the phenomenological method exist at present

Saintly Influence Eric Boynton, Martin Kavka, 2009-08-25 Since the publication of her first book Emmanuel Levinas The Problem of Ethical Metaphysics in 1974 the first book about Levinas published in English Edith Wyschogrod has been at the forefront of the fields of Continental philosophy and philosophy of religion Her work has crossed many disciplinary boundaries making peregrinations from phenomenology and moral philosophy to historiography the history of religions both Western and non Western aesthetics and the philosophy of biology In all of these discourses she has sought to cultivate an awareness of how the self is situated and influenced as well as the ways in which a self can influence others In this volume twelve scholars examine and display the influence of Wyschogrod's work in essays that take up the thematics of influence in a variety of contexts Christian theology the saintly behavior of the villagers of Le Chambon sur Lignon the texts of the medieval Jewish mystic Abraham Abulafia the philosophies of Levinas Derrida and Benjamin the practice of intellectual history the cultural memory of the New Testament and pedagogy In response Wyschogrod shows how her interlocutors have brought to light her multiple authorial personae and have thus marked the ambiguity of selfhood its position at the nexus of being influenced by and influencing others

Theopoetic Folds Roland Faber, Jeremy Fackenthal, 2013-08-01 In complex philosophical ways theology is should and can be a theopoetics of multiplicity The ambivalent term theopoetics is associated with poetry and aesthetic theory theology and literature and repressed literary qualities myths and metaphorical theologies On a more profound basis it questions the establishment of the difference between philosophy and theology and resides in the dangerous realm of relativism The

chapters in this book explore how the term theopoetics contributes to cutting edge work in theology philosophy literature and sociology

Words Fail Colby Dickinson, 2016-10-03 There has been much philosophical speculation on the potential failure of language as well as the search for a presentation of the thing itself beyond representation Words Fail pursues the writings of a trio of philosophers Jacques Derrida Philippe Lacoue Labarthe and Giorgio Agamben as prime examples of how modern poetry presents us with a profitable vantage point from which to survey the ongoing struggle of living in a highly fragmented world Alongside these thinkers this book looks specifically at the form of spirituality that is given shape by this intersection of poetics and theological philosophical reflection all of which offer rich suggestions about our spiritual nature

Apparitions--of Derrida's Other Kas Saghaei, 2010 How does Derrida write of and on the other Apparitions examines exemplary instances of the relation to the other the relation of Moses to God Derrida's friendship with Jean Luc Nancy Derrida's relation to a recently departed actress caught on video to demonstrate how Derrida forces us to reconceive who or what the other may be For Derrida the singularity of the other includes not only the formal or logical sense of alterity the otherness of the human other but also the otherness of the nonliving the no longer living or the not yet alive Addressing Derrida's readings of Husserl Levinas Barthes Blanchot and Nancy this book explores the apparitions of the other by attending to the mode of appearing the phenomenality and visibility of the other The book also demonstrates that video and photography display an intimate relation to spectrality as well as a structural relation to the absolute singularity of the other

The Visible and the Revealed Jean-Luc Marion, 2009-08-25 In The Visible and the Revealed Jean Luc Marion brings together his most significant papers dealing with the relationship between philosophy and theology Covering the ground from some of his earliest writings on this topic to very recent reflections they are particularly useful for understanding the progression of Marion's thought on such topics as the saturated phenomenon and the possibility of something like Christian Philosophy The book contains his seminal pieces on the saturated phenomenon and on the gift although the essays also explore more recent developments of his thought on these topics Several chapters explicitly explore the boundary line between philosophy and theology or their mutual enrichment and influence In one of the final pieces The Banality of Saturation Marion considers some of the most recent objections brought against his notion of the saturated phenomenon and responds to them in detail suggesting that saturated phenomena are neither as rare nor as inflexible as often assumed The work contains two chapters not previously available in English and brings together several other pieces previously translated but now difficult to find For readers interested in the relation between the two disciplines this is indispensable reading

Aesthetics of Negativity William S. Allen, 2016-04-01 Maurice Blanchot and Theodor W Adorno are among the most difficult but also the most profound thinkers in twentieth century aesthetics While their methods and perspectives differ widely they share a concern with the negativity of the artwork conceived in terms of either its experience and possibility or its critical expression Such negativity is neither nihilistic nor pessimistic but concerns the status of the artwork and its

autonomy in relation to its context or its experience For both Blanchot and Adorno negativity is the key to understanding the status of the artwork in post Kantian aesthetics and although it indicates how art expresses critical possibilities albeit negatively it also shows that art bears an irreducible ambiguity such that its meaning can always negate itself This ambiguity takes on an added material significance when considered in relation to language as the negativity of the work becomes aesthetic in the further sense of being both sensible and experimental and in doing so the language of the literary work becomes a form of thinking that enables materiality to be thought in its ambiguity In a series of rich and compelling readings William S Allen shows how an original and rigorous mode of thinking arises within Blanchot's early writings and how Adorno's aesthetics depends on a relation between language and materiality that has been widely overlooked Furthermore by reconsidering the problem of the autonomous work of art in terms of literature a central issue in modernist aesthetics is given a greater critical and material relevance as a mode of thinking that is abstract and concrete rigorous and ambiguous While examples of this kind of writing can be found in the works of Blanchot and Beckett the demands that such texts place on readers only confirm the challenges and the possibilities that literary autonomy poses to thought

The Decolonial Abyss An Yountae, 2016-10-03 The Decolonial Abyss probes the ethico political possibility harbored in Western philosophical and theological thought for addressing the collective experience of suffering socio political trauma and colonial violence In order to do so it builds a constructive and coherent thematization of the somewhat obscurely defined and underexplored mystical figure of the abyss as it occurs in Neoplatonic mysticism German Idealism and Afro Caribbean philosophy The central question An Yountae raises is How do we mediate the mystical abyss of theology philosophy and the abyss of socio political trauma engulfing the colonial subject What would theopoetics look like in the context where poetics is the means of resistance and survival This book seeks to answer these questions by examining the abyss as the dialectical process in which the self's dispossession before the encounter with its own finitude is followed by the rediscovery or reconstruction of the self

Carnal Hermeneutics Richard Kearney, Brian Treanor, 2015-09-01 Building on a hermeneutic tradition in which accounts of carnal embodiment are overlooked misunderstood or underdeveloped this work initiates a new field of study and concern Carnal Hermeneutics provides a philosophical approach to the body as interpretation Transcending the traditional dualism of rational understanding and embodied sensibility the volume argues that our most carnal sensations are already interpretations Because interpretation truly goes all the way down carnal hermeneutics rejects the opposition of language to sensibility word to flesh text to body In this volume an impressive array of today's preeminent philosophers seek to interpret the surplus of meaning that arises from our carnal embodiment its role in our experience and understanding and its engagement with the wider world

Corpus Jean-Luc Nancy, 2009-08-25 How have we thought the body How can we think it anew The body of mortal creatures the body politic the body of letters and of laws the mystical body of Christ all these and others are incorporated in the word Corpus the title and topic of Jean Luc Nancy's masterwork Corpus is a work of literary

force at once phenomenological sociological theological and philosophical in its multiple orientations and approaches In thirty six brief sections Nancy offers us at once an encyclopedia and a polemical program reviewing classical takes on the corpus from Plato Aristotle and Saint Paul to Descartes Hegel Husserl and Freud while demonstrating that the mutations technological biological and political of our own culture have given rise to the need for a new understanding of the body He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails The long awaited English translation is a bold bravura rendering To the title essay are added five closely related recent pieces including a commentary by Antonia Birnbaum dedicated in large part to the legacy of the mind body problem formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus The last and most poignant of these essays is The Intruder Nancy s philosophical meditation on his heart transplant The book also serves as the opening move in Nancy s larger project called The deconstruction of Christianity **Anthropology's**

Interrogation of Philosophy from the Eighteenth to the Twentieth Century Jerome Fanning Marsden
Carroll,2017-12-06 Anthropology s Interrogation of Philosophy from the Eighteenth to the Twentieth Century presents and discusses key aspects of the German tradition of philosophical anthropology from the eighteenth to the twentieth century centering on the concept of anthropology as a study of the whole concrete man Heinrich Weber 1810 Philosophical anthropology appears during the last decades of the eighteenth century in the often practically oriented writings of men such as Ernst Platner Karl Wezel and Johann Herder and is then taken up in the twentieth century by thinkers including Max Scheler Helmut Plessner Arnold Gehlen and Hans Blumenberg In presenting this tradition the book serves two primary purposes Firstly it introduces English readers in a coherent manner to key aspects of a two hundred year tradition in German thought Secondly the book analyzes in an unprecedented manner even in German scholarship the connections between the philosophical debates associated with anthropology at the end of the eighteenth century and ongoing philosophical issues in the twentieth century Specifically author Jerome Carroll argues that late eighteenth century anthropology diverges pointedly from traditional foundational approaches to philosophy for instance rejecting philosophy s quest for absolute foundations for knowledge or a priori categories and turning to a more descriptive account of man s being in the world Notably by drawing on the epistemological ontological and methodological aspects and implications of anthropological holism this book reads the philosophical significance of classical twentieth century anthropology through the lens of eighteenth century writings on anthropology
