Art History after Deleuze and Guattari Sjoerd van Tuinen, Stephen Zepke, 2017-11-14 At the crossroads of philosophy artistic practice and art history Though Gilles Deleuze and Felix Guattari were not strictly art historians they reinvigorated ontological and formal approaches to art and simultaneously borrowed art historical concepts for their own philosophical work They were dedicated modernists inspired by the German school of expressionist art historians such as Riegl Wölfflin and Worringer and the great modernist art critics such as Rosenberg Steinberg Greenberg and Fried The work of Deleuze and Guattari on mannerism and Baroque art has led to new approaches to these artistic periods and their radical transdisciplinarity has influenced contemporary art like no other philosophy before it Their work therefore raises important methodological questions on the differences and relations among philosophy artistic practice and art history In *Art History after Deleuze and Guattari* international scholars from all three fields explore what a Deleuzo Guattarian art history could be today Contributors

and brain biology leading to revelations about how we see and perceive how we think and feel and how we respond to and create works of art Kandel one of the leading scientific thinkers of our time places these five innovators in the context of today's cutting edge science and gives us a new understanding of the modernist art of Klimt Kokoschka and Schiele as well as the school of thought of Freud and Schnitzler Reinventing the intellectual enquiry that began in Vienna 1900 The Age of Insight is a wonderfully written superbly researched and beautifully illustrated book that also provides a foundation for future work in neuroscience and the humanities It is an extraordinary book from an international leader in neuroscience and intellectual history
