Stefan Draminski

Schlachtschiff Scharnhorst:

Battleship Scharnhorst Gerhard Koop,1998 **The Battleship Scharnhorst** Stefan Draminski,2021-01-21 The Kriegsmarine's Scharnhorst was a German capital ship described either as a battleship or battlecruiser and the lead ship of her class which included one other ship Gneisenau. She was launched on 3 October 1936 and completed in January 1939 armed with nine 28cm C 34 guns in three triple turrets. She operated with Gneisenau for much of the early portion of World War II including sorties into the Atlantic to raid British merchant shipping. They took part in Operation Weserbung April June 1940 the German invasion of Norway during which they sank the aircraft carrier HMS Glorious and her escort destroyers Acasta and Ardent. Scharnhorst also sank HMS Rawalpindi in November 1939. In early 1943 Scharnhorst joined the Tirpitz in Norway to intercept Allied convoys to the Soviet Union. On a sortie from Norway to attack a convoy the German force was intercepted by British ships and during the Battle of the North Cape 26 December 1943 HMS Duke of York and her escorts sank Scharnhorst. Most of her crew was lost. This is the most comprehensive examination of Scharnhorst ever published drawing on new research and technology to tell the full story of the ship. It includes a complete set of detailed line drawings with fully descriptive keys and full colour 3D artwork supported by technical details, photographs and text on the building of the ship as well as a record of her service history.

Battleships of the Scharnhorst Class Gerhard Koop, Klaus-Peter Schmolke,2014-07-22 In this WWII naval history an expert in German warship design examines the legendary battlecruisers Scharnhorst and Gneisenau. This concise yet authoritative summary of Scharnhorst class vessels covers the design history and careers of these WWII era warships. Much like its companion volume Battleships of the Bismarck Class it offers a detailed description of both ships with full technical details. The author also provides an outline of their combat service heavily illustrated with plans, battle maps and a substantial collection of photographs. The Scharnhorst and Gneisenau were the product of a long and complicated design process. Combining speed and power these two battleships took part in a number of major operations including the infamous Channel Dash.

German Battleships 1939-45 Gordon Williamson,2012-04-20 In this the first of a five volume series covering the capital ships of the German Navy of World War II Gordon Williamson examines the design, development and operational use of the battleships used by the Kriegsmarine. The Schlesien and Schleswig-Holstein were used mostly as training ships until the end of the war when they took part in bombardment of Soviet troop movements in East Prussia. The Scharnhorst had a successful career until her sinking at the battle of the North Cape and the Gneisenau with her ignominious end as a block ship. Bismarck's short but glorious career and Tirpitz's lonely vigil in Norway's distant fjords until sunk by RAF bombers using the massive Tallboy bombs are also covered.

Hitler's Navy Gordon Williamson,2022-02-03 A complete illustrated study of the German Kriegsmarine throughout World War II. Hamstrung at first by the terms of the Treaty of Versailles during the 1930s the German Navy underwent a programme of rearmament in defiance of the restrictions building modern warships under limitations which forced technological innovation.

Submarines were strictly prohibited by the treaty and yet following years of covert development they became one of the Kriegsmarine's most deadly weapons. Blooded in the Spanish Civil War the surface ships of the Kriegsmarine went on to play a crucial role in the opening salvos of World War II during the invasions of Poland and Norway although serious losses here set back plans for the invasion of Britain and by the end of the war only a handful of surface vessels remained to be divided up among the Allies. From the beginning of the war but especially after the fall of France the dreaded and extraordinarily successful U-boats stalked the Atlantic threatening vital British shipping convoys and choking off the lifeline of munitions and supply from the US. Once Italy and Japan entered the war German naval operations expanded to the Mediterranean and the Indian Ocean. This highly illustrated volume is a comprehensive study of the German Navy throughout the war from pocket battleships to torpedo boats. **"Then horror came into her eyes ..."** Claudia Glunz, Claudia Junk, Thomas F.

War and Literature International Yearbook on War and Anti War Literature Vol XX. **Tirpitz** Niklas Zetterling, Michael Tamelander, 2009-12-19. The authors of *Bismarck* deliver a very good account of the Tirpitz and of the naval war in the North Atlantic and Norwegian waters during World War II. NYMAS Review. After the Royal Navy's bloody high seas campaign to kill the mighty Bismarck the Allies were left with an uncomfortable truth: the German behemoth had a twin sister. Slightly larger than her sibling the Tirpitz was equally capable of destroying any other battleship afloat as well as wreaking havoc on Allied troop and supply convoys. For the next three and a half years the Allies launched a variety of attacks to remove Germany's last serious surface threat hidden within fjords along the Norwegian coast. Trying an indirect approach the British launched one of the war's most daring commando raids at St. Nazaire in order to knock out the last drydock in Europe capable of servicing the Tirpitz. Of over six hundred commandos and sailors in the raid more than half were lost during an all night battle that succeeded at least in knocking out the drydock. It was not until November 1944 that the Tirpitz finally succumbed to British aircraft armed with ten thousand pound Tallboy bombs: the ship capsized at last with the loss of one thousand sailors. In this book military historians Niklas Zetterling and Michael Tamelander, authors of *Bismarck: The Final Days of Germany's Greatest Battleship* illuminate the strategic implications and dramatic battles surrounding the Tirpitz, a ship that may have had greater influence on the course of World War II than her more famous sister. A riveting story keeps the reader engaged. *Nautilus: A Maritime Journal of Literature, History and Culture*. *Motion Pictures of German Origin Subject to Jurisdiction of Office of Alien Property*. United States. Department of Justice. Office of Alien Property, 1952. The Black Art Lee Richards, 2010. As well as the open propaganda of the British Government produced during the Second World War like the foreign language radio broadcasts of the BBC and the aerial propaganda leaflets dropped by the RAF over Occupied Europe a secret underground propaganda battle was also

fought The Black Art documents this history of Britain's clandestine psychological warfare conducted against the Nazi's Third Reich This black propaganda was the work of several secret intelligence organisations including the Political Warfare Executive and Special Operations Executive Using previously undiscovered primary source material The Black Art charts the progress of and catalogues the range of propaganda leaflets covertly distributed across Occupied Europe and beyond to subvert the morale of German soldiers and civilians The propaganda included such ruses as malingering instructions to fake the symptoms of illness tips for desertion to neutral countries parody postage stamps advice on sabotaging a U boat counterfeit ration coupons identity documents and newspapers plus numerous other falsely attributed leaflets and stickers Over 350 illustrations are included

Heavy Cruisers of the Admiral Hipper Class Gerhard Koop, Klaus-Peter Schmolke, 2014-07-22 The warships of the World War II era German Navy are among the most popular subject in naval history with an almost uncountable number of books devoted to them However for a concise but authoritative summary of the design history and careers of the major surface ships it is difficult to beat a series of six volumes written by Gerhard Koop and illustrated by Klaus Peter Schmolke Each contains an account of the development of a particular class a detailed description of the ships with full technical details and an outline of their service heavily illustrated with plans battle maps and a substantial collection of photographs These have been out of print for ten years or more and are now much sought after by enthusiasts and collectors so this new modestly priced reprint of the series will be widely welcomed This volume covers the Admiral Hipper class among the largest heavy cruisers to serve in World War II Intended to be a class of five they enjoyed contrasting fortunes Seydlitz and Lützow were never completed Blücher was the first major German warship sunk in action Admiral Hipper became one of the most successful commerce raiders of the war while the Prinz Eugen survived to be expended as a target in one of the first American nuclear tests in 1946

Motion Pictures of German Origin Oscar E. Mollari, 1952

Hitler's Gateway to the Atlantic Lars Hellwinkel, 2014-02-19 Employing new research from both German and French sources the author examines the role that the French Atlantic ports played for the Kriegsmarine during the Second World War When the Wehrmacht overran France in May and June of 1940 the German navy's

A Home on the Rolling Main A G F Ditcham, 2013-06-17 This WWII memoir of a Royal Navy Lieutenant offers a vivid account of maritime combat throughout the European Theater From first joining the Royal Navy in 1940 until the end of the campaign against Japan Tony Ditcham was in the front line of the naval war He served aboard the battlecruiser HMS Renown in the North Sea and Gibraltar Serving on destroyers in most of the European theatres he saw action against S boats and aircraft off Britain's East Coast on Arctic convoys to Russia and eventually in a flotilla screening the Home Fleet During the Battle of the North Cape Ditcham was one of the first men to actually see the German battleship Scharnhorst and he vividly describes watching it sink from his position in the gun director of HMS Scorpion Later his ship operated off the American beaches during D Day where two of her sister ships were sunk En route to the Pacific Theater his combat service ended with the surrender of Japan

Written with humor and colorful descriptive power Ditcham's account of his incident-packed career is a classic of naval memoir literature

Hitler's Navy Jak Mallmann Showell, 2009-03-19 The German Navy both before the War and throughout the years of fighting was heavily outnumbered by the navies of Great Britain and the United States nonetheless it proved to be serious thorn in the sides of its adversaries The U boat war in the North Atlantic threatened the very liberation of Europe while the major warships posed a constant threat to the Allied shipping lanes This important reference book is an indispensable guide to the ships organisation command and rank structure and leaders of the Kriegsmarine and helps explain why it was such a potent force A detailed text augmented by photos maps and diagrams studies the German Navy from the Treaty of Versailles to the collapse of the U boat offensive and the demise of the Third Reich After covering the background organisation and naval bases the author gives detailed descriptions of all the classes of ship from the battleships to motor torpedo boats and minesweepers The officers and sailors are covered along with their uniforms and awards and insignia Biographies of notable personalities and a chronology of the main naval events are included as well as appendices and a select bibliography Based on the author's 1979 title *The German Navy in World War Two* this is a classic work of reference for a new generation of readers

To Die Gallantly Timothy J Runyan, Jan M Copes, 2019-08-22 German U boats known as iron coffins terrorized Allied ships during World War II and were responsible for thousands of deaths This volume published to commemorate the 50th anniversary of the Battle of the Atlantic brings together historians from both sides of the ocean to discuss this important campaign As well as offering new insights into both familiar and more neglected aspects the book reflects the human dimension of the conflict paying tribute to the whole spectrum of personnel involved planners and strategists spies and code breakers naval officers and crews merchant sailors and civilians
