## **Scholars And Personal Computers:**

**Scholars and Personal Computers** George M. Kren, George Christakes, 1988 *The Scholar's Personal Computing Handbook* Bryan Pfaffenberger, 1986 **Campus Strategies for Libraries and Electronic Information** Caroline Arms, 2014-06-28 A look at how ten American colleges and Universities bridged the gap between computing administrative and library organisations Detailed case studies from ten American colleges and universities will prepare you to make better plans and decisions for an electronic library integrated information management system or unified information resource You ll find models and guidelines covering reference services latest philosophies and strategies management and organization issues delivery mechanisms and more **Everyday Computing in Academe** Donald T. Mizokawa, 1994 **Conference Proceedings**, 1982 Database Computing for Scholarly Research Sandra R. Schloen, Miller C. Prosser, 2023-12-23 This book discusses in detail a series of examples drawn from scholarly projects that use the OCHRE database platform Online Cultural and Historical Research Environment These case studies illustrate the wide range of data that can be managed with this platform and the wide variety of problems solved by OCHRE s item based graph data model The unique features and design principles of the OCHRE platform are explained and justified helping readers to imagine how the system could be used for their own data Data generated by studies in the humanities and social sciences is often semi structured fragmented highly variable and subject to many interpretations making it difficult to represent adequately in a conventional database The authors examine commonly used methods of data management in the humanities and offer a compelling argument for a different approach that takes advantage of powerful computational techniques for organizing scholarly information This book is a challenge to scholars in the humanities and social sciences asking them to expect more from technology as they pursue their research goals Written jointly by a software engineer and a research scholar each with many years of experience in applying database methods to diverse kinds of scholarly data it shows how scholars can make the most of their existing data while going beyond the limitations of commonly used software tools to represent their objects of study in a more accurate nuanced and flexible way Scholarly Information Discovery in the Networked Academic Learning Environment LiLi Li, 2014-09-10 In the dynamic and interactive academic learning environment students are required to have qualified information literacy competencies while critically reviewing print and electronic information However many undergraduates encounter difficulties in searching peer reviewed information resources Scholarly Information Discovery in the Networked Academic Learning Environment is a practical guide for students determined to improve their academic performance and career development in the digital age Also written with academic instructors and librarians in mind who need to show their students how to access and search academic information resources and services the book serves as a reference to promote information literacy instructions This title consists of four parts with chapters on the search for online and printed information via current academic information resources and services part one examines understanding information and

information literacy part two looks at academic information delivery in the networked world part three covers searching for information in the academic learning environment and part four discusses searching and utilizing needed information in the future in order to be more successful beyond the academic world Provides a reference guide for motivated students who want to improve their academic performance and career development in the digital age Lays out a roadmap for searching peer reviewed scholarly information in dynamic and interactive academic learning environments Explains how to access and utilize academic information ethically legally and safely in public accessed computing environments Provides brainstorming and discussion case studies mini tests and real world examples for instructors and students to promote skills in critical thinking decision making and problem solving

Euro-Librarianship Assunta Pisani, 2018-10-24 Euro Librarianship focuses on strategies for working toward cooperation between libraries throughout Europe and the United States to provide the best access and information to research materials as possible Chapters by several authors in their original languages with English abstracts give this book a unique international appeal Common difficulties such as fiscal constraints and rising book and serial prices are discussed Stressing enhanced communication and shared responsibilities this new volume helps bring libraries of all countries closer to the resource sharing capabilities that allow scholars and researchers much wider access to information than is available today In this timely new book many of the papers that were presented at the Second Western European Specialists WESS International Conference are brought together to be read and studied by everyone

Computer Networking and Scholarly Communication in the Twenty-First-Century University Teresa M. Harrison, Timothy Stephen, 1996-04-04 This book explores the various ways in which computer networking and more specifically the Internet is changing the practices the structure and the products of academic scholarship It considers research teaching and dissemination of knowledge across a range of disciplines in the humanities sciences and social sciences in order to identify particular uses of networking that will come to constitute the academic world of the future The contributors consider such themes as how networking and particular software environments can be used to support inquiry within research specialties and how scholars in diverse disciplines respond to the availability of new networked channels of scholarly communication In the context of education they argue that networking can reconfigure the process of learning encompassing new audiences new relationships with teachers and new learning skills adapted for the network environment The products of such new configurations are also discussed The future of electronic journal publication is considered by innovators who have designed some of the first experiments in refereed electronic journal publication Finally the new responsibilities and roles of the academic library and academic publishers in a networked environment are debated

**Scholars' Guide to Humanities and Social Sciences in the Soviet Union and the Baltic States** Tigran Martirosyan,Silvia Maretti,S. Frederick Starr,2019-11-21 In the years since the first edition of the Guide was published the research institutions of the academies of sciences of the USSR and the republics have undergone several sometimes radical reorganizations and reaffiliations This guide to academy institutions supplies names addresses and historical research and organizational profiles for each institution with summary information on staffing current projects special facilities and libraries The end of the Cold War has brought with it many changes of attitude and policy in the political arena however nowhere has change been so emotionally charged as in the area of politically based emigration Refugee policy is the driving force behind many of today s headlines influencing both foreign and domestic policy In *Desperate Crossings* authors Norman L and Naomi Flink Zucker chronicle and analyze the phenomenon of mass escape that began with the Haitians but exploded into the American consciousness in the spring of 1980 with the Mariel boatlift and the subsequent mass exodus from Central America and was most recently manifested in the Haitian and Cuban exoduses of 1994 In a compelling and carefully documented narrative they identify the troika of interests foreign policy domestic pressures and costs that have controlled and determined the American response to refugees since before the Second World War continuing until today *Desperate Crossings* concludes by proposing a comprehensive and politically palatable approach to future refugee flows both in our hemisphere and for the world community at large including Europe and Asia The authors suggest how by changing the course of its refugee policies and programs the United States can better respond to both the needs of refugees and the demands of its citizens

*The Internet Edge* Mark Stefik,2000 Stefik examines the magic of new technologies in light of

older issues involving the conflict of values in society Issues include censorship copyright protection privacy and economic stability     Computer-Mediated Communication Caleb T.
