School-based Clinics that Work Jane Konhaus Martin,1994 *Black Education* Willy DeMarcell Smith,Eva Wells Chunn,2017-07-28 This highly focused collection of papers commissioned by the National Urban League offers a candid and courageous portrait of black education in transition This is a period as the editors note in their opening remarks that is characterized by a huge shift from federal responsibility for minority education to authority and autonomy being lodged at the local government level Further many institutions that once worked well no longer do so Many ambitious social programs and policies that originally promised much have been abandoned have failed or just faded away Pivotal to these times and changes is the question of the extent to which the American educational system has been or still is capable of being responsive to incorporating and even instigating equity and excellence for black Americans This volume asks the hard questions is the educational system geared up for the maintenance of anything other than mainstream values can it adapt to

minority youth requirements when why and how do educational policies of majorities and minorities clash How are priorities to be established on the basis of wealth or need The legal statutes and administrative enforcement of equal educational opportunities are explored in depth and with a deep compassion for all parties involved *Schools and the Health of Children* Jennie J. Kronenfeld, 2000 With school budgets seeming to be inexorably contracting and with welfare reform looming the future of school health programs is both important and uncertain Jennie Jacobs Kronenfeld begins by clearly defining the key issues in the debate and outlining the history of school health programs She then turns to more contemporary examples of school health care delivery with a special emphasis on the Arizona model crucial due to its being the first state to go to a managed care Medicaid program Finally she theorizes on the likely future of school health care in the light of proposed changes to Medicaid and other welfare initiatives *Schools and the Health of Children* will be of great interest to scholars and professionals in the area of public health educational administration as well as social work and public policy

The Politics of Youth, Sex, and Health Care in American Schools Marvin D Feit, Barbara A Rienzo, 2014-04-04 Examine school based health clinics and the political considerations and strategies that can help them succeed The Politics of Youth Sex and Health Care in American Schools reveals the history and political dynamics involved in building and sustaining an important innovation in the way health care services are delivered to America s youth the school based health clinic These clinics provide vital health services including crucial yet controversial reproductive services to youth In addition to analyzing the nature and extent of the political barriers facing school based clinics this vital book describes the strategies that have proven most effective in overcoming them This essential book begins with an overview of the existing literature on the history and provision of health care for youth Then it presents the results of a study that utilized a two pronged approach a nationwide survey of clinic administrators supplemented with aggregate data and intensive case studies of five representative locales By combining the quantitative data from the national survey with the more qualitative information gleaned from the case study field work The Politics of Youth Sex and Health Care in American Schools can deliver broad yet accurate generalizations as well as detailed interpretation of the authors findings This informative and insightful volume explores the ways that school based health clinics SBHCs have evolved confronted opposition and grown day to day issues that SBHCs face including inadequate funding lack of parental involvement unsupportive teachers and schools staffing training issues cultural issues and more sources of opposition to SBHCs including fundamentalist Protestants Black Evangelicals Catholics and conservative parent groups ways to establish successful school health care reforms issues and recommendations for SBHCs in the future To date there have been very few empirical studies of the politics of school health or of the provision of sexuality related health services for youth The greatest depth and breadth of information you can find on the subject is here in The Politics of Youth Sex and Health Care in American Schools

Handbook of Health Promotion and Disease Prevention James M. Raczynski, Ralph J. DiClemente, 2013-11-11 The idea for this volume developed when we were co teaching our introductory mas ter s level course in the Department of Health Behavior at the UAB School of Public Health a core course for all masters of public health students in the school

regardless of the department in which they enrolled or the focus of their studies Hence in the course we sought to provide both students in our department as well as those who might not ever again take a health behavior course with an overview that would both truly represent the field and substantially provide educational research and public health practice benefits This was and continues to be a challenge with the diversity of students specializing in fields that include not only health behavior but also bio statistics environmental health sciences epidemiology health care organization and policy international health and maternal and child health The course that we taught attempted to provide the students with an overview of some of the important health promotion and disease prevention theories methods and policy issues while reviewing applications of these theories and methods to promoting health and preventing disease through a variety of channels for a variety of disease outcomes and among a variety of populations Since no one text provided this variety of readings we depended on readings and guest lectures
