Voices From American Prisons Faith Education and Healing is a comprehensive and unique contribution to understanding the dynamics and nature of penal confinement In this book author Kaia Stern describes the history of punishment and prison education in the United States and proposes that specific religious and racial ideologies notions of sin evil and otherness continue to shape our relationship to crime and punishment through contemporary penal policy Inspired by people who have lived worked and studied in U S prisons Stern invites us to rethink the current punishment crisis in the United States Based on in depth interviews with people who were incarcerated as well as extensive conversations with students teachers corrections staff and prison administrators the book introduces the voices of those who have participated in the few remaining post secondary education programs that exist behind bars Drawing on individual narrative and various modern day case examples Stern focuses on dehumanization resistance and community transformation She demonstrates how prison education is essential can provide healing and yet is still not enough to interrupt mass incarceration In short this book explores the possibility of transformation from a retributive punishment system to a system of justice The book s engaging human accounts and multidisciplinary perspective will appeal to criminologists sociologists historians theologians and scholars of education alike **Voices from American Prisons** will also capture general readers who are interested in learning about a timely and often silenced reality of contemporary modern society *Behind Bars* Ty Wenzel, 2004-12-02 A woman bartender recounts how her temporary withdrawal from corporate America turned into a ten year position at a New York restaurant during which she learned insider secrets and encountered a host of celebrities **College for Convicts** Christopher Zoukis, 2014-10-28 The United States accounts for 5 percent of the world s population yet incarcerates about 25 percent of the world s prisoners Examining a wealth of studies by researchers and correctional professionals and the experience of educators this book shows recidivism rates drop in direct correlation with the amount of education prisoners receive and the rate drops dramatically with each additional level of education attained Presenting a workable solution to America s mass incarceration and recidivism problems this book demonstrates that great fiscal benefits arise when modest sums are spent educating prisoners Educating prisoners brings a reduction in crime and social disruption reduced domestic spending and a rise in quality of life Instructors considering this book for use in a course may request an examination copy here **God Behind Bars** John Perry, 2006-08-06 When Charles Colson was released after seven months of prison time following the Watergate scandal the last thing on earth he wanted to do was go back into those dark frightening prisons but God called him to do just that Thus was born a life long ministry and here for the first time is the amazing success story of Prison Fellowship s thirty years of work in the darkest places on earth **Resources in Education** , 2001-10

prisoners were best served by silence and hard labor not by reading and writing a stance that a new generation of convict authors vociferously protested The staggering rise of mass incarceration in America since the 1970s has brought the issue of prisoner rehabilitation once again to the fore Reading Prisoners offers vital background to the ongoing crucial debates over the benefits of prisoner education

colleges to educate underserved students Education and Incarceration Erica R. Meiners, Maisha T. Winn, 2014-07-16 The United States of America is in possession of the largest prison population in the world with 2.3 million people currently behind bars. This number is predominantly and disproportionately made up of communities of colour and poverty. Between 1987 and 2007 the U.S. prison population tripled, the direct result of various tough on crime public policies. Organizers and scholars use the term prison industrial complex (PIC) to name the structure that encompasses the expanding economic and political contexts of the detention and corrections industry in the USA. The PIC is a network that sutures capital, communities, and the State to a permanent punishment economy. The term the PIC aims to capture the range of material and ideological forces that shape the growth of detention, the political and lobbying power of the corrections officers' unions, the framing of prisons and jails as a growth industry in the context of deindustrialization, the production and sales of technology and security required to maintain and expand the state of incarceration, and the naturalization of isolation as a logical response to harm. Education and Incarceration highlights the significance of centering agency and autonomy and documents scholars who work to be accountable to justice movements and communities, not simply to academic disciplines or to research. Additionally, as emerging scholars committed to challenging the PIC, these authors struggle to build multi-layered analytic and material tools for resistance within and beyond the walls of schools, jails, and prisons. This book provides snapshots of practices in motion: activist scholars working to engage to be accountable to families, communities, and larger justice movements, and to build abolition democracies. This book was originally published as a special issue of *Race, Ethnicity and Education*.
