The Origins of the Irish J. P. Mallory, 2013-04-01 An essential new history of ancient Ireland and the Irish written as an engrossing detective story About eighty million people today can trace their descent back to the occupants of Ireland But where did the occupants of the island themselves come from and what do we even mean by Irish in the first place This is the first major attempt to deal with the

core issues of how the Irish came into being J P Mallory emphasizes that the Irish did not have a single origin but are a product of multiple influences that can only be tracked by employing the disciplines of archaeology genetics geology linguistics and mythology Beginning with the collision that fused the two halves of Ireland together the book traces Ireland's long journey through space and time to become an island The origins of its first farmers and their monumental impact on the island is followed by an exploration of how metallurgists in copper bronze and iron brought Ireland into increasingly wider orbits of European culture Assessments of traditional explanations of Irish origins are combined with the very latest genetic research into the biological origins of the Irish

Britain Begins Barry Cunliffe, 2013 The story of the origins of the British and the Irish peoples from the end of the last Ice Age around 10 000BC to the eve of the Norman Conquest who they were where they came from and how they related to one another *Out of the Mist*, *Medieval French on the Move* Leah Tether, Patrick Moran, Anne Salamon, 2025-03-17 When Keith Busby published his field shaping *Codex and Context* in 2002 the work was referred to as groundbreaking and monumental It prompted scholars of medieval literature to return to manuscripts in their droves However Busby's *Codex and Context* would also enact another more gradual movement His formulation of the term medieval Francophonia to describe the presence power and effect of French outside France would filter steadily into academic enquiry The term and concept are now widely recognised and applied in global scholarship including in multiple major projects dedicated to the topic This volume brings together a series of cutting edge studies of medieval Francophonia covering in one place and for the first time the fullest scope of the concept's remit with contributions on history historiography language literature culture society and authority At the same time as offering a timely contribution to the field this volume pays tribute to Busby's life work not only to pioneer medieval Francophonia but also and moreover to encourage the study of the medieval through material philology Each of the studies here written by Busby's friends and colleagues thus roots its approach in a material context

The Iron Age Round-House D. W. Harding, 2009-11-19 In contrast to Continental Europe

where the Iron Age is abundantly represented by funerary remains as well as by hill forts and major centres the British Iron Age is mainly represented by its settlement sites and especially by houses of circular ground plan apparently in marked contrast to the Central and Northern European tradition of rectangular houses In lowland Britain the evidence for timber round houses comprises the footprint of post holes or foundation trenches in the Atlantic north and west the remains of monumental stone built houses survive as upstanding ruins testimony to the building skills of Iron Age engineers and masons D W Harding s fully illustrated study explores not just the architectural aspects of round houses but more importantly their role in the social economic and ritual structure of their communities and their significance as symbols of Iron Age society in the face of Romanization

Holy Wells of Ireland Celeste Ray,Finbar McCormick,2023-09-19 The storied landscapes of Ireland are dotted with holy wells hallowed springs pools ponds and lakes credited with curative powers and often associated with Catholic and indigenous saints While many of these sites have been recently lost to development others are visited daily for devotions and remain the focus of annual community gatherings Encouraging both their use and protection Holy Wells of Ireland delves into these irreplaceable resources of spiritual archaeological and historical significance Reserves of localized spiritual practices holy wells are also ecosystems in themselves and provide habitats for rare and culturally meaningful flora and fauna The shift toward a post Catholic Ireland has prompted renewed interest in holy wells as popular domains with organic faith traditions Of the roughly 3 000 holy wells documented across Ireland some attract international pilgrims and others are stewarded by a single family Featuring 140 color images this remarkable volume shares the transdisciplinary work of contributors who study these wells through the overlapping lenses of anthropology archaeology art history biomedicine folklore geography history and hydrology Braiding

community perspectives with those of scholars across academia Holy Wells of Ireland considers Irish holy wells as a resilient feature of ever evolving Irish Christianity as inspiration to other faith traditions as places of pilgrimage and healing and as threatened biocultural resources Inter- and Intracultural Differences in European History Textbooks Carol Morgan,2005 Papers from a conference held in Feb 2002 at the University of Bath Archaeology and Folklore Amy Gazin-Schwartz,Cornelius J. Holtorf,2005-06-23 Archaeology and Folklore explores the complex relationship between the two disciplines to demonstrate what they might learn from each other This collection includes theoretical discussions and case studies drawn from Western Europe the Mediterranean and North They explore the differences between popular traditions relating to historic sites and archaeological interpretations of their history and meaning Ideal Homes Rena Maguire,2024-04-01 The purpose of archaeology is to reconstruct and present the past as it was lived warts and all Too often that ideal has been restricted to the affairs and structures of the great and often not so good ignoring what happened after the battles were won or lost Everyday life carried on for the vast majority of people who cooked built walls and fences herded and tended animals and made pottery metal tools and foodstuffs Each of these domestic tasks required tools and equipment and each object tells a story of the user s identity both regional and personal This volume presents a selection of worldwide studies of domestic objects and lives from Scottish ceramics to Mayan urban zones Each of these chapters demonstrate the commonalities humans share when there is no place like home enhancing archaeological knowledge of the realities of life in the past The Encyclopedia of Celtic Mythology and Folklore Patricia Monaghan,2014-05-14 Presents an illustrated A to Z reference containing over 1 000 entries providing information on Celtic myths fables and legends from Ireland Scotland Celtic Britain Wales Brittany central France and Galicia **Redefining Irishness in a Coastal Maine City, 1770-1870** Kay Retzlaff,2021-11-18 Redefining Irishness in a Coastal Maine City 1770 1870 Bridget s Belfast examines how Irish immigrants shaped and reshaped their identity in a rural New England community Forty percent of Irish immigrants to the United States settled in rural areas Achieving success beyond large urban centers required distinctive ways of performing Irishness Class status and gender were more significant than ethnicity Close reading of diaries newspapers local histories and public papers allows for nuanced understanding of immigrant lives amid stereotype and the nineteenth century evolution of a Scotch Irish identity Rewriting History Dennis Harding,2020-01-09 In Rewriting History Dennis Harding addresses contemporary concerns about information and its interpretation His focus is on the archaeology of prehistoric and early historic Britain and the transformation over two centuries and more in the interpretation of the archaeological heritage by changes in the prevailing political social and intellectual climate Far from being topics of concern only to academics the way in which seemingly innocuous issues such as cultural diffusion or social reconstruction in the remote past are studied and presented reflects important shifts in contemporary thinking that challenge long accepted conventions of free speech and debate Some issues are highly controversial such as the proposals for the Stonehenge World Heritage sites Others challenge

long held popular myths like the deconstruction of the Celts and by extension the Picts Some traditional tenets of scholarship have yet remained unchallenged such as the classical definition of civilization itself Why should it matter Are the shifting attitudes of successive generations not symptomatic of healthy and vibrant debate Are there grounds for believing that current changes are of a more disquieting character denying the basic assumptions of rational argument and freedom of enquiry that have been the foundation of western scholarship since the Enlightenment Re writing History offers Harding s personal evaluation of these issues which will resonate not only with practitioners and academics of archaeology but across a wide range of disciplines facing similar concerns
