Reading From The Margins Textual Studies Chaucer And Medieval Literature

Barry Windeatt

Reading From The Margins Textual Studies Chaucer And Medieval Literature:

Reading from the Margins Seth Lerer, 1996 The six essays in *Reading from the Margins* explore new approaches to the textual study of medieval manuscripts Ralph Hanna III and A S G Edwards open the volume s broad inquiry into Chaucer s early readership by looking at the annotation on the flyleaves of the Ellesmere manuscript Julia Boffey shows the *The Cambridge Companion to Textual Scholarship* Neil Fraistat, Julia Flanders, 2013-05-09 As more and more of our cultural heritage migrates into digital form and as increasing amounts of literature and art are created within digital environments it becomes more important than ever before for us to understand how the medium affects the text The expert contributors to this volume provide a clear engrossing and accessible insight into how the texts we read and study are created shaped and transmitted to us They outline the theory behind studying texts in many different forms and offer case studies demonstrating key methodologies underlying the vital processes of editing and presenting texts Through their multiple perspectives they demonstrate the centrality of textual scholarship to current literary studies of all kinds and express the sheer intellectual excitement of a crucial scholarly discipline entering a new phase of its existence *Twentieth-Century Chaucer Criticism* Kathy Cawsey, 2016-02-17 Shifting ideas about Geoffrey Chaucer s audience have produced radically different readings of Chaucer s work over the course of the past century Kathy Cawsey in her book on the changing relationship among Chaucer critics and theories of audience draws on Michel Foucault s concept of the author function to propose the idea of an audience function which shows the ways critics concepts of audience affect and condition their criticism Focusing on six trend setting Chaucerian scholars Cawsey identifies the assumptions about Chaucer s audience underpinning each critic s work arguing these ideas best explain the diversity of interpretation in Chaucer criticism Further Cawsey suggests few studies of Chaucer s own understanding of audience have been done in part because Chaucer criticism has been conditioned by scholars latent suppositions about Chaucer s own audience In making sense of the confusing and conflicting mass of modern Chaucer criticism Cawsey also provides insights into the development of twentieth century literary criticism and theory Rereading Chaucer and Spenser Rachel Stenner, Tamsin Badcoe, Gareth Griffith, 2019-05-10 Rereading Chaucer and Spenser Dan Geffrey with the New Poete offers dynamic new approaches to the relationship between the works of Geoffrey Chaucer and Edmund Spenser Contributors draw on current and emerging preoccupations in contemporary scholarship and offer new perspectives on poetic authority influence and intertextuality Spaces for Reading in Later Medieval England Mary C. Flannery, 2016-04-08 We are living in an age in which the relationship between reading and space is evolving swiftly Cutting edge technologies and developments in the publication and consumption of literature continue to uncover new physical electronic and virtual contexts in which reading can take place In comparison with the accessibility that has accompanied these developments the medieval reading experience may initially seem limited and restrictive available only to a literate few or to their listeners yet attention to the spaces in which medieval reading habits can be traced reveals a far more vibrant

picture in which different kinds of spaces provided opportunities for a wide range of interactions with and contributions to the texts being read Drawing on a rich variety of material this collection of essays demonstrates that the spaces in which reading took place or in which reading could take place in later medieval England directly influenced how and why reading happened Textual Scholarship and the Material Book Wim Van Mierlo, 2007 In the last decades the emphasis in textual scholarship has moved onto creation production process collaboration onto the material manifestations of a work onto multiple rather than single versions onto reception and book history Textual scholarship now includes not only textual editing but any form of scholarship that looks at the materiality of text of writing of reading and of the book The essays in this collection explore many questions about methodology and theory arising from this widening scope of textual scholarship The range of texts discussed from Sanskrit epic via Medieval Latin commentary through English and Scottish Ballads to the plays of Samuel Beckett and the stories of Guimar es Rosa testifies to the vigour of the discipline The range of texts is matched by a range of approach from theoretical discussion of how text happens to analysis of issues of book design and censorship the connections between literary and textual studies exploration of the links between reception and commodification in George Eliot and between information theory and paratext Through this diversity of subject and approach a common theme emerges the need to look further for common ground from which to continue the debate from a comparative perspective

Prophecy, Politics and the People in Early Modern England Tim Thornton, 2006 Thornton also sheds light on areas where popular culture and politics were uneasily interlinked the powerful political influence of those outside elite groups the variations in political culture across the country and the considerable continuing power of mystical supernatural and non rational ideas in British social and political life into the nineteenth century Jacket Mary Magdalene and the Drama of Saints Theresa Coletti, 2013-11-15 A sinner saint who embraced then renounced sexual and worldly pleasures a woman who through her attachment to Jesus embodied both erotic and sacred power a symbol of penance and an exemplar of contemplative and passionate devotion perhaps no figure stood closer to the center of late medieval debates about the sources of spiritual authority and women's contribution to salvation history than did Mary Magdalene and perhaps nowhere in later medieval England was cultural preoccupation with the Magdalene stronger than in fifteenth century East Anglia Looking to East Anglian texts including the N Town Plays The Book of Margery Kempe The Revelations of Julian of Norwich and Bokenham's Legend of Holy Women Theresa Coletti explores how the gendered symbol of Mary Magdalene mediates tensions between masculine and feminine spiritual power institutional and individual modes of religious expression and authorized and unauthorized forms of revelation and sacred speech Using the Digby play Mary Magdalene as her touchstone Coletti engages a wide variety of textual and visual resources to make evident the discursive and material ties of East Anglian dramatic texts and feminine religion to broader traditions of cultural commentary and representation In bringing the disciplinary perspectives of literary history and criticism gender studies and social and religious history to bear on specific

local instances of dramatic practice Mary Magdalene and the Drama of Saints highlights the relevance of Middle English dramatic discourse to the dynamic religious climate of late medieval England In doing so the book decisively challenges the marginalization of drama within medieval English studies elucidates vernacular theater s kinship with influential late medieval religious texts and institutions and articulates the changing possibilities for sacred representation in the decades before the Reformation

Kingdom of Snow Raymond Van Dam,2002-09-27 Kingdom of Snow investigates the impact of Roman rule in Cappadocia and the fate of classical Greek culture in an increasingly Christian society

Oxford Guides to Chaucer: Troilus and Criseyde Barry Windeatt,2023-08-24 This is a comprehensive critical guide to Chaucer s Troilus and Criseyde This new edition has been comprehensively revised in light of the latest scholarly and critical research and with a fully updated bibliography It includes a full account of Chaucer s imaginative deployment of his sources and an extended survey of this narrative poem s innovative combination of a range of generic identities The chapters explain how Chaucer builds thematic significance into his poem s symmetrical structure and the poem s distinctive variety in style and language as well as a full commentary on the poem s concerns with love in the contexts of time and mutability and human free will The Guide explores the poem as an extended debate about the nature and value of love and how love was conceptualized and experienced as a form of service in quest of compassionate reward a quasi religious devotion and a potentially fatal illness always in hope of cure The subjectivities of the chief protagonists are fully analysed as is the poem s problematic ending Alongside discussions of theme and structure there is also an account of what the extant manuscripts of Troilus and Criseyde may reveal about the poem s early genesis and a unique survey of responses to Troilus from its own times to the present day Barry Windeatt s contribution to the series is a comprehensive single volume guide to Troilus and Criseyde bringing together a wide range of material and providing a readable commentary on all aspects of the work Combining the informative substance of a reference book with the coherence of a critical reading the Guide has taken its place as the standard introduction to Troilus and Criseyde since its first publication in 1992
