Reading The Young Marx And Engels Poetry Parody And The Censor:

Reading the Young Marx and Engels Margaret A. Rose, 1978-01-01 Marx, the Young Hegelians, and the Origins of Radical Social Theory Warren Breckman, 2001-02-19 This is the first major study of Marx and the Young Hegelians in twenty years The book offers a new interpretation of Marx's early development the political dimension of Young Hegelianism and that movement's relationship to political and intellectual currents in early nineteenth century Germany Warren Breckman challenges the orthodox distinction drawn between the exclusively religious concerns of Hegelians in the 1830s and the sociopolitical preoccupations of the 1840s He shows that there are inextricable connections between the theological political and social discourses of the Hegelians in the 1830s The book draws together an account of major figures such as Feuerbach and Marx with discussions of lesser known but significant figures such as Eduard Gans August Cieszkowski Moses Hess F W J Schelling as well as such movements as French Saint Simonianism and positive philosophy Wide ranging in scope and synthetic in approach this is an important book for historians of philosophy theology political theory and nineteenth century ideas

Parody Margaret A. Rose, 1993-09-09 In this definitive work Margaret Rose presents an analysis and history of theories and uses of parody from ancient to contemporary times and offers a new approach to the analysis and classification of modern late modern and post modern theories of the subject The author's *Parody Meta Fiction* 1979 was influential in broadening awareness of parody as a double coded device which could be used for more than mere ridicule In the present study she both expands and revises the introductory section of her 1979 text and adds substantial new sections on modern and post modern theories and uses of parody and pastiche which also discuss the work of theorists and writers including the Russian formalists Mikhail Bakhtin Hans Robert Jauss Wolfgang Iser Julia Kristeva Roland Barthes Michel Foucault Jacques Derrida Ihab Hassan Jean Baudrillard Fredric Jameson A S Byatt Martin Amis Charles Jencks Umberto Eco David Lodge Malcolm Bradbury and others

The Young Karl Marx David Leopold, 2007-06-28 The Young Karl Marx is an innovative and important study of Marx's early writings These writings provide the fascinating spectacle of a powerful and imaginative intellect wrestling with complex and significant issues but they also present formidable interpretative obstacles to modern readers David Leopold shows how an understanding of their intellectual and cultural context can illuminate the political dimension of these works An erudite yet accessible discussion of Marx's influences and targets frames the author's critical engagement with Marx's account of the emergence character and future replacement of the modern state This combination of historical and analytical approaches results in a sympathetic but not uncritical exploration of such fundamental themes as alienation citizenship community anti semitism and utopianism The Young Karl Marx is a scholarly and original work which provides a radical and persuasive reinterpretation of Marx's complex and often misunderstood views of German philosophy modern politics and human flourishing

The Marx Machine Charles Barbour, 2012-06-21 Karl Marx has rarely if ever been treated as a writer Charles Barbour argues not only that we can examine the literary and rhetorical aspects of Marx's texts

but also that as soon as we begin to do so those texts begin to take on new and entirely unexpected political implications In the past Marx scholars have characterized his literary remains as either a relatively coherent body of work or a structure cut in half by a single all important epistemological break Neither metaphor really captures the incredible proliferation of documents that we retroactively label Karl Marx Barbour proposes that we characterize them instead as a machine or an assemblage of fragments and components that can be put together and taken apart in any number of different ways for any number of different purposes Focusing primarily on Marx s early polemical writings and especially the debates with Bruno Bauer and Max Stirner that make up most of the voluminous manuscript now called The German Ideology The Marx Machine endeavors to show how some of Marx s most consistently denigrated and ignored works can in fact be approached as responses to Marx s contemporary critics

Centaurs, Rioting in Thessaly: Memory and the Classical World Martyn Hudson, 2018-01-07 This book treads new paths through the labyrinths of our human thought It meanders through the darkness to encounter the monsters at the heart of the maze Minotaurs Centaurs Automata Makers Humans One part of our human thought emerges from classical Ionia and Greek civilisation more generally We obsessively return to that thought tread again its pathways re enact its stories repeat its motifs and gestures We return time and time again to construct and re construct the beings which were part of its cosmology and mythology stories enacted from a classical world which is itself at once imaginary and material The Never Never Lands of the ancient world contain fabulous beasts and humans and landscapes of desire and violence We encounter the rioting Centaurs there and never again cease to conjure them up time and time again through our history The Centaur mythologies display a fascination with animals and what binds and divides human beings from them The Centaur hints ultimately at the idea of the genesis of civilisation itself The Labyrinth constructed by Daedalus is itself a prison and a way of thinking about making designing and human aspiration Designed by humans it offers mysteries that would be repeated time and time again a motif which is replicated through human history Daedalus himself is an archetype for creation and mastery the designer of artefacts and machines which would be the beginning of forays into the total domination of nature Centaurs Labyrinths Automata offer clues to the origins and ultimately the futures of humanity and what might come after it Martyn Hudson is the coordinator of the Co Curate North East digital archives and machines project at Newcastle University in the School of Arts and Cultures as well as a Lecturer in Art and Design History He has published widely in landscape history music and archives His book The Slave Ship Memory and the Origin of Modernity was published by Routledge in 2016 and he has two other books forthcoming from Routledge Ghosts Landscapes and Social Memory and Species and Machines The Human Subjugation of Nature

The Politics of Style Daniel Hartley, 2016-09-27 This book develops a Marxist theory of literary style The first part explains why Raymond Williams Terry Eagleton and Fredric Jameson came to see style as central to political criticism It delineates the historical and conceptual preconditions for the emergence of a politics of style and uncovers an underground current of stylistics within the

Marxist tradition from Marx to Barthes The second part sets out precisely what each thinker has written on style and demonstrates how this came to figure in their overall intellectual and political projects focusing above all on a detailed reconstruction of Williams's best known concept the structure of feeling Finally the third part sets out an independent theory of style and makes an ambitious attempt to establish it as a foundational element of a new Marxist poetics **Fictive**

Theories S. McManus, 2005-06-03 *Fictive Theories* is a significant and innovative intervention in key debates in political theory concerning the ways theory should be philosophically grounded and the task that political theory should set itself Susan McManus argues that political theory has been grounded in controlling fictions from fictions of human nature to morals laws that function to close possibility Starting by interrogating the often hidden work of fictions in political theories she argues that all theorizing is a form of world creating Rather than hiding the fictions at work in political theory McManus argues that theory should become self consciously fictive and that there are political and ethical advantages to so doing She then develops a uniquely deconstructive and utopian understanding of the project of political theory grounded in the fictive a creative and future oriented imagination Rather than seeking to provide blueprints of how a polity should be organized fictive theories seek to fabricate futures through the anticipatory articulation of possibility Drawing on a rich range of thinkers from the traditions of political theory Hobbes Rousseau Kant deconstructive theory Roland Barthes Jacques Derrida and utopian studies Ernst Bloch this book will be of interest to researchers teachers and students in the fields of political theory utopian studies literary theory and cultural studies *Humour in Society* George E Paton, Chris Powell, 1988-04-18 **A Failed**

Parricide Roberto Finelli, 2015-11-24 According to an established interpretation the transition from Hegel's materialism to Marx's materialism signifies a progressive development from an abstract idealist theory of becoming to a theory of the concrete actions of human beings within history *A Failed Parricide* by Roberto Finelli offers an innovative reading of the Marx Hegel relationship arguing that the young Marx remained structurally subaltern to Hegel's distinctive conception of the subject that becomes itself in relation to alterity Marx's early critique of Hegel is represented as a failed parricide relying upon an organicist and spiritualist anthropology derived from Feuerbach's presumed materialism Only in Marx's mature critique of political economy will he be able to return to this primal scene and produce a distinctive theory of the role of formal determinations in social and political modernity First published in Italian by Bollati Boringhieri Editore as *Un parricidio mancato Il rapporto tra Hegel e il giovane Marx* Turin 2004
