Reading Tudor-Stuart Texts Through Cultural Historicism Albert H. Tricomi, 1996 Tricomi shows the inadequacy of an older event based historical criticism that excludes various forms of cultural knowledge including metaphor and states of mind as revealed in literary texts At the same time he demonstrates a more robust historicism by joining functional cultural analyses to a conception of historical understanding that can recognize both events and processes

The Tower of London in English Renaissance Drama Kristen Deiter, 2011-02-23 The Tower of London in English Renaissance Drama historicizes the Tower of London s evolving meanings in English culture alongside its representations in twenty four English history plays 1579 c 1634 by William Shakespeare Christopher Marlowe and others While Elizabeth I James I and Charles I fashioned the Tower as a showplace of royal authority magnificence and entertainment many playwrights of the time revealed the Tower s instability as a royal symbol and represented it instead as an emblem of opposition to the crown and as a bodily and spiritual icon of non royal English identity

Masculinity, Anti-Semitism and Early Modern English Literature Matthew Biberman, 2017-03-02 Offering a profound re assessment of the conceptual rhetorical and cultural intersections among sexuality race and religion in English Renaissance texts this study argues that antisemitism is a by product of tensions between received Classical conceptions of masculinity and Christianity's strident critique of that ideal Utilizing works by Shakespeare Milton Marlowe and others Biberman illustrates how modern antisemitism develops as a way to stigmatize hypermasculine behavior thus facilitating the transformation of the culture's gender ideal from knight to businessman Subsequently the function of antisemitism changes becoming instead the mark of effeminate behavior Consequently the central antisemitic image changes from Jew Devil to Jew Sissy Biberman traces this shift's repercussions both in renaissance culture and what followed it He also contends that as a result of this linkage between Jewishness and the limits of masculine behavior the image of the Jewish woman remains especially unstable In concluding Biberman argues that the Gothic resurrects the Jew Devil bequeathing it to the Nazis and that the horror genre is often a rewriting of Renaissance discourse about Jews In the course of making this larger argument Biberman introduces a series of more limited claims that challenge the conventional wisdom within the field of literary studies First Biberman overturns the assumption that Jewishness and femininity are always associated in the cultural imagination of Western Europe Second Biberman provides the historical context needed to understand the emergence of the stereotype of the pathological Jewish woman Third Biberman revises the incorrect notion that divorce was not practiced in Renaissance England Fourth Biberman argues for the novel claim that serial monogamy in Western culture is a practice understood to possess a Jewish taint Fifth Biberman contributes a major advance in scholarship devoted to T S Eliot illustrating how Eliot's famous critical argument against Milton is an expression of his antisemitism and a coherent compliment to the antisemitic touches in his poetry Sixth in his discussion of Gothic literature Biberman introduces novel readings of *Frankenstein* and *Dracula* persuasively arguing that Mary Shelley's monster bears the mark of the Jew according to modern antisemitic discourse and that in Stoker both the vampire and the vampire killer represent Jews executing a scenario of self policing that was realized in the ghettos and the concentration camps Biberman's final contribution in this study is to provide a definition for postmodern antisemitism and to apply it to various contemporary incidents including September 11th and the Arab Israeli conflict

Shakespeare and Renaissance Literary Theories Professor Michele Marrapodi, 2013-05-28 Throwing fresh light on a much discussed but still controversial field this collection of essays places the presence of Italian literary theories against and alongside the background of English dramatic traditions to assess this influence in the emergence of Elizabethan

theatrical convention and the innovative dramatic practices under the early Stuarts Contributors respond anew to the process of cultural exchange cultural transaction and generic intertextuality involved in the debate on dramatic theory and literary kinds in the Renaissance exploring with special emphasis on Shakespeare s works the level of cultural appropriation contamination revision and subversion characterizing early modern English drama Shakespeare and Renaissance Literary Theories offers a wide range of approaches and critical viewpoints of leading international scholars concerning questions which are still open to debate and which may pave the way to further groundbreaking analyses on Shakespeare s art of dramatic construction and that of his contemporaries *Shakespeare Survey* Stanley Wells,Jonathan Bate,Michael Dobson,2003-10-16 Shakespeare Survey is a yearbook of Shakespeare studies and production Since 1948 Survey has published the best international scholarship in English and many of its essays have become classics of Shakespeare criticism Each volume is devoted to a theme or play or group of plays each also contains a section of reviews of the previous year s textual and critical studies and of major British performances The books are illustrated with a variety of Shakespearean images and production photographs The current editor of Survey is Peter Holland The first eighteen volumes were edited by Allardyce Nicoll numbers 19 33 by Kenneth Muir and numbers 34 52 by Stanley Wells The virtues of accessible scholarship and a keen interest in performance from Shakespeare s time to our own have characterised the journal from the start Now backnumbers are gradually being reissued in paperback
