

The book cover features a warm, orange-toned illustration. On the left, a vase with pink lilies sits on a wooden surface. In the background, a window with a grid pattern is visible. In the bottom right corner, a red and white striped beach ball is partially shown. The title 'READING LESSONS' is prominently displayed in a large, black, serif font, with 'An Introduction to Theory' written below it in a smaller, italicized script font.

Reading Lessons An Introduction To Theory:

Theory for Beginners Kenneth B. Kidd, 2020-11-03 Since its inception in the 1970s the Philosophy for Children movement P4C has affirmed children's literature as important philosophical work Theory meanwhile has invested in children's classics especially Lewis Carroll's Alice books and has also developed a literature for beginners that resembles children's literature in significant ways Offering a novel take on this phenomenon Theory for Beginners explores how philosophy and theory draw on children's literature and have even come to resemble it in their strategies for cultivating the child and or the beginner Examining everything from the rise of French Theory in the United States to the crucial pedagogies offered in children's picture books from Alison Bechdel's graphic memoir *Are You My Mother* and Lemony Snicket's *A Series of Unfortunate Events* to studies of queer childhood Kenneth B Kidd deftly reveals the way in which children may learn from philosophy and vice versa

New Theory of Children's Thinking Development: Application in Language Teaching Kekang He, 2015-10-23 This book proposes a new theory on children's thinking cognitive development According to this theory the stages of said development should be divided into four stages first the stage of animalistic thinking birth before possessing basic language ability second the stage of elementary thinking beginning to possess basic language ability beginning to possess proficient oral ability third the stage of intermediate thinking beginning to possess proficient oral ability before the formation of comprehensive cognitive ability and fourth the stage of advanced thinking after the formation of comprehensive cognitive ability In this context thinking includes logical thinking visual thinking and intuitive thinking Based on the new theory the author points out the serious negative impact that Piaget's stage theory of children's cognitive development has had on Chinese language education in China The book also offers a number of practical principles such as five teaching activities for language teaching of extension typing writing passage and thinking
