Abstract

Cultural responsiveness is imperative for the success of behavior analysts. As topics within diversity, equity, and inclusion are emphasized within coursework and supervision, there is a growing need for resources. To date, there is limited research on suggested readings within diversity, equity, and inclusion for behavior analysts. We surveyed behavior analysts to construct a list of essential readings within diversity, equity, and inclusion and reported common publications that instructors assigned and students were assigned within behavior analytic coursework.

Keywords Diversity · Equity · Inclusion · Essential readings

In 2019, Zarcone et al. introduced the special issue on diversity and equity in the practice of behavior analysis by saying, “as a field, we have lost sight of the importance and study of the social context in which human behavior occurs” (p. 741). Diversity, equity, and inclusion (DEI) has been identified as a crucial topic that needs to be embedded within training programs (Hilton et al., 2021; Najdowski et al., 2021) and clinical practice (Beaulieu et al., 2019; Fong et al., 2016) for behavior analysts. The Behavior Analyst Certification Board (BACB) has specified that DEI content must be embedded throughout graduate training curricula in addition to a dedicated ongoing continuing education requirement for certified individuals (BACB, *BACB Newsletter*, 2022). In addition, the *Ethics Code for Behavior Analysts* (BACB, 2020) now requires that DEI content be incorporated into the training and supervision of behavior analysts.

As more efforts are made to incorporate DEI and cultural humility within coursework and fieldwork, it is important to assess what behavior analysts consider essential readings within this topic. Completing assigned readings is a

quintessential component of preparing students for behavior analysis. Previous articles (i.e., Frieder et al., 2018; Kazemi et al., 2019; Pastrana et al., 2018; Saville et al., 2002) have outlined essential and frequently assigned readings recommended to help educate undergraduate and graduate students studying behavior analysis. Saville et al. (2002) surveyed members of the editorial board for the *Journal of Applied Behavior Analysis (JABA)* and the *Journal of Experimental Analysis of Behavior (JEAB)* to construct a reading list for graduate students of behavior analysis. Frieder et al. (2018) expanded on the work of Saville et al. by surveying behavior analysts to identify essential readings for undergraduate students studying behavior analysis. Both Pastrana et al. (2018) and Kazemi et al. (2019) reviewed the syllabi for graduate programs to gather frequently assigned readings based on curriculum area (Pastrana et al., 2018) in addition to the experimental analysis of behavior (Kazemi et al., 2019) to assist both instructors and program coordinators. Although it is not feasible to provide exhaustive lists, such publications do provide helpful recommendations for assigned readings in high-priority areas in behavior analysis. Hollins et al. (2023) published recommendations of DEI articles and topics to incorporate into graduate programs; however, it would be prudent to assess current practices and perspectives of behavior analysts and students of behavior analysis. DEI is critical to the development of competent behavior analysts and would benefit from a similar systematic collection of relevant readings that could be recommended. Thus, the purpose of this article was to determine what behavior analysts
