Readings In Classical Political Thought Hackett Publishing Co:

Readings in Classical Political Thought Peter J. Steinberger, 2000-01-01 Designed to include all of the texts from Presocratics through Machiavelli likely to be read in an undergraduate course on classical political thought this anthology has at its core generous selections from Plato and Aristotle Building on this core is a sufficiently diverse and substantial selection of texts from other writers including Thucydides and the Sophists to allow for inquiry into the variety of Classical Greek approaches to politics as well as into Roman Medieval and Renaissance developments of the classical tradition Preeminent translations and the editor's own thoughtful introductions further distinguish this unique anthology Poverty, Justice, and Western Political Thought Sharon K. Vaughan, 2008-01-01 The number of people who live in poverty has always far exceeded the number who do not The normative question of how governments ought to treat the poor goes to the heart of the idea of justice and thus it is an essential element of political theory Yet there has been no formal study of the treatment of poverty in Western political thought The chapters of Poverty Justice and Western Political Thought include an analysis of the main arguments of Plato Aristotle Locke Rousseau Smith Mill Tocqueville Hegel Marx Rawls and Nozick about the causes effects and solutions to the problem of poverty and how their treatments of poverty relate to the idea of a just society This book asks What is the relationship between poverty and justice in the state If we are to understand the relationship between the poor and the idea of a just state in the tradition of Western political thought then we must be able to recognize how these theorists' definitions assumptions and conclusions about poverty contribute to or detract from the idea of justice At the core of this work is the claim that the demands of justice necessarily require that the political theorist engage with the problem of poverty with the goal being to suggest some thoughtful and reasonable approaches to the problem Poverty Justice and Western Political Thought demonstrates that historical analysis and reconstruction of the treatment of poverty is critical because we are part of a historical community Rather than being artifacts of scholarship philosophical debates and ideas that are hundreds and thousands of years old continue to be relevant today because they are part of the foundation for society's beliefs about who the poor are why they are poor and what responsibility if any society has to them This book will benefit political theorists and philosophers interested in the history of political thought poverty or distributive justice as well as non-theorists Book jacket **Political Thinking, Political Theory, and Civil Society** Steven M. DeLue, Timothy M. Dale, 2021-04-28 This new edition of Political Thinking Political Theory and Civil Society presents a comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills This text is uniquely organized around the theme of civil society What is the nature of a civil society Why is it important that will engage students and help make the material relevant Major thinkers discussed in the text are explored not only with the goal of understanding their views but also with an interest in understanding the relationship of their ideas to the notion of a civil society New to this edition Visual aids and pedagogy New

chapter on black political theory and civil society including a discussion of protest and BlackLivesMatter in political theory Expanded discussions of feminism and the LGBTQ movement as well as an additional discussion of the MeToo movement from the perspective of its theoretical foundation and its implications for feminist theory Revised chapter on multiculturalism including an expanded discussion of religion neoliberalism globalization and global environmental issues This authoritative text written by two leading theorists and experienced lecturers is essential reading for all students of political theory and philosophy Teaching Political Theory Tampio, Nicholas, 2022-09-15 Political theory deals with profound questions about human nature political principles and the limits of knowledge In Teaching Political Theory Nicholas Tampio shows how political theorists may take a pluralistic approach to help students investigate the deepest levels of political life

Deparochializing Political Theory Melissa S. Williams, 2020-04-02 In a world no longer centered on the West what should political theory become Although Western intellectual traditions continue to dominate academic journals and course syllabi in political theory up and coming contributions of comparative political theory are rapidly transforming the field Deparochializing Political Theory creates a space for conversation amongst leading scholars who differ widely in their approaches to political theory These scholars converge on the belief that we bear a collective responsibility to engage and support the transformation of political theory In these exchanges deparochializing political theory emerges as an intellectual educational and political practice that cuts across methodological approaches Because it is also an intergenerational project this book presses us to re imagine our teaching and curriculum design Bearing the marks of its beginnings in East Asia Deparochializing Political Theory seeks to de center Western thought and explore the evolving tasks of political theory in an age of global modernity **The Social Contract in the Ruins** Paul R. DeHart, 2024-07-08 Most scholars who write on social contract and classical natural law perceive an irreconcilable tension between them Social contract theory is widely considered the political theoretic concomitant of modern philosophy Against the regnant view The Social Contract in the Ruins argues that all attempts to ground political authority and obligation in agreement alone are logically self defeating Political authority and obligation require an antecedent moral ground But this moral ground cannot be constructed by human agreement or created by sheer will human or divine All accounts of morality as constructed or made collapse into self referential incoherence Only an uncreated real good can coherently ground political authority and obligation or the proposition that rightful government depends on the consent of the governed Government by consent requires classical natural law for its very coherence **Readings in Chinese Women's Philosophical and Feminist Thought** Ann A.

A Sourcebook in Classical Confucian Philosophy Roger T. Ames, 2023-09-01 Roger T Ames's A Sourcebook in Classical Confucian Philosophy is a companion volume to his Conceptual Lexicon for Classical Confucian Philosophy It includes texts in the original classical Chinese along with their translations allowing experts and novices alike to make whatever comparisons they choose In applying a method of comparative cultural hermeneutics Ames has tried to let the tradition speak on its own terms The goal is to encourage readers to move between the translated text and commentary the philosophical introduction that attempts to sensitize them to the interpretative context and the companion Lexicon of key philosophical terms with the expectation that in the fullness of time they will be able to appropriate the original Chinese terminologies themselves Armed with their own increasingly robust insight into these philosophical terms readers will be able to carry this nuanced understanding over into their critical reading of other available translations Ultimately for students who would understand Chinese philosophy tian must be understood as tian and dao must be dao

Classical Readings on Culture and Civilization Stephen Mennell, 2017-10-03 In recent times especially under the influence of postmodernism culture has often been construed as a critique of modernity This wide ranging and comprehensive collection of readings shows that such issues have always been at the centre of thought about the relationship between culture and civilization The readings are divided into three sections linking the civilization debate to political theory to the cultural debate and to the sociology and anthropology The substantial extracts included give students a rare chance to engage at length with classic texts to appreciate the nature of the battle between the Enlightenment and its critics which has shaped current thought Classical Readings on Culture and Civilisation presents essays from Immanuel Kant Adam Ferguson Thomas Jefferson Alexis de Tocqueville Friedrich von Schiller Friedrich Nietzsche Georg Simmel Thomas Mann Sigmund Freud Emile Durkheim Marcel Mauss Lucien Febvre Alfred Weber Robert E Park and Norbert Elias
