

READY-TO-USE MUSIC ACTIVITIES KIT

Audrey J. Adair

This unique teaching resource provides an unparalleled collection of ready-to-use student worksheet activities to enliven, enrich and reinforce the learning of basic music skills and concepts.

Organized for easy use into 14 distinct sections covering all areas of the elementary music curriculum, the KIT includes 204 full-page activities in a variety of stimulating formats.

Each worksheet activity has been tested successfully with children of varying ages and abilities. Each focuses on one major music skill. Each is illustrated, easy to follow, and easy to read. And each is designed to be completed within a single class period.

Better still, all 204 activities are individually printed in a handy 8 1/2" x 11" spiral-bound format and ready to be copied by machine as many times as you need for use with individual students, small groups, or your entire class!

To help you select appropriate activities for the particular student or group, the activities within each section are sequenced in order of difficulty, with later activities extending previously taught concepts.

And a **TEACHER'S GUIDE AND ANSWER KEY** at the end of each section provides complete answers for the activities in that section plus useful background information and teaching suggestions for getting the most out of certain activities.

The KIT also includes a convenient **PROGRESS CHART** to help you keep a record of the activities completed by individual children or classes and to monitor students' progress.

For the elementary music specialist and the classroom teacher in charge of her or his own music program, the **READY-TO-USE MUSIC ACTIVITIES KIT** offers a year-round source of exciting, ready-to-use materials to promote children's total involvement in music and their mastery of fundamental music skills.

About the Author

Audrey J. Adair has taught music education for more than 13 years in the public schools of Houston, Texas, and Miami, Florida. Her teaching experience covers both elementary and secondary levels and includes working as music consultant, music specialist, general music instructor, choir director and classroom teacher.

Mrs. Adair developed the Ready-to-Use Music Activities Kit to meet an instructional need. Starting her career, teaching in several schools with up to 12 classes a day, she found that meaningful supplementary materials were necessary with her demanding schedule. Again, in inner city teaching, something more than the basic music book was needed to stimulate interest. While teaching in a pod school, individual instruction was necessary for the development of basic skills. When teaching gifted children, enrichment activities were necessary, and when special students were mainstreamed, their needs had to be considered. All of these experiences contributed to the materials in the Kit.
