## **Real Baptism Religious Ritual Or Spiritual Reality:**

**Deconstructing Sacramental Theology and Reconstructing Catholic Ritual** Joseph Martos, 2015-05-12 Catholic sacramental doctrine has lost much of its credibility Baptized people leave the church adolescents stop attending shortly after they are confirmed supposedly indissoluble marriages regularly dissolve few go to confession and many do not believe in transubstantiation Drawing upon his decades long study of the sacraments Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose and why seemingly eternal truths are actually historically relative After carefully constructing Catholic teaching from the church's own documents he deconstructs it by demonstrating how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent which continues to dominate Catholic thinking about the church's religious ceremonies If the sacraments are released from their dogmatic baggage Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites **The Impact of Bodily**

**Experience on Paul's Resurrection Theology** Kai-Hsuan Chang, 2021-09-23 Kai Hsuan Chang engages with the longstanding scholarly debate concerning the development of Paul's resurrection theology by investigating the correlation between his bodily experiences and his diverse articulations about resurrection Drawing on insights from cognitive linguistics Chang considers Paul's ideas about resurrection as fundamentally grounded in recurrent patterns of bodily experience arguing that such experience of some religious activities in Paul's time death rites spirit possession and baptism contributed to the formation and development of his resurrection theology Chang demonstrates that developments in Paul's ideas about bodily transformation at resurrection reflected in 1 Corinthians 15 resulted from a change in the experiential patterns on which his new idea is constructed rather than transformation during heavenly ascent as seen in Jewish traditions of resurrection He thus applies cognitive linguistic tools to two considerations first whether Paul had contextual reasons to generate his innovation in 1 Corinthians 15 and second whether Paul's innovation recurred or had continual effects in Christian groups In so doing Chang shows that Paul's innovation directly addressed a contextual issue of death rites in Corinth and exerted a continuing effect on Paul's later ideas of transformation spirit possession and baptism **Ritual and**

**Christian Worship** Jeffrey A. Truscott, 2023-01-05 What exactly is ritual and why is it inherently a part of Christian public worship Could we worship without ritual Does the Christian tradition offer us any perspectives on ritual These are the questions explored in this book whose purpose is to serve as a user's guide to ritual for leaders and planners of Christian worship With the help of various perspectives the life sciences the Bible and Reformation theologians it seeks to explain ritual objectively winsomely and sympathetically Written by a scholar with many years of experience in teaching liturgics this book will help readers to appreciate ritual and become comfortable with themselves as participants in ritual **Honest**

**Rituals, Honest Sacraments** Joseph Martos, 2017-12-28 Honest rituals are ceremonial actions that celebrate what is actually happening in people's lives Religious rituals however often celebrate beliefs and doctrines e.g. the birth of Christ God's forgiveness of sins or the gifts of the Holy Spirit that have little to do with people's experience Martos argues that early Christian rituals were grounded in experiences such as conversion community commitment and self giving Lacking a vocabulary to name such experiences the authors of the New Testament and other early documents resorted to metaphors such as baptism into Christ receiving the Holy Spirit forgiveness by God and the presence of Christ during worship By the fourth century however those metaphors were taken to be unexperienced metaphysical realities rather than experienced realities The medieval schoolmen developed philosophical explanations of what went on in church rituals and the Catholic Church continues to teach that its sacraments are automatically effective despite growing evidence to the contrary What if religious rituals were to regain their original authenticity What if the guiding value in designing church ceremonies was honesty rather than liturgical correctness After liberating the reader from doctrinal constraints Martos invites Catholics into a re-visioning of the traditional sacraments and a reawakening of ritual imagination in non-Western cultures *Sick Religion or Healthy Faith?* Ryan Ahlgrim, 2016-05-10 Is it time to get rid of religion Not so fast says Ryan Ahlgrim It's time for us to define and demand healthy faith Despite the dysfunction and divisiveness seen too often in religion we continue to need a community of love and we yearn for a transcendent encounter that can heal us So instead of abandoning religion Ahlgrim outlines twelve characteristics of a healthy religious community and describes what a healthy Christian community of faith believes and practices Along the way he reveals the power of story the genius of Jesus and the path to wholeness In the end we are faced with the most daring and fulfilling choice of all to embrace a community of love that trusts in God

**Debunking Voltaire: A Christian Critique** Advanced Apologetics Research, Voltaire's ideas were profoundly shaped by Enlightenment thinkers including those who championed Deism a belief in a distant uninvolved creator However the cognitive biases that Voltaire displayed such as his predisposition to favor secularism and his antagonism towards organized religion led him to overlook the moral and existential truths that Christianity provides Through critical examination we will highlight these cognitive biases and the logical errors in his philosophical system For instance one major logical flaw in Voltaire's reasoning is his simplistic association of religious belief with the abuses of religious institutions By conflating institutional corruption with the essence of Christian teaching Voltaire erected a straw man that is easily dismantled Similarly Voltaire's hermeneutic approach his interpretation of sacred texts reveals numerous errors He often misrepresented or misunderstood biblical passages failing to grasp the historical and theological context within which they were written Furthermore Voltaire's understanding of science though ahead of his time in some respects was incomplete His critique of miracles for example rested on a narrow view of natural laws that contemporary science has since expanded Voltaire's critiques of Christianity in light of science often relied on outdated or superficial scientific concepts which we will
