Wiki Management Rod Collins, 2013-11-01 This groundbreaking book reveals what it takes for managers of any generation to succeed in this fast paced and exciting new environment Command

and control may have once been an effective model in managing the large numbers of cookie cutter clones that business programs were producing faster than anyone could say MBA but the rapid change and increasing complexity of the twenty first century have rendered that model obsolete For the most part today s managers who were trained in the old ways are not adept to succeed in the current work environment that has evolved from take it or leave it hierarchies to collaborative networks of workers and managers feeding off each other s ideas to build the business together The new age of mass collaboration demands a new and extremely different model to manage by today wiki management Featuring enlightening examples from forward thinking companies including Google Whole Foods Linux and Wikipedia Wiki Management outlines the revolutionary necessary steps companies must take to Leverage their collective intelligence Effectively integrate diverse points of view Transition leaders from the role of boss to that of facilitator Make delighting customers more important than pleasing superiors Achieve a shared and actionable understanding of the key drivers of business success It s a different world today than the one you were educated in trained in and found great success in This wiki world has reshaped both the work we do and the way we do it making mass collaboration not only possible but usually the best solution *Creating Valuable Business Strategies* Shiv Mathur, Alfred Kenyon, 2008-09-10 Creating Valuable Business Strategies will change existing mindsets about strategy Here is an answer for the strategist who asks What should I do differently next Monday morning The object of strategy is to create financial value and the offering centred approach of Creating Valuable Business Strategies provides a novel and pragmatic framework for setting strategic direction choosing which markets to contest and how This book Identifies the individual offering as the fundamental unit of strategy the choices that customers make regarding individual offerings are at the root of a company s financial success Provides an innovative and comprehensive approach to profitable business strategy designing each offering and also the collection as a whole Explains that strategy is a task for all businesses with offerings even the smallest not just the giants The book first sets the scene and makes the case that each value adding offering needs a competitive strategy it must have a winning competitive position and use one or more winning resources It provides the reader with a rich classification of how an offering can be competitively positioned vis vis rival offerings and customers Winning resources and why offerings need them is discussed next Corporate strategy i e the managing of the company s whole collection of offerings is then examined This is followed by a discussion of the implications for organizing and structuring for an offering centred approach to strategy Finally all the aspects of this new framework that may meet with resistance are explored Creating Valuable Business Strategies is essential reading for anyone who is involved in designing tomorrow s offerings from the backroom specialist to the CEO It has a clear logical presentation with a focus on practical implementation **Natural Born Manager** ,
