Real Log Cabin:

The Real Log Cabin Chilson Darragh Aldrich, 1928 **How to Build A Log Cabin** Becky's Homestead, 2011-01-01
Everyone who watches Becky's Homestead knows I built my log cabin kit all by myself and I love love love my cabin. The question I get the most from my viewers is: Who did you buy your log cabin kit from and what do I need to know before I buy my own log cabin kit? That's why I want to help people figure it out with my simple little book *How To Build A Log Cabin*. I wrote this book to be a Soup to Nuts Buyers Guide for anyone who wants to build a log cabin. Before you go out and buy your log package, see if you can answer these questions: What's the difference between stamped and non-stamped blueprints? Do the doors and windows come with the kit? What keeps the logs from warping and bending? How much does a kit really cost after you add on the extras? Can I assemble my kit myself or should I hire a contractor? What's the difference between a log cabin and a log home? What are the pros and cons of log cabins compared to a normal house? What kind of wood makes the best logs? How do I get water, electricity, and sewer connected to my cabin? And How do I get a permit for building a log cabin kit? If you don't know the answers to these questions, you'll be at a disadvantage when you're dealing with the log cabin kit companies. That's why my book answers all those questions and more. Now let me tell you there are a lot of things the log cabin sales people don't tell you, and if you walk in there unprepared, you might be sorry. *How To Build A Log Cabin* is a buyers guide for anyone who dreams of successfully building their own cabin like I did. My book will save you time, money, and frustration.
