Jewish Resistance Against the Nazis Patrick Henry, 2014-04-20 This volume puts to rest the myth that the Jews went passively to the slaughter like sheep Indeed Jews resisted in every Nazi occupied country in the forests the ghettos and the concentration camps The essays presented here consider Jewish resistance to be resistance by Jewish persons in specifically

Jewish groups or by Jewish persons working within non Jewish organizations Resistance could be armed revolt flight the rescue of targeted individuals by concealment in non Jewish homes farms and institutions or by the smuggling of Jews into countries where Jews were not objects of Nazi persecution Other forms of resistance include every act that Jewish people carried out to fight against the dehumanizing agenda of the Nazis acts such as smuggling food clothing and medicine into the ghettos putting on plays reading poetry organizing orchestras and art exhibits forming schools leaving diaries and praying These attempts to remain physically intellectually culturally morally and theologically alive constituted resistance to Nazi oppression which was designed to demolish individuals destroy their soul and obliterate their desire to live

Long Night's Journey into Day Alice L. Eckardt, A. Roy Eckardt, Irving Greenberg, Franklin H. Littell, 2016-11-08 Long Night's Journey Into Day is a stimulating and provocative attempt to deal with the impact and meaning of the Holocaust within contemporary Christian and Jewish thought To Jews the Holocaust is the most terrible happening in their history but it must also be seen as a Christian event The Eckardts call for a radical rethinking of the Christian faith in the light of the Holocaust examining such issues as the relation between human and demonic culpability the charge of God's guilt and the reality of forgiveness They clarify the theological meaning of the Holocaust and the responsibility that must be borne for it by the Christian Church and discuss possible responses to it as exemplified in the writings of selected modern theologians and church councils This enlarged and revised edition takes into account new topics and developments including the issue of Austrian responsibility for the Holocaust the significance and aftermath of Bitburg and antisemitism in German feminism More detailed attention is also given to other modern genocides and occasions of humanly caused mass death Additional literary historical and religious works are considered and appropriate quotations incorporated The new edition also includes a revised preface an updated bibliography and two new appendices

Holocaust Heroes Mark Felton, 2016-09-19 This inspiring book examines the often incredible and nearly always tragic examples of Jewish resistance in ghettos and concentration camps during the Nazis Final Solution It shows that the Warsaw Uprising in Poland during April to May 1944 was not the only occasion of defiant opposition Throughout the Nazis extermination programme Jews and other prisoners fought back against their murderers often with stunning results The Germans were

nearly always taken by surprise by the sudden emergence of armed Jewish resistance and often paid dearly. This happened in ghettos and concentration camps including Treblinka, Auschwitz, Syreles and Sobibor throughout Poland and the Ukraine. Some Jews tried to stop the machinery of the Holocaust by rising up and destroying the gas chambers while others bravely tried to take over an extermination camp and escape en masse. In virtually every case the brave men and women who volunteered to fight back paid with their lives. Importantly, these men and women are not just portrayed as victims but also as brave and resourceful fighters and resisters against their tragic fate. These are stories that are uplifting, inspiring and often profoundly moving.

Sobibor Death Camp Chris Webb, 2017-04-25. The Sobibor Death Camp was the second extermination camp built by the Nazis as part of the secretive Operation Reinhardt with intent to carry out the mass murder of Polish Jewry. Following the construction of the extermination camp at Belzec in south eastern Poland from November 1941 to March 1942, the Nazis planned a second extermination camp at Sobibor and the third and deadliest camp was built near the remote village of Treblinka. Sobibor was similarly designed as the first camp in Belzec; it was regarded as an overflow camp for Belzec. This account of the Nazis' remorseless and relentless production line of killing at the Sobibor death camp tells of one of the worst crimes in the history of mankind. Chris Webb's painstakingly researched volume ranges from the survivors and the victims to the SS men who carried out the atrocities. What makes this work special is the research which has been gathered on the survivors who, by good fortune, courage and determination, survived Sobibor and built new lives for themselves, new families, but bore the scars of this terrible place for all of their lives. Webb focuses on the victims and presents details of their lives which have been found and retells them to keep their memory alive to show they are not forgotten. The cruel and barbaric murder process is described in great detail, as well as the confiscation of the valuables and possessions of the unfortunate Jews who crossed the threshold of this man-made hell. One cannot fail to be moved by the personal accounts of those who survived; their loved ones perished in this factory of death. The book covers the construction of the death camp, the physical layout of the camp as remembered by both the Jewish inmates and the SS staff who served there, and the personal recollections that detail the day-to-day experiences of the prisoners and the SS. The courageous revolt by the prisoners on October 14, 1943, is retold by the prisoners and the German SS with detailed accounts of the revolt and its aftermath. The post-war fate of the perpetrators or, more precisely, those that were brought to trial and information regarding the more recent history of the site itself, concludes this book. There is a large photographic section of rare and some unpublished photographs and documents from the author's private archive.

The Holocaust and Historical Methodology Dan Stone, 2012. This book is timely and necessary and often extremely challenging. It brings together an impressive cast of scholars spanning several academic generations. Anyone interested in writing about the Holocaust should read this book and consider the implications of what is written here for their own work. There seems to me little doubt that Holocaust history writing stands at something of a crossroads and the ways forward that this volume points to are extremely
