Ritual Passages And Narrative Structures:

Ritual Passages and Narrative Structures Langdon Elsbree, 1991 This book explores the homology between ritual passages and narrative structures The ways that rites of passage particularly their liminal stage correspond with narrative structures and the advantages of these correspondences for literary criticism and analysis are the central arguments of this study Drawing on a wide range of examples mainly from 19th and 20th Century English and American literature it concentrates on the middle stage of liminality where the identity themes the implications of choice and the values in conflict emerge most clearly Drawing on recent work in anthropology and the other social sciences it suggests new perspectives for understanding the relationships between rite and story and between art and life **Ritual and Narrative** Vera Nünning, Jan Rupp, Gregor Ahn, 2014-03-15 Ritual and narrative are pivotal means of human meaning making and of ordering experience but the close interrelationship between them has not as yet been given the attention it deserves How can models and categories from narrative theory benefit the study of ritual and what can we gain from concepts of ritual studies in analysing narrative This book brings together a wide range of disciplinary perspectives including literary studies archaeology biblical and religious studies and political science It presents theoretical explorations as well as in depth case studies of ritual and narrative in different media and historical contexts *Ritual Words and Narrative Worlds in the Book of Leviticus* Bryan D. Bibb, 2009-01-01 This book argues that literary features and ritual dynamics within the book of Leviticus enlighten each other The first two chapters establish that one may read Leviticus as a coherent literary work and define the genre of Leviticus as narrativized ritual a complex blending of descriptive narrative and prescriptive ritual In conversation with Catherine Bell they present several aspects of the text that are ritualized and show how this ritualization implies a negotiation of power relations among participants The third and fourth chapters examine the first half of Leviticus both the legal sections in Lev 17 and 11-15 and the narratives in Lev 8-10 and 16 These sections alternate between establishing the ritual system and exposing gaps and ambiguities in that system Chapter 5 turns to the second half of Leviticus traditionally called the Holiness Code The ritual language found in this section is less formal and precise mirroring the way in which the concept of holiness is expanded and extended to the whole people As this material concludes the book it relativizes and democratizes the strict ritual system contained in the first half *Ritual, Family and Therapy in Anglophone Literatures* Lars Heiler, 2025-03-10 This book investigates the triadic constellations between ritual family and therapy in literature in English Many rituals so called rites of passage in particular are strongly associated with the changing status of individuals as members of a family unit Traditional healing rituals were often designed to have a therapeutic effect sometimes mentally but also physically whereas modern psychotherapies often include ritual elements in order to enhance the efficacy of their treatment Families on the other hand can be the site of therapeutic activity by providing protection stability and emotional comfort yet difficult family constellations may also be the origin of emotional distress and the reason why a person needs counselling and

therapeutic support in the first place Modern therapies such as family systems therapy have expanded their range of interest and influence in order to look at the whole family unit not just the symptomatic individual as client This study discusses nine literary texts six novels one literary memoir and two plays in which the three dimensions intersect and mutually influence each other Handbook of Narratology Peter Hühn, Jan Christoph Meister, John Pier, Wolf Schmid, 2014-10-10 This handbook provides a systematic overview of the present state of international research in narratology and is now available in a second completely revised and expanded edition Detailed individual studies by internationally renowned narratologists elucidate central terms of narratology present a critical account of the major research positions and their historical development and indicate directions for future research *Rites of Passage: Rational/Irrational Natural/Supernatural Local/Global* Associazione italiana di anglistica. Congresso, 2003 The Craft of Ritual Studies Ronald L. Grimes, 2014 Readership Students and scholars of ritual studies religious studies anthropology *Making Men* Stephen Wilson, 2015-11-02 Making Men identifies and elaborates on a theme in the Hebrew Bible that has largely gone unnoticed by scholars the transition of a male adolescent from boyhood to manhood Wilson locates five examples of the male coming of age theme in the Hebrew Bible The protagonists of these stories include the well known biblical heroes Moses Samuel David and Solomon He also reveals the existence of a narrative theme of failing to mature to manhood exemplified in the tales of Samson and Gideon s son Jether Beyond identifying the coming of age theme Wilson describes how the theme is employed by biblical narrators and redactors to highlight broader messages and transitions in the historical narratives of the Hebrew Bible He additionally considers how these stories provide unique insight into the varying representations of biblical masculinity and how the ideals associated with manhood can change dramatically over time *Rites of Passage, Liminality, and Community in Octavia E. Butler's Science Fiction Novels* Lin Knutson, 2023-03-06 Rites of Passage Liminality and Community in Octavia E Butler s Science Fiction Novels explores the ways in which Octavia Butler s liminal protagonists undergo ritualized transformations while in exile from their home communities During this process they engage in psychological physical political and social transitions through what Victor Turner and Mikhail Bakhtin describe as carnivalesque identities Using postcolonial feminist anti capitalist and African American theorists Lin Knutson examines how Butler s imagined genesis and history carry echoes of American history slave history debt slavery and colonization Coming of Age the RITE Way David G. Blumenkrantz, 2016 A unique blend of scholarship and practice makes this book a compelling read detailing how rites of passage are used to link all education and youth development approaches Eloquently crafted narratives integrating fifty years of practice provide readers with a new paradigm for youth and community development that will stimulate their imagination and impact their own practice **Initiation in Ancient Greek Rituals and Narratives** David Dodd, Christopher A. Faraone, 2013-09-05 Scholars of classical history and literature have for more than a century accepted initiation as a tool for understanding a variety of obscure rituals and myths ranging from the ancient Greek wedding and adolescent haircutting rituals to initiatory

motifs or structures in Greek myth comedy and tragedy In this books an international group of experts including Gloria Ferrari Fritz Graf and Bruce Lincoln critique many of these past studies and challenge strongly the tradition of privileging the concept of initiation as a tool for studying social performances and literary texts in which changes in status or group membership occur in unusual ways These new modes of research mark an important turning point in the modern study of the religion and myths of ancient Greece and Rome making this a valuable collection across a number of classical subjects

Transjordanian Palimpsest Jeremy Michael Hutton, 2009 This study analyzes several passages in the Former Prophets 2 Sam 19 12 44 2 Kgs 2 1 18 Judg 8 4 28 from a literary perspective and argues that the text presents Transjordan as liminal in Israel's history a place from which Israel's leaders return with inaugurated or renewed authority It then traces the redactional development of Samuel Kings that led to this literary symbolism and proposes a hypothesis of continual updating and combination of texts beginning early in Israel's monarchy and continuing until the final formation of the Deuteronomistic History Several source documents may be isolated including three narratives of Saul's rise two distinct histories of David's rise and a court history that was subsequently revised with pro Solomonic additions These texts had been combined already in a Prophetic Record during the 9th c B C E with A F Campbell which was received as an integrated unit by the Deuteronomistic Historian The symbolic geography of the Jordan River and Transjordan which even extends into the New Testament was therefore not the product of a deliberate theological formulation but rather the accidental by product of the contingency of textual redaction that had as its main goal the historical presentation of Israel's life in the land
