Relations T. V. Paul, Deborah Welch Larson, Harold A. Trinkunas, Anders Wivel, Ralf Emmers, 2021-08-05 The discipline of international relations offers much insight into why violent power transitions occur yet there have been few substantive examinations of why and how peaceful changes happen in world politics This work is the first comprehensive treatment of that subject The Oxford Handbook of Peaceful Change in International Relations provides a thorough examination of research on the problem of change in the international arena and the reasons why change happens peacefully at times and at others violently It contains over forty chapters which examine the historical theoretical global regional and national foreign policy dimensions of peaceful change As the world enters a new round of power transition conflict involving a rapidly rising China and a relatively declining United States this Handbook provides a necessary resource for decisionmakers and scholars engaged in this vital area of research

Ritual and the Moral Life David Solomon, Ruiping Fan, Ping-cheung Lo, 2012-03-26 In the twentieth century in both China and the West ritual became marginalized in the face of the growth of secularism and individualism In China Confucianism and its essentially ritualistic comportment to the world were vigorously suppressed during the Cultural Revolution 1966-1976 under Mao Zedong But de-ritualization already took place as a result of the Chinese Revolution of 1911 under Sun Yat Sen In the West while the process of de-ritualization has been generally more gradual it has been nonetheless drastic In contrast to this situation this volume investigates the crucial role ritual plays in constituting the human understanding of their place in the cosmos the purpose of their lives and imbues human existence with a more complete sense of meaningfulness This volume presents the work of philosophers from both China and the West as they reflect upon the constitutive role that ritual plays in human life They reflect not only on ritual in general but also on specific Confucian and Christian appreciations of ritual This provocative volume is a beacon of warning to Western philosophers who think they have graduated from the trappings of ritual and a beacon of hope for Eastern thinkers who wish to avoid cultural fragmentation The Editors both Eastern and Western have together created a seamless work that not only

introduces ritual but advances an argument for the contribution that ritual makes to cultural renewal This volume is a work of philosophical thinking about ritual doing but challenges those who think to realize that the salvation of philosophical thinking rests in the particularity and contingency of ritual doing Let us hope this volume is widely read for it points to that which might renew the West Jeffrey P Bishop Saint Louis University
