The Car Show Nicolae Sfetcu, 2014-04-27 This e-book details the most interesting and important characteristics of the automobile: car maintenance, styling, features, car body style, the standard classification of the cars, an history of the automobile's introduction in the automotive industry and the traffic code rules and signs. An automobile, usually called a car, an old word for carriage or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with motor referring to what is now usually called the engine. It has seats for the driver and almost without exception for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006, the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.
