The Respectability of Late Victorian Workers Charles Walter Masters, 2010-09-13 This study of the working classes of York in the late Victorian period places respectability at the heart of the interpretation of working class culture drawing attention to its distinctive role within working class daily life while eschewing a class based analysis Through an investigation of workers actions choice making and personal testimony and using a wide range of textual and non textual sources a picture is produced of what it meant to be respectable in working class communities and respectability s role in personal and community identity formation Not only is the importance of gender based notions of the male breadwinner and female

homemaker explored but fresh light is cast on how respectability was engaged with and negotiated in everyday contexts Respectability is shown to be a dynamic and culturally creative process with workers building their identities within the confines of structural constraints including street and neighbourhood based mores and institutions but with a measure of self generated cultural social and organisational space Far from respectability being a function of socio economic differentiation even the poorest are shown to have aspired to join self help organisations and become worthy citizens Crucially working class respectability is shown to have been moral and Christian in character underpinned by a form of diffusive Christianity that was robust and vital rather than some kind of legacy cultural and religious phenomenon Although different attributes of respectability could be prioritised within working class circles respectability is seen as a distinctive and essentially pan class culture centred on a set of universal values which distinguished and defined the respectable citizen and separated him from imagined or real rough Others This study will appeal to readers interested in social and cultural history gender studies and material culture York inhabitants are given their own voice through hitherto unpublished as well as published oral and written testimony Worker and family attitudes are analysed in the everyday contexts of work home neighbourhood and leisure and as part of the wide ranging discussion attention is paid to the cultural significance of what working people ate and wore and what goods they bought to furnish their often very modest homes The emphasis throughout is on a grass roots analysis showing clearly how and why respectability answered the needs and aspirations of most ordinary Victorian and Edwardian workers and their families

Respectability James Blyth, 1913 **President Garfield** CW Goodyear, 2023-07-04 An ambitious thorough supremely researched The Washington Post biography of the extraordinary tragic life of America s twentieth president James Garfield In the most comprehensive Garfield biography in almost fifty years The Wall Street Journal C W Goodyear charts the life and times of one of the most remarkable Americans ever to win the Presidency Progressive firebrand and conservative compromiser Union war hero and founder of the first Department of Education Supreme Court attorney and abolitionist preacher mathematician and canalman crooked election fixed and clean government champion Congressional chieftain and gentleman farmer the last president to be born in a log cabin the second to be assassinated James Abram Garfield was all these things and more Over nearly two decades in Congress during a polarized era Reconstruction and the Gilded Age Garfield served as a peacemaker in a Republican Party and America defined by divisions He was elected to overcome them He was killed while trying to do so President Garfield is American history at its finest It is about an impoverished boy working his way from the frontier to the Presidency a progressive statesman trying to raise a more righteous peaceful Republic out of the ashes of civil war the tragically imperfect course of that reformation and

the man himself a martyr President whose death succeeded in nudging the country back to cleaner calmer politics

The Bronfmans Nicholas Faith,2024-03-26 For decades the Bronfman family ruled Seagram s and the liquor industry This is the story of their meteoric rise and spectacular fall The story of the Bronfman family is a fascinating and improbable saga It is dominated by Mr Sam the single greatest figure in the history of the liquor business the man who made drinking whiskey respectable in the United States and who in the 1950s and 1960s built Seagram into the first worldwide empire in wine and spirits After Sam s death in 1971 his oldest son Edgar maintained the business though he was distracted by his matrimonial problems Nevertheless in the 1980s he masterminded a major coup when he translated a small investment in oil made by his father into a 25 percent stake in the mighty DuPont company But in the 1990s Edgar allowed his second son Edgar Jr to indulge his ambition to become a media tycoon The stake in DuPont was sold and the money reinvested in Universal the film and theme park empire Edgar Jr then paid more than 10 billion to buy Polygram Records and thus fulfill his fancy to be king of the world s music business But at the same time he remained in charge of the liquor business which started to stagnate indeed to fall apart Then came the final disaster when the increasingly divided family sold out to Jean Marie Messier overreaching empire builder of Vivendi the French conglomerate But the story of this amazing family over the past century is about more than booze and business The Bronfmans is a spectacular account that details the larger than life personalities and bitter rivalries that have made the family so famous and sometimes so infamous

American Misfits and the Making of Middle-Class Respectability Robert Wuthnow,2020-08-04 How American respectability has been built by maligning those who don t make the grade How did Americans come to think of themselves as respectable members of the middle class Was it just by earning a decent living Or did it require something more And if it did what can we learn that may still apply The quest for middle class respectability in nineteenth century America is usually described as a process of inculcating positive values such as honesty hard work independence and cultural refinement But clergy educators and community leaders also defined respectability negatively by maligning individuals and groups misfits who deviated from accepted norms Robert Wuthnow argues that respectability is constructed by othering people who do not fit into easily recognizable socially approved categories He demonstrates this through an in depth examination of a wide variety of individuals and groups that became objects of derision We meet a disabled Civil War veteran who worked as a huckster on the edges of the frontier the wife of a lunatic who raised her family while her husband was institutionalized an immigrant religious community accused of sedition and a wealthy scion charged with profiteering Unlike respected Americans who marched confidently toward worldly and heavenly success such misfits were usually ignored in paeans about the nation But they played an important part in the

cultural work that made America and their story is essential for understanding the othering that remains so much a part of American culture and politics today

Flores, 2023-03-07 The Wesleyan Methodist movement entered American history as a fragment of British Methodism It quickly took on a new identity in the early republic and grew into a vibrant denomination in the nineteenth century The transitions from the rugged pioneer religion modeled by Bishop Francis Asbury to the urbane religion of industrial America was by design the goal of influential leaders of the Methodist Episcopal Church Nathan Bangs was perhaps one of the most significant of such leaders He rose from obscurity to the ranks of power and influence by refining patterns of worship expanding denominational publishing and structuring ministerial education This study is concerned with the development of respectability in American Methodism It also explores questions on how Bangs and other leaders dealt with in house conflicts on issues related to race slavery and the poor
