Rawson, 1922 Papua Road Map Muridan S. Widjojo, Adriana Elizabeth, Amirudin Al Rahab, Cahyo Pamungkas, Rosita Dewi, 2010-01-01 The sources of the Papua conflict are grouped into four sets of issues First is the problem of the marginalization of indigenous Papuans and the discriminatory impacts on them resulting from the economic development of political conflicts in and mass migrations to Papua since 1970 To respond to this problem an affirmative policy of recognition must be developed to empower indigenous Papuans The second issue is the failure of development particularly in the fields of education health and people s economic empowerment This requires a new paradigm of development focused on improving public services for the welfare of indigenous Papuans in the villages The third main problem is the contradictions that exist between Papuan and Jakartan constructions of political identity and history This problem can only be settled through dialogue along the lines of the dialogue that was conducted for Aceh The fourth issue is accountability for past state violence toward Indonesian citizens in Papua For this a road to reconciliation

must be cleared on which courts of human rights and the disclosure of the truth are the means of choice for law and justice to be upheld in Papua for the victims and their families in particular and all Indonesian citizens of Papua in general The above four issues and agendas can be woven together to form a mutually interrelated policy strategy for comprehensive long term resolution of the Papuan conflict The atmosphere of Reformasi and the existence of the accommodative Law No 21 2001 on Special Autonomy UU Otsus a responsive central government as well as the very large size of Papua s budget lead the LIPI team to have faith that the problems of Papua can be resolved with justice peace and dignity

Roadmap to a Brighter Future Paul A. Laudicina,2021-09-14 A Wall Street Journal and Publishers Weekly bestseller America s best days should still lie ahead Here s the realistic and definitive path to get us there The future doesn t just happen It s a choice that we can and must help determine But as our deeply divided nation reels from converging crises and seemingly intractable discord where do we begin when the stakes are unfathomably high With multiple possible futures before us Americans need to understand the specific consequences of our immediate choices seize the opportunity to

renew the nation's promise and set the stage to benefit current and future generations. If we chart our course correctly we can emerge from our current troubles with a brighter future in reach of all Americans. Based on decades of expertise in envisioning and articulating policy options, Paul Laudicina lays out four vastly different visions for America's future. In *Roadmap to a Brighter Future*, he outlines why the best version of America will only come about if the correct actions are taken now and outlines the ten steps needed to decisively tackle our most pervasive problems and address critical priorities. Laudicina, who led one of the world's most respected management consultancies and has worked as a longtime senior advisor to Joe Biden, also integrates the uncensored views and fresh ideas of dozens of the world's leading thinkers, CEOs, scientists, government leaders, and innovators to show why optimism about the United States is not only warranted but crucial.

A *Roadmap for Understanding African Politics* Victor Oguejiofor Okafor, 2013-09-13 This book examines the impact of post colonial leadership on political integration in Nigeria, offering an in depth understanding of the historical and contemporary forces that shape Nigeria's national politics as well as African politics generally. Okafor discusses how Nigeria's pre colonial and colonial political histories along with contemporary external forces like neo colonialism as well as internal social economic and political structures and developments have affected emerging post independence politics in the country. The study climaxes with an Africa centered theory of political and integrative leadership and then uses it as a prism for analyzing six Nigerian post independence political leaderships encompassing Nigeria's First and Second Republics along with their military interregna. The concluding chapter includes a discussion of the implications of the study for leadership and political integration in Africa in general.
