The Politics and Economics of Decolonization in Africa Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material *The Politics and Economics of Decolonization* offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of

British Propaganda and Wars of Empire Christopher Tuck, 2016-04-15 Influence is a slippery concept yet one of tremendous relevance for those wishing to understand global politics From debates on the changing sources of power in the international system through to analyses of its value as an alternative to the active use of force as a policy instrument influence has become a recurrent theme in discussions of international relations and foreign policy In order to provide a better understanding of the multifaceted and shifting nature of influence this volume looks at how the British government employed various forms of pressure and persuasion to achieve its goals across the twentieth century By focusing on Britain a global actor with great power objectives but declining physical means the collection provides a wide range of case studies to assess how influence was brought to bear on a wide array of non western cultures and societies It furthermore allows for an assessment of just how effective or ineffective British efforts were at influencing non Western targets over a hundred years of operations By shedding important light on the efficacy of British efforts to sustain and advance its interests in the twentieth century the volume will be of interest not only to historians but to anyone interested in contemporary problems surrounding the operation of influence as a foreign policy tool
