Roadside America:

Remembering Roadside America John A. Jakle, Keith A. Sculle, 2011-09-30 The use of cars and trucks over the past century has remade American geography pushing big cities ever outward toward suburbanization spurring the growth of some small towns while hastening the decline of others and spawning a new kind of commercial landscape marked by gas stations drive in restaurants motels tourist attractions and countless other retail entities that express our national love affair with the open road By its very nature this landscape is ever changing indeed ephemeral What is new quickly becomes old and is soon forgotten In this absorbing book John Jakle and Keith Sculle ponder how Roadside America might be remembered especially since so little physical evidence of its earliest years survives In straightforward and lively prose supplemented by copious illustrations historic and modern photographs advertising postcards cartoons roadmaps they survey the ways in which automobility has transformed life in the United States Asking how we might best commemorate and preserve this part of our past which has been so vital economically and politically so significant to the cultural aspirations of ordinary Americans yet so often ignored by scholars who dismiss it as kitsch they propose the development of an actual outdoor museum that would treat seriously the themes of our roadside history Certainly museums have been created for frontier pioneering the rise of commercial agriculture and the coming of water and steam powered industrialization and transportation especially the railroad Is now not the time the authors ask for a museum forcefully exploring the automobile's emergence and the changes it has brought to place and landscape Such a museum need not deny the nostalgic appeal of roadsides past but if done properly it could also tell us much about what the authors describe as the most important kind of place yet devised in the American experience John A Jakle is Emeritus Professor of Geography at the University of Illinois Urbana Champaign Keith A Sculle is the former head of research and education at the Illinois Historic Preservation Agency They have coauthored such books as *America's Main Street Hotels Transiency and Community in the Early Automobile Age* *Motoring The Highway Experience in America* *Fast Food Roadside Restaurants in the Automobile Age* and *The Gas Station in America*

Road Trip Richard Longstreth, 2015-04-07 Unseen photographs of the late 60s and early 70s from the American road offer a compelling portrait of a fanciful landscape now all but gone Expectation anticipation discovery each of these is a facet of an American institution the road trip With a focus on vernacular roadside architecture built between 1920 and the late 1960s the golden age of the American road Road Trip is a time capsule a snapshot taken primarily in the early 1970s of an extraordinary era and its roadside buildings restaurants gas stations motels and places of amusement most of which are now long since gone Built in an age of unbridled imagination these structures speak to the fancies of their original owners and builders as much as to the purposes for which they were built a gas station whose pumps are covered by a canopy in the form of a fully realized B 29 bomber a hot dog stand named Frank n Stein whose diners are met by a colossal Frankenstein bearing in one hand a mustard covered dog and in the other a mug of foaming beer With more than 200 previously

unpublished full color photographs of the iconic imagery of the American highway and richly descriptive text Road Trip will delight and engage both the armchair traveler the enthusiast of Americana the architectural enthusiast and all those longing for the romance of the road
