Robert Delavignette On The French Empire:

Robert Delavignette on the French Empire Robert Louis Delavignette, William B. Cohen, Adelle Rosenzweig, 1977-01-01

The French Imperial Nation-State Gary Wilder, 2020-05-08 France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate. *The French Imperial Nation State* focuses on two intersecting movements that redefined imperial politics: colonial humanism led by administrative reformers in West Africa and the Paris-based Negritude project comprising African and Caribbean elites. Gary Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere. He argues that interwar France must be understood as an imperial nation-state, an integrated sociopolitical system that linked a parliamentary republic to an administrative empire. An interdisciplinary study of colonial modernity combining French history, colonial studies, and social theory, *The French Imperial Nation State* will compel readers to revise conventional assumptions about the distinctions between republicanism and racism, metropolitan and colonial societies, and national and transnational processes. **The**

French empire between the wars Martin Thomas, 2017-03-01 By considering the distinctiveness of the interwar years as a discrete period of colonial change, this book addresses several larger issues such as tracing the origins of decolonization, the rise of colonial nationalism, and a reassessment of the impact of interwar colonial rebellions in Africa, Syria, and Indochina. The book also connects French theories of colonial governance to the lived experience of colonial rule in a period scarred by war and economic dislocation. **The Ends of European Colonial Empires** Miguel Bandeira Jerónimo, António

Costa Pinto, 2016-02-16 This volume provides a multidimensional assessment of the diverse ends of the European colonial empires, addressing different geographies, taking into account diverse chronologies of decolonization, and evaluating the specificities of each imperial configuration. Under appreciation: Portuguese, Belgian, French, British, Dutch. **Children of the**

French Empire Owen White, 1999-11-25 This book vividly recreates the lives of the children born of relationships between French men and African women from the time France colonized much of West Africa towards the end of the nineteenth century until independence in 1960. Set within the context of the history of miscegenation in colonial French West Africa, the study focuses upon the lives and identities of the resulting mixed-race or métis population and their struggle to overcome the handicaps they faced in a racially divided society. Owen White has drawn a valuable evaluation of the impact and importance of French racial theories and offers a critical discussion of colonial policies in such areas as citizenship and education, providing original insights into problems of identity in colonial society. *The French empire at War, 1940-1945* Martin

Thomas, 2017-03-01 *The French empire at war* draws on original research in France and Britain to investigate the history of the divided French empire: the Vichy and the Free French empires during the Second World War. What emerges is a fascinating story. While it is clear that both the Vichy and Free French colonial authorities were only rarely masters of their

own destiny during the war preservation of limited imperial control served them both in different ways The Vichy government exploited the empire in an effort to withstand German Italian pressure for concessions in metropolitan France and it was key to its claim to be more than the mouthpiece of a defeated nation For Free France too the empire acquired a political and symbolic importance which far outweighed its material significance to the Gaullist war effort As the war progressed the Vichy empire lost ground to that of the Free French something which has often been attributed to the attraction of the Gaullist mystique and the spirit of resistance in the colonies In this radical new interpretation Thomas argues that it was neither of these The course of the war itself and the initiatives of the major combatant powers played the greatest part in the rise of the Gaullist empire and the demise of Vichy colonial control Britain's Imperial Administrators, 1858-1966 A. Kirk-Greene, 2000-02-24 Britain's famous overseas civil services the Colonial Administrative Service the Indian Civil Service and the Sudan Political Service no longer exist as a major and sought after career for Britain's graduates In this detailed study the history of each service is presented within the framework of the need to administer an expanding empire Close attention is paid to the methods of recruitment and training and to the socio educational background of the overseas administrators as well as to the nature of their work The prestigious incumbents of Government House are revealingly examined The impact of decolonisation on overseas officials and the kinds of second careers which they took up are documented This authoritative narrative history is enlivened by recourse to Service lore and anecdotes

Ivoirien Capitalism John Rapley, 1993 Though studies of capitalism in Africa traditionally focus on the activities of foreign investment in Cote d'Ivoire capitalist development has been largely the work of a domestic class of entrepreneurs

Contesting French West Africa Harry Gamble, 2021-06 Harry Gamble examines the controversies of political and educational reform in French West Africa from the early to mid twentieth century

State and Society in Francophone Africa since Independence Daniel Bach, 2016-07-27 This book presents a series of essays by leading English and French scholars examining the politics economics international relations and defects of the literary scene of France and the former territories of francophone West Africa since 1965 The approach is emphatically a thematic one rather than a country by country analysis

Views from the Margins Kevin J. Callahan, Sarah Ann Curtis, 2008-01-01 These essays explain French identity as a fluid process rather than a category into which French citizens and immigrants are expected to fit They offer examples drawn from an imperial history of France that show the power of the periphery to shape diverse and dynamic modern French identities at its centre

Decolonization in Africa John D. Hargreaves, 2014-07-30 John Hargreaves examines how the British French Belgian Spanish and Portuguese colonies in tropical Africa became independent in the postwar years and in doing so transformed the international landscape African demands for independence and colonial plans for reform central to the story are seen here in the wider context of changing international relationships

Uncertain Dimensions Raymond F. Betts, 1985 Examines the ruling and development of colonies in Africa and Southeast Asia by Great Britain and France during

the period between the world wars Politics in Francophone Africa Victor T. Le Vine, 2004 Explores the elements that have shaped the particular political dynamics of the 14 former French colonies in west and equatorial Africa while allowing them to remain part of a unique francophone sociopolitical community Decentralisation and Community Participation Numvi Gwaibi, 2016-06-13 This book explores how policies of decentralisation and community participation adopted in Cameroon in 1996 have played out on the ground since 2004 These reforms were carried out amid economic crisis structural adjustment and political upheaval At the time popular sentiment was that change on the economic and political fronts was imperative However the ruling elite some of whom had been shuttling around the state apparatus since independence feared that succumbing to popular demands for change was tantamount to political suicide as was the case elsewhere on the continent These elites thwarted opposition demands for a sovereign national conference to discuss constitutional reform The Francophone dominated elite fiercely objected to Anglophone demands for the restoration of the Federal state that was dissolved in 1972 Instead decentralisation was presented as an authentic forum for grassroots autonomy and municipal councils as credible arenas for community participation in local development This study adopts an interdisciplinary approach to unearth the permutations of decentralisation and community participation in Cameroon It explores how local actors have responded to the implementation of state policy of decentralisation Further it documents how local issues observed in Bali in the North West Region and Mbankomo in the Central Region of Cameroon impact and are impacted by national policies and processes **The World Bank Legal Review, Volume 2: Law, Equity and Development** The World Bank, 2006-12-31 The World Bank Legal Review is a publication for policy makers and their advisers attorneys and other professionals engaged in the field of international development It offers a combination of legal scholarship lessons from experience legal developments and recent research on the many ways in which the application of the law and the improvement of justice systems promote poverty reduction economic development and the rule of law In keeping with the theme of the World Development Report 2006 Equity and Development and following the success of the World Bank Group's Legal Forum on Law Equity and Development in December 2005 volume 2 of The World Bank Legal Review focuses on issues of equity and development The volume draws together some of the key ideas of the Legal Forum including articles by many of its distinguished participants and explores the role of equity in the development process highlighting how legal and regulatory frameworks and equitable justice systems can do much to level the playing field in the political economic and sociocultural domains as well as how they can reinforce existing inequalities Consistent with the interdisciplinary nature of this endeavour Law Equity and Development contains work by academics and practitioners in law criminal justice economics human rights social development cultural studies and anthropology **Catalog of Copyright Entries. The Colonial Origins of Modern Social Thought George Steinmetz, 2025-02-25 A new history of French social thought that connects postwar sociology to colonialism and empire In this provocative and original retelling of the history of French social thought George Steinmetz places the history and development of modern French sociology in the context of the French empire after World War II Connecting the rise of all the social sciences with efforts by France and other imperial powers to consolidate control over their crisis ridden colonies Steinmetz argues that colonial research represented a crucial core of the nascent academic discipline of sociology especially between the late 1930s and the 1960s Sociologists who became favored partners of colonial governments were asked to apply their expertise to such social problems as detribalization urbanization poverty and labor migration This colonial orientation permeated all the major subfields of sociological research Steinmetz contends and is at the center of the work of four influential scholars Raymond Aron Jacques Berque Georges Balandier and Pierre Bourdieu In retelling this history Steinmetz develops and deploys a new methodological approach that combines attention to broadly contextual factors dynamics within the intellectual development of the social sciences and sociology in particular and close readings of sociological texts He moves gradually toward the postwar sociologists of colonialism and their writings beginning with the most macroscopic contexts which included the postwar reoccupation of the French empire and the turn to developmentalist policies and the resulting demand for new forms of social scientific expertise After exploring the colonial engagement of researchers in sociology and neighboring fields before and after 1945 he turns to detailed examinations of the work of Aron who created a sociology of empires Berque the leading historical sociologist of North Africa Balandier the founder of French Africanist sociology and Bourdieu whose renowned theoretical concepts were forged in war torn late colonial Algeria

Double Impact G. Wesley Johnson, 1985-11-14 This collection of original historical essays sheds new light on the French colonial experience and the African reaction to it and breaks new ground by looking at both sides of the colonial equation Editor G Wesley Johnson believes that a double impact characterized French colonial rule in Africa during the first six decades of the twentieth century The contributors selected for their long experience with France or French speaking Africa examine nine thematic areas the economy the military elites education art architecture literature race relations and prejudice and politics to see if and how reciprocal impact was felt Finally Johnson considers the utility of double impact as a concept for understanding France and French colonial society Africa and its colonial society and the colonial period which enmeshed the two cultures as a whole
