Representing Africa John McAleer, 2017-03-01 Southern Africa played a varied but vital role in Britain s maritime and imperial stories it was one of the most intricate pieces in the British imperial strategic jigsaw and representations of southern African landscape and maritime spaces reflect its multifaceted position Representing Africa examines the ways in which British travellers explorers and artists viewed southern Africa in a period of evolving and expanding British interest in the region Drawing on a wide range of archival sources contemporary travelogues and visual images many of which have not

previously been published in this context this book posits landscape as a useful prism through which to view changing British attitudes towards Africa Richly illustrated this book will be essential reading for scholars and students interested in British African imperial and exploration history art history and landscape and environment studies *Assegais, Drums & Dragoons* Willem Steenkamp, 2012-03-22 What motivated a small multiracial force of Cape born soldiers whites coloureds and Malays to put up such stiff resistance at the Battle of Blaauwberg in 1806 in spite of odds so overwhelming that even some long serving professional soldiers broke rank and ran This was the intriguing question that launched author Willem Steenkamp's research It was an investigation which eventually took him back to 150 years before Jan van Riebeeck landed at the Cape in 1652 and involved examining the social as well as the military history of the Cape What Steenkamp discovered differs from what most South Africans think about that period and he corrects a number of serious misconceptions not only about the soldiers of 1510 1806 but about the social and political development of the Cape For students of the Napoleonic Wars the book provides new information about a forgotten aspect of that conflict for the ordinary reader here is a story no one has ever told before in its entirety *Assegais Drums and Dragoons A Military and Social History of the Cape* is a well researched and fascinating account that now illuminates a previously lightless corner of South African military history Descended from a 1690s era soldier Willem Steenkamp is a writer journalist and specialist tour guide who has also been a soldier a security advisor and a director of military tattoos and other spectacles among several other things Since childhood he has been absorbing the Cape's history from family stories one of his ancestors was a hero of the Battle of Blaauwberg and voluminous reading And yes he actually has fired flintlock muskets and muzzle loading cannon Willem lives in Cape Town *The Unending Frontier* John F. Richards, 2003 John F. **The Dutch Trading Companies as Knowledge Networks**, 2010-08-18 For more than a century from about 1600 until the early eighteenth century the Dutch dominated world trade Via the Netherlands the far reaches of the world both in the Atlantic and in the East were connected Dutch ships carried goods but they also opened up opportunities for the exchange of knowledge The commercial networks of the Dutch trading companies provided an infrastructure which was accessible to people with a scholarly interest in the exotic world The present collection of essays brings together a number of studies about knowledge construction that depended on the Dutch trading networks Contributors include Paul Arblaster Hans den Besten Frans Blom Britt Dams Adrien Delmas Alette Fleischer Antje Flöchter Michiel van Groesen Henk de Groot Julie Berger Hochstrasser Grégoire Holtz Siegfried Huigen Elspeth Jajdelska Maria Theresia Leuker Edwin van Meerkerk Bruno Naarden and Christina Skott *Knowledge and Colonialism* Siegfried Huigen, 2009-07-15 The establishment of a settlement at the Cape of Good Hope in the seventeenth century and an expansion of the sphere of colonial influence in the eighteenth century made South Africa the only part of sub-Saharan Africa where Europeans could travel with relative ease deep into the interior As a result individuals with scientific interests in Africa came to the Cape This book examines writings and drawings of scientifically educated travellers

particularly in the field of ethnography against the background of commercial and administrative discourses on the Cape It is argued that the scientific travellers benefited more from their relationship with the colonial order than the other way around
