Susan Sontag Carl Rollyson, Lisa Paddock, 2016-08-25 This first biography of Susan Sontag 1933 2004 is now

fully revised and updated providing an even more intimate portrayal of the influential writer's life and career. The authors base this revision on Sontag's newly released private correspondence including emails and the letters and memoirs of those who knew her best. The authors reveal as never before her early years in Tucson and Los Angeles, her conflicted relationship with her mother, her longing for her absent father, and her precocious achievements at the University of California Berkeley and the University of Chicago. Papers, diaries, and lecture notes, many accessible for the first time, spark a passionate fire in this biography. The authors follow Sontag as she abruptly ends an early first marriage, establishes herself in Paris, and embraces the open lifestyle she began as a teenager in Berkeley. As a single mother, she struggled with teaching at Columbia University and other colleges while aiming for a career as a novelist and essayist. Eventually, she made her own way in New York City after acquiring her one and only publisher, Farrar Straus Giroux. In her later years, Sontag became a world figure, a tastemaker, dramatist, and political activist who risked her life in besieged Sarajevo. Love affairs with men and women troubled her. Diagnosed with cancer, she responded with determination, and her experience with illness inspired some of her best writing. This biography shows Sontag always craving more life at whatever cost and depicts her harrowing final decline even as she resisted terminal cancer.

Susan Sontag: The Making of an Icon, Revised and Updated presents in candid and stark relief a new assessment of a heroic and controversial figure. Knowledge Worlds Reinhold Martin, 2021-03-16. What do the technical practices, procedures, and systems that have shaped institutions of higher learning in the United States, from the Ivy League and women's colleges to historically black colleges and land grant universities, teach us about the production and distribution of knowledge? Addressing media theory, architectural history, and the history of academia, Knowledge Worlds reconceives the university as a media complex comprising a network of infrastructures and operations through which knowledge is made, conveyed, and withheld. Reinhold Martin argues that the material infrastructures of the modern university—the architecture of academic buildings, the configuration of seminar tables, the organization of campus plans—reveal the ways in which knowledge is created and reproduced in different kinds of institutions. He reconstructs changes in aesthetic strategies, pedagogical techniques, and political economy to show how the boundaries that govern higher education have shifted over the past two centuries. From colleges chartered as rights-bearing corporations to research universities conceived as knowledge factories, educating some has always depended upon excluding others. Knowledge Worlds shows how the division of intellectual labor was redrawn as new students entered, expertise circulated, science repurposed, old myths and humanists cultivated new forms of social and intellectual capital. Combining histories of architecture, technology, knowledge, and institutions into a critical media history, Martin traces the uneven movement in the academy from liberal to neoliberal reason.
