Roberto Marinho:

Media Power and Democratization in Brazil Mauro Pereira Porto, 2012 In this book Porto analyzes the role of TV Globo in the democratization of Brazil TV Globo one of the world's largest media conglomerates has a dominant position in Brazil's communications landscape It also exports telenovelas to more than 130 countries and has established joint ventures with transnational media conglomerates Beginning in the mid 1990s TV Globo began a process of opening replacing its authoritarian model of journalism with a more independent reporting style Representations of Brazil in prime time telenovelas have also shifted Given this shift Porto considers some of the following questions What explains these changes in Brazil's most powerful media company How are they related to processes of political and social democratization How did TV Globo's opening affect Brazil's emerging democracy especially in terms of the quality of political accountability mechanisms Porto uses the Brazilian case of TV Globo to analyze the larger links between democratization civil society mobilization and media change in transitional societies Carlos Lacerda, Brazilian Crusader: The years 1960-1977 John W. F. Dulles, 1991 Journalist and spectacularly successful governor Carlos Lacerda was Brazil's foremost orator in this century and its most controversial politician He might have become president in the 1960s had not the military taken over In the second and final volume Dulles explores the political and private life of Lacerda from 1960 when he became governor of Brazil's Guanabara state until his death in 1977 Dulles focuses particularly on the years 1960 to 1968 in which Lacerda played a central role in some of the most drastic political changes that Brazil has experienced in this century **A Death in Brazil** Peter Robb, 2014-07-08 Delving into Brazil's baroque past Peter Robb writes about its history of slavery and the richly multicultural but disturbed society that was left in its wake when the practice was abolished in the late nineteenth century Even today Brazil is a nation of almost unimaginable distance between its wealthy and its poor a place of extraordinary levels of crime and violence It is also one of the most beautiful and seductive places on earth Using the art food and the books of its great nineteenth century writer Machado de Assis Robb takes us on a journey into a world like Conrad's Nostromo A world so absurdly dramatic like the current president Lula's fight for power that it could have come from one of the country's immensely popular TV soap operas a world where resolution is often only provided by death Like all the best travel writing **A Death in Brazil** immerses you deep into the heart of a fascinating country Brazillionaires Alex Cuadros, 2016 When Bloomberg News invited the young American journalist Alex Cuadros to report on Brazil's emerging class of billionaires at the height of the historic Brazilian boom he was poised to cover two of the biggest business stories of our time how the giants of the developing world were taking their place at the center of global capitalism and how wealth inequality was changing societies everywhere The billionaires of Brazil and their massive fortunes resided at the very top of their country's economic pyramid and whether they quietly accumulated exceptional power or extravagantly displayed their decadence they formed a potent microcosm of the world's richest 0.01 percent They held sway over the economy government media and stewardship of

the environment they determined the spiritual fates and populated the imaginations of their countrymen In 2012 Eike Batista ranked as the eighth richest person in the world was famous for his marriage to a beauty queen and was a fixture in the Brazilian press But by 2015 Batista was bankrupt his son Thor had been indicted for manslaughter and Brazil its president facing impeachment its provinces combating an epidemic and its business and political class torn apart by scandal had become a cautionary tale of a country run aground by its elites Over four years Cuadros reported on media moguls and televangelists energy barons and shadowy figures from the years of military dictatorship soy barons who lived on the outskirts of the Amazon and new economy billionaires spinning money from speculation His zealous reporting takes us from penthouses to courtrooms from favelas to art fairs from scenes of unimaginable wealth to desperate massive street protests Within a business narrative that deftly dramatizes the volatility of the global economy Cuadros offers us literary journalism with a grand sweep Adapted from dust jacket

scholarly examination of a powerful new phenomenon in world politics the mass media Edwards argues in his far ranging and innovative work that the media have become as important a factor in determining the course of international affairs and the future of nations as economic prosperity military strength natural resources and national will The author calls this vital new component of world politics mediapolitik He uses case studies from around the world to show how the mass media have influenced and even determined the outcome of major political acts such as the collapse of communism in Eastern and Central Europe the Tiananmen Square massacre in China the ousting of Chilean dictator Augusto Pinochet and the political resurrection of South Africa s Nelson Mandela The author argues that these case studies show that the mass media can either enrich or enslave the human spirit depending upon their moral foundation If the media follow a liberal democratic model as in the United States and Western Europe they contribute to a free and just society If they follow an authoritarian model as in South Africa before Mandela or a totalitarian model as in Saddam Hussein s Iraq or Fidel Castro s Cuba they perpetuate the regime in power and deny the fruits of freedom and democracy to the people Edwards addresses the question of how responsibly the American media the most influential media in the world handle their enormous power Using the results obtained from his survey of 100 leading journalists as well as close analysis of major news stories of the last decade the author confirms the rampant cynicism of the American media and its deleterious effect on American politics and government The solution he suggests is that American journalists must practice moral responsibility and strengthen the liberal democratic model of mediapolitik around the world

ABOUT THE AUTHOR Lee Edwards is senior fellow at the Heritage Foundation and adjunct associate professor of politics at The Catholic University of America He is senior editor of The World magazine and author or editor of numerous books including The Collapse of Communism The Conservative Revolution The Power of Ideas The Heritage Foundation at 25 Years and Goldwater The Man Who Made a Revolution
