Old Fields John R. Stilgoe, 2014-03-04

Glamour subverts convention. Models' images and even landscapes can skew ordinary ways of seeing when viewed through the lens of photography, suggesting new worlds imbued with fantasy, mystery, sexuality, and tension. In *Old Fields*, John Stilgoe, one of the most original observers of his time, offers a poetic and controversial exploration of the generations' long effort to portray glamour. Fusing three forces in contemporary American culture: amateur photography after 1880, the rise of glamour and fantasy, and the often mysterious quality of landscape photographs, Stilgoe provides a wide-ranging yet concentrated take on the cultural legacy of our photographic history. Through the medium of shop theory, the techniques, tools, and purpose made equipment a maker uses to realize intent, Stilgoe looks at the role of Eastman Kodak in shaping the ways photographers purchased cameras and films while also mapping the divisions that were created by European-made cameras. He then goes on to argue that with the proliferation of digital cameras, smart phones, and Instagram, young people's lack of knowledge about photographic technique is in direct correlation to their lack of knowledge of the history of glamour photography. In his exploration of the rise of glamour and fantasy in contemporary American culture, Stilgoe offers a provocative and very personal look into his enduring fascination with and the possibilities inherent in creating one's own images.

Angel Dorothy Jane Brown, 2017-02-23

Angel Dorothy is the inspiring biography of a formidable woman, wealthy American heiress Dorothy Elmhirst, who poured her considerable resources into founding Dartington Hall in 1925. What started as a progressive school rapidly transformed into a magnet for artists, architects, writers, philosophers, and musicians, creating an exceptional centre for British cultural life. It was at Dartington in Devon that the Labour Party's post-war manifesto was written and the Arts Council was conceived. Born in Washington DC into the influential Whitney family, Dorothy was a national darling: bells rang, flags flew, and the American Navy's new fast tugboat was named Dorothy. Orphaned at seventeen, she started giving away her inheritance at eighteen and buried herself in social and political work. She maintained her status as an unmarried woman until she fell in love with and married her first husband, Willard Straight, in 1911. Following Willard's untimely death, Dorothy worked herself into a breakdown, trying to fulfil his wishes. She recovered with the help of Leonard Elmhirst, an Englishman who shared her liberal beliefs; they married and moved to England in 1925 to start what would become Dartington Hall. In this vividly told biography, Jane Brown follows Dorothy from one side of the Atlantic to the other, a

journey Dorothy made one hundred times to spread her political beliefs her passion for education and her support of the arts for all She traces the evolution of Dartington from its restoration to its farming and forestry projects and to its time as a home for the period s greatest artists and intellectuals

The Crossroads of Crime Writing Meghan P. Nolan, Rebecca Martin, 2024-03-05 This volume argues that we must examine the boundaries in fiction and non fiction crime writing with an awareness of and turn toward the unseen structures and spatial uncertainties that so often lead to and reflect collective fears and anxieties Drawing upon the insights and expertise of an international array of scholars the chapters within explore the interplay of the literary historical social and cultural in various modes of crime writing from the 1890s to as recent as 2017 They examine unseen structures and uncertain spaces and simultaneously provide new insights into the works of iconic authors such as Christie and iconic fictional figures like Holmes as well as underexplored subjects including Ukrainian detective fiction of the Soviet period and crime writing by a Bengali police detective at the turn of the twentieth century The breadth of coverage of both time and place is an indicator of a text in which seasoned readers advanced students and academics will find new perspectives on crime writing employing theories of cultural memory and deep mapping
