## **Psychic Children:**

**Psychic Children** Joanne Brocas, 2010-10-16 *Psychic Children* is a very helpful and informative book on understanding children's psychic gifts and also includes amazing real life stories of psychic children from around the world. Read about children's past lives, intuitive children, and stories of startling contact with deceased family members from beyond the grave. There is a great chapter on Children and Angels that also introduces some of the angelic realm and the ways in which they can assist both parent and child. Children are very intuitive and use their psychic senses daily without any effort on their part. *Psychic Children* also offers great advice for parents on the development, protection, and healing of their little ones and ways in which to strengthen the intuition for both parent and child. **Psychic Children** Sylvia Browne, 2007 Discusses the psychic potential in all children and argues for greater public acceptance of children with remarkable psychic abilities.

Psychic Kids Sue Bishop, 2012 The increasingly common phenomena of psychic children: how does a parent know if their child has the gift and what should they do when they find out? While there have always been a handful of children who have premonitions, can see those who have passed over, or have imaginary friends, more of these children exist now than they did in the past. Life can be hard for these children unless they have adults who will listen and who understand these things. This book looks at highly gifted psychic children who talk with deceased grandparents and play with children in the spirit world who have past life recall, see angels and auras, have a healing gift, or can pick up on what has happened in places years before they were born. This rich collection of real life stories explores these topics and more, giving the reader fascinating insights into what is really going on with these children. It also offers good advice on what to do as an adult if you have one of these remarkable children in your life. *Psychic Children* Samuel H. Young, 2015-01-21 A Welsh child dies in the Aberfan landslide that she has predicted. A Mexican girl receives visitors from all over the world who go away cured of their ailments. A little girl describes trips that only her dead sister has taken. Marvelous visions, amazing memories of past times, eerie poltergeist energies bordering on the miraculous: these are true stories. Here is a fascinating book full of incidents, most recently investigated, in which children demonstrated striking powers of clairvoyance, precognition, and psychokinesis. Why a book exclusively about the psychic experiences of children asks author Samuel Young: Very simply, I feel their need is the greatest. They stand to suffer the most damage from those who do not comprehend their particular sensitivity. They can also make the greatest gains through understanding and the proper encouragement. While offering stunning glimpses into a magical world that is less remote than most of us think, *Psychic Children* also provides practical and heretofore hard-to-find advice to parents on how to handle a child who displays psychic abilities. Psychic Children Peggy Day, Susan Gale, 2004-11 The late twentieth and early twenty-first centuries have heralded the birth of many special children who exhibit unique sensitivities and abilities. This book shows how these children can be recognized and nurtured as the special people they truly are. Raising Indigo, Crystal, & Psychic Kids Beckah Boyd, 2009-11-23 Gifted children are prevalent in our society today.
