Reading Group A Novel:

The Richard & Judy Book Club Reader Helen Cousins, 2016-03-03 In January 2004 daytime television presenters Richard Madeley and Judy Finnigan launched their book club and sparked debate about the way people in Britain from the general reader to publishers to the literati thought about books and reading The Richard Judy Book Club Reader brings together historians of the book literature scholars and specialists in media and cultural studies to examine the effect of the club on reading practices and the publishing and promotion of books Beginning with an analysis of the book club's history and its ongoing development in relation to other reading groups worldwide including Oprah's the editors consider issues of book marketing and genre Further chapters explore the effects of the mass broadcast celebrity book club on society literature and its marketing and popular culture Contributors ask how readers discuss books judge value and make choices The collection addresses questions of authorship authority and canon in texts connected by theme or genre including the postcolonial exotic disability and representations of the body food books and domesticity In addition book club author Andrew Smith shares his experiences in a fascinating interview *The Discourse of Reading Groups* David Peplow, Joan Swann, Paola Trimarco, Sara Whiteley, 2015-11-19 Of interest in their own terms as a significant cultural practice reading groups also provide a window on the everyday interpretation of literary texts While reading is often considered a solitary process reading groups constitute a form of social reading where interpretations are produced and displayed in discourse The Discourse of Reading Groups is a study of such joint conceptual activity and how this is necessarily embedded in interpersonal activity and the production of reader identities Uniquely in this context it draws on and seeks to integrate ideas from both cognitive and social linguistics The book will be of interest to scholars in literacy studies as well as cultural and literary studies the history of reading applied linguistics and sociolinguistics digital technologies and educational research

Consuming Books Stephen Brown, 2006-04-18 The buying selling and writing of books is a colossal industry in which marketing looms large yet there are very few books which deal with book marketing how to texts excepted and fewer still on book consumption This innovative text not only rectifies this but also argues that far from being detached the book business in fact epitomises today's Entertainment Economy fast moving hit driven intense competition rapid technological change etc Written by an impressive roster of renowned marketing authorities many with experience of the book trade and all gifted writers in their own right Consuming Books steps back from the practicalities of book marketing and takes a look at the industry from a broader consumer research perspective Consisting of sixteen chapters divided into four loose sections this key text covers a historical overview the often acrimonious marketing literature interface the consumers of books from book groups to bookcrossing a consideration of the tensions that both literary types and marketers feel With something for everyone Consuming Books not only complements the how to genre but provides the depth that previous studies of book consumption conspicuously lack Strategic Reading Groups Jennifer Berne, Sophie C. Degener, 2012-03-02 Strategic

grouping can transform reading instruction in the middle grades from a hit or miss learning experience to a targeted responsive one This book features a practical and field tested model for small group differentiated reading instruction in Grades 4-8 Jennifer Berne and Sophie C Degener offer a clear detailed discussion of how to position this instruction inside middle school language arts or reading classrooms and simple effective strategies for classroom management groupings and assessment The authors explain how to 1 balance brief strategic reading lessons with whole class work 2 Structure and guide reading groups consistently 3 Assess students before and during reading groups and 4 Cue students and gauge understanding as they read Differentiating instruction is not the flavor of the month in education rather it is the essential orientation for maximizing student success Strategic Reading Groups gives teachers the tools they need to differentiate reading instruction in the critical middle years as students begin to read more complex content filled narrative and informative texts Foreword by Donna Ogle
