John Flynn Ivan Rudolph, 2012 John Flynn is one of Australia's greatest folk heroes. His achievements are stuff of legend. No other Australian has had more monuments dedicated to him than John Flynn. Flynn established a network of cottage hospitals, flying doctors, patrol nurses, welfare centres and radio transmitters to create a Mantle of Safety that would allow the Outback to be habitable for men, women and children.

Vite Italiane Susanna Iuliano, 2010 MULTICULTURAL STUDIES AUSTRALIAN *Vite Italiane* documents the migration flow of Italian immigrants from the late 1800s to the present day. This work integrates the history of the largest non-English speaking migrant group in Western Australia into the mainstream historical record and in so doing shows how the Italian speaking community has become an integral part of Western Australia and indeed the nation's social, economic and cultural fabric.

Gold Iain McCalman, Alexander Cook, Andrew Reeves, 2001-03-12 Throughout history gold has been the stuff of legends, fortunes, conflict and change. The discovery of gold in Australia 150 years ago precipitated enormous developments in the newly settled land. The population and economy boomed in spontaneous cities. The effects on both the environment and indigenous Aboriginal peoples have been profound and lasting. In this book a team of prominent historians and curators have collaborated to produce an innovative cultural history of gold and its impact on the development of Australian society.

Invisible Country Bill Bunbury, 2015 When Europeans first settled in Australia the land withheld many of its secrets from these new arrivals. There were broad rivers, wide plains and tall forests, all of which to European eyes suggested promising sites for settlement. However to many of the new settlers, the First Australians, the Aboriginal people were a puzzle. They moved freely through the country they knew intimately. What few settlers realized then was that the Aboriginal people and the land they lived in were indistinguishable. *Invisible Country* describes the environmental changes that have occurred in southwestern Australia since European settlement through four case studies of the development of local rivers, forests and coastal plains. These stories compiled through extensive conversations with farmers, ecologists, traditional owners and others who rely on the land are book-ended by an examination of the historical perspective in which these changes have occurred. It is a reminder that the land owns the people, not the other way around, and this is the beginning of a conversation about understanding and caring for the land that all Australians are fortunate to live in. Librarians' ebook available. Subject: Australian Studies, Environmental Studies, History.

Sailing on a Cusp and a Prayer Margaret Zeegers, 2024-03-03 This is a book where Jennifer Worth's *Call the Midwife* meets Frank McCourt's *Angela's Ashes* in Australia, with a nod to AB Facey's *A Fortunate Life* as it presents the early years of one migrant family's experience after arriving by ship in Australia in the 1950s. Babies, marriages, childhoods and relationships in general figure prominently, not only for those arriving with their large families but also for the Australians who had a similar fertility. All of these have provided material for rollicking good yarns about the real people of the fictional parish of St Kitts in a fictional country town in Victoria, Australia, going about their daily lives.

photos some of which were used in the British official history of the campaign flesh out his detailed story of life in and behind the lines After four months on the peninsula suffering from jaundice septic sores and dysentery Riley was evacuated sick destined first for Mudros and then Blighty He made sure to save his diary and camera Although Gallipoli had done for Riley Riley was not done with Gallipoli Even while on the peninsula he and his comrades had looked beyond the war We tried to imagine what the place would be like when the armies had gone Achi Baba would be green again the trenches would fall in and flatten communication trenches through which thousands of men had passed would be long and shallow depressions and frogs and tortoises the only inhabitants of gully and nullah Remarkably Alec Riley returned to find out revisiting the peninsula at least twice In 1930 he spent ten days wandering across the now overgrown fields of battle on a lone pilgrimage revisiting places he knew intimately 15 years before This pilgrimage and a subsequent second visit was intended to form the basis of a book again illustrated with his trusty camera Sadly the original manuscript has been lost But the editors have identified two extracts that appeared in print which they present alongside a faithful transcript of Riley s diary and notes Also included is an unpublished introduction by General Sir Ian Hamilton commander of the Mediterranean Expeditionary Force of which Riley had been a small part and with whom Riley had a decade long correspondence The editors of the diary Michael Crane and Bernard de Broglie have added copious footnotes and detailed biographical notes on the officers and men who come to life in Riley s writings as well as an order of battle and summary of arms for the 42nd Division at Gallipoli Fourteen maps illustrate the actions large and small that Riley describes alongside 47 black and white photographs most showing the battlefield in 1915 and 1930 Gallipoli Diary 1915 will appeal to readers of WW1 and military history but especially to those with an interest in the Gallipoli campaign It will be bookended by two further diaries that record Alec Riley s mobilisation and training in Egypt and his time in the Royal Victoria Hospital Netley Collectively they offer a unique window into the experiences of a pre war Territorial soldier before during and after Gallipoli **War and Healing** Albert E.

Cowdrey,1992-04-01 New Orleans born Stanhope Bayne Jones was one of the pivotal figures in the modernization of American medicine Through his life story Albert E Cowdrey s War and Healing dramatizes the growth of American medicine from a provincial and amateurish state into a major national endeavor Cowdrey shows the diversity and wide ranging impact of Bayne Jones s career A brilliant student at Johns Hopkins and a protégé of William Welch Bayne Jones became in turn dean of Yale Medical School a foundation head a general in the army s Medical Corps president of the New York Hospital Cornell Medical Center director of the army s medical research program and a member of the Surgeon General s Commission on Smoking and Health Both a unique and a representative figure Bayne Jones learned from his military experience in two wars that the fundamental business of medicine is health not disease and became a strong advocate for preventive medicine He developed a broad idealized conception of the future of medicine as a discipline free of political control organized collectively devoted to the preservation of health and divorced from entrepreneurial passions Bayne Jones was a complex fascinating man

and physician Gifted with great intelligence and considerable charm he spent much of his life in the Ivy League the halls of government and the great northeastern cities Cowdrey explores the tensions between Bayne Jones s southern roots and national aspirations between his deep commitment to his family and heritage and his restless driving ambition Bayne Jones s career forms still another chapter logical and yet unexpected in the family saga that will be familiar to many readers through *The Children of Pride*
