Reading Talk

Laura Robb

Reading Talk:

Tell Me Aidan Chambers, 1996 There is a correlation between the richness of the reading environment in which readers live and the richness of their talk about what they've read. In any group of children we find that if they begin by sharing their most obvious observations they soon accumulate a body of understanding that reveals the heart of a text and its meanings for them all. Talking about a book helps a child find the heart of a story, make sense of a string of facts and understand complicated ideas. Aidan Chambers proposes an approach for discussing books so children learn to talk well about what they've read. Indeed, not only talk well but listen well. And not just about books but about other things. For the Tell Me approach ultimately helps children learn to clarify ideas for themselves and to communicate with others. It is in short a basic step in applying knowledge and articulating meaning. Tell Me offers practical information about book talking in the classroom, explaining some of the processes and outlining the ground rules developed by teachers and others who work with children and books. From their experience he has formulated a Framework, a repertoire of questions that assist readers in speaking out their reading. Tell Me is companion to *The Reading Environment*. Tell Me Aidan Chambers, 1993 Helping children to talk well and listen well about books they have read. Read, Talk, Write Laura Robb, 2016-09-16 This book reminds us why Laura Robb continues to be such an important voice in our field. She looks through kids' eyes and sees into their futures. Literary conversations don't just enrich kids' days; they offer young people gifts that keep on giving: the ability to take risks, exercise creativity, build empathy, and develop the ability to negotiate. From the foreword by Harvey Smokey Daniels: When you get right down to it, literacy comes down to this: read, talk, write. But as every teacher knows, it can be hard for students to see and use these three moves in concert until now. In *Read Talk Write*, Laura Robb lays out the classroom structures that create the time and space for students to have productive talk and written discourse about texts. With Laura's guidance, you'll use short texts by Seymour Simon, Kathleen Krull, Priscilla Cummings, and other popular fiction and nonfiction authors to teach students how to analyze and converse about texts. Incorporate six kinds of talk into your instruction, including turn and talk, partner talks, and small group discussions. Use the wealth of in-book and online reproducibles to help students facilitate their own comprehension, building discussions. Select from 35 lessons that address literary elements and devices, text structures, and comprehension strategies, and then use them to launch student-led talk about any text you teach. Help your readers get in a read-talk-write flow and know how to move from reading to talking to writing to bring about deeper thinking. Achieve high levels of performance around inferring, comparing, and contrasting, summarizing, and synthesizing, and other key skills by way of classroom conversations that make these advanced levels the norm. *Reading for Our Lives* Maya Payne Smart, 2025-04-29 Completely revised and updated. Now in paperback. An award-winning journalist and literacy advocate provides a clear step-by-step guide to helping your child thrive as a reader and a learner. Today's children face intense pressure to meet rising academic standards and prepare for future careers, but most fall dangerously short. Early struggles

with language and literacy often snowball into lasting disadvantages Millions of U S kids don t learn to read well in elementary school driving low adult literacy rates and threatening the nation s economic productivity public health and social equity In *Reading for Our Lives* journalist Maya Payne Smart shows that the literacy crisis starts at home Too many parents expect schools to unlock their child s reading potential unaware that even the best classroom instruction which most don t get can t make up for weak early preparation or inconsistent support outside of school Smart breaks down the latest research to show parents how to do their part to build essential literacy skills She busts the myth that bedtime stories are parents greatest contribution to kids reading development She advocates instead for weaving a range of simple fun free literacy habits and activities into everyday family life and shows you how to do it With optimism and evidence *Reading for Our Lives* delivers a clear call to action and a path forward for families schools and communities to beat the literacy crisis together

More Than Guided Reading Cathy Mere, 2005 Is there too much emphasis on guided reading in primary classrooms It s a question that many educators like kindergarten teacher and literacy coach Cathy Mere are starting to ask Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts but Cathy found that she needed to find other ways to help students gain independence While maintaining guided reading as an important piece of their reading program teachers need to offer students opportunities during the day to develop as readers to learn to choose books to find favorite genres and authors and to talk about their reading In More Than Guided Reading Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning not only providing more time for students to discover their reading lives but also shaping instruction to meet the needs of the diverse learners in her classroom By changing the structure of the day Cathy found she was better able to adjust the support she was providing students allowing time for whole class focus lessons conferences and opportunities to share ideas as well as reading from self selected texts using the strategies skills and understandings acquired in reader s workshop The focus lesson is the centerpiece of the workshop It is often tied to a read aloud and connected to learning from the previous day helping to build skills extend thinking and develop independence over time This thoroughly practical text offers numerous sample lessons questions for conferences and ideas for revamping guided reading groups It will help teachers tweak the mix of instructional components in their reading

workshops and provoke school wide conversations about the place of guided reading in a complete literacy curriculum
